Bulk of the ismbs sold up to this time went agound 5.5, with three loads of very good lambs as high as 33.5, the day's high price. There were only a few scattering bunches of aged sheep on sale, and as nothing of consequence had sold at a hate house, there was no way of lining up the market. Trend of values was un-doubtedly weaker, but how much the decline would amount to was a matter of question. This Burglar Has Bacon and Eggs for His Breakfast

Stanley Pankowski, 1717 North Twentyeighth street, South Omaha, likes bacon. and eggs. Bacon and eggs were fried right in his home Friday morning, but he got only the scent of them. The scent of his favorite dish awoke him from his dreams just in time for him to hear a ourgiar clattering out of the back door Pankowski kicked the covers off his bed and leaped to the floor. He found the skiller on the stove still hot, where the burglar had fried bacon and eggs for his breakfast. But the platter was licked clean. The refrigerator was minus several eggs and slabs of bacon. The dresser was

minus two purses, one containing \$1.54 and the other \$1.80. Pankowski's trouser: pocket was minus a watch.

Milwaukee Boxcar Stores Treasures at Vera Cruz Quay

Milwaukee railroad people are taking pride in the fact that their freight car, No. 205149, forty-one feet long and with a carrying capacity of 80,000 pounds, is now doing duty as the treasure coach of the Carranza government of Mexico. It is standing on the quay at Vera Cruz, constantly guarded by a large force of soldiers.

Outside of a few Mexican officials it is not known what car No. 305149 contains, but it is supposed that it is the treasure of Carranza, kept at Vera Cruz to be easy to load onto a boat should he

Indications Point to Activity During the Summer, NEW YORK, July 9.-Dun's will say

ing the Summer. NEW YORK, July 2.-Dun's will say tomorrow: Uniform progress is not to be ex-pected at this period, when inventory and the advance of the vacation season tend to profuce quietness in various mercantile lines. It is significant of the economic changes resulting from war, however, that industrial conditions do not reflect the usual midyear iuli, and all indications point to fully sus-tained activity throughout the sum-mer mot tha. Instead of showing the customary abatement, industrial opera-tions steadily expand and each week there is a further reduction in the percetntage of idle 'machinery and in the neumber of unemployed. This is a most encouraging feature, inasmuch as the retail domand for all kinds of stapic merchandise is stimulated as more ware carpers find work payrolis increase. Since the iron who is not startifying that production at the mills and furnaces is rapidly rising close to the point of cajuacity, the output of pig iron last month being at the rate of 2,500,000 tens a year, against only 18.-00.400 tens of January 1.
