This farm is well divided into two pastures, fields in cultivation, al-

and very slovenly hands for many years, but it is a grand good stock

SHEEP-The week in the fai lamb trade opened with one big break and closed with another, so that while prices held fairly firm in between the two slumps, current values are generally quoted as some of the week's trade has been the good showing local prices made when compared with other markets, and this in spite of the fact that South Omaha's re-cepts have been comparatively heavier than at any other point. East fat lambs, which brought Sio on Friday of last week, lost a quarter Tuesday when they dropped to \$9.75. Tops remained at this figure until yesterday, when a 25035c break brought prices on best grades down to \$9.35. The slump in fat lambs has had no effect on the feeder irade, and prices on feeder stock are actually higher, some reaching \$7.85 yesterday, as sagainst a quotable top of \$7.60 a week ago. Most of them have been selling around \$7.75 all week. SHEEP-The week in the fat lamb trade

quotable top of \$7.60 a week ago. Most of them have been selling around \$7.75 all week. The extreme lightness or aged sheep offerings has held prices up, and the tone to the trade has been strong all through. No real good yearlings have shown up, but they can be quoted as high as \$7.60 and some salesmen think \$7.75 none too high for a choice string. There were saveral bunches of wethers here earlier in the week, best reaching \$6.70, and they are still quotable as high as \$7.70 very few ewes have been coming. but good kinds are moving at \$5.5000 60. The ex-pected weakmeas in sheep values yester-day failed to materialize, and when sales were made late in the day it was on a sood, firm basis. There were no fresh arrivals today and the week's total stands at \$7.500 head. This is \$000 smaller than a week ago but \$2000 larger than two weeks ago and a gain of \$5.000 over last year. The lib-eral runs this week have cut a big swain.
