

OLDEST MASON IN STATE IS HONORED

Charles McDonald of North Platte Presented with Robert Carroll Jordan Medal.

FOUGHT THE SIOUX INDIANS

NORTH PLATTE, Neb., July 11.—The oldest living Mason in Nebraska, Charles McDonald of North Platte, was Saturday night presented with the Robert Carroll Jordan medal...

COMES FROM TENNESSEE

Mr. McDonald arrived at Table Rock, Neb., in 1856 from his boyhood home in Tennessee. He immediately took an active interest in public affairs...

WHEN THE HORRIBLE INDIAN OUTBREAK

August, 1864, occurred Mr. McDonald was one of the few white men who remained here to face the Sioux warriors.

HUNDREDS MURDERED

During that month hundreds of whites were murdered by the Indians along the Platte river in Nebraska. The atrocities continued until the majority of the settlers were either killed or had fled from the state.

ALTHOUGH NEARLY 60 MR. McDONALD TAKES AN ACTIVE INTEREST

in his banking business, which he established in North Platte in 1866. He is possessed of all his faculties and has a wonderful memory.

THREE ACCIDENTS AT PLATTENMOUTH

PLATTENMOUTH, Neb., July 11.—(Special.)—At noon Saturday while he was attempting to alight from the delivery wagon of H. M. Seemichew, Henry Robertson, the driver became involved in a runaway, which he endeavored to stop by putting on the brake, which flew off, catching, and almost impaling him on the lever, he hanging there until dressed by a surgeon. The wounds were suffering greatly.

HERMAN WEISS, WHILE ENGAGED IN CHOPPING

kindling for the kitchen fire made a mistake, chopping off the middle finger of his left hand.

FRANK BLOTZER, JR., WHILE CRANKING UP HIS AUTO

yesterday, preparatory to coming to town, he living in the country, caught his arm between the crank and the radiator of the machine, causing a fracture of his right fore arm.

DOMESTIC ASKS FOR DAMAGES

AVOCA, Neb., July 11.—(Special.)—Miss Fay, a resident of Urdalla, has filed a suit against a former employer in which she asks for \$5,000 for injuries from a gunshot wound received while in his employ. The accident happened a year ago at the home of Mr. Schwartzman when a loaded shotgun which was standing in a corner was knocked down by a load of wood carried by the plaintiff, the charge entering her limb.

SCHOOLS MAY BE CONSOLIDATED

DAWSON, Neb., July 11.—(Special.)—Paterson has submitted the specific plan for next year. This will make five high schools in Richardson county. Dawson will have several trappings and is making an effort to have several neighboring districts to disband their schools and send to town. This has been done with two districts near Humboldt, one near Stella and one near Falls City, and has proved a cheap and wisest plan, particularly where the enrollment is small. The levy in some of these districts is often as low as a mill.

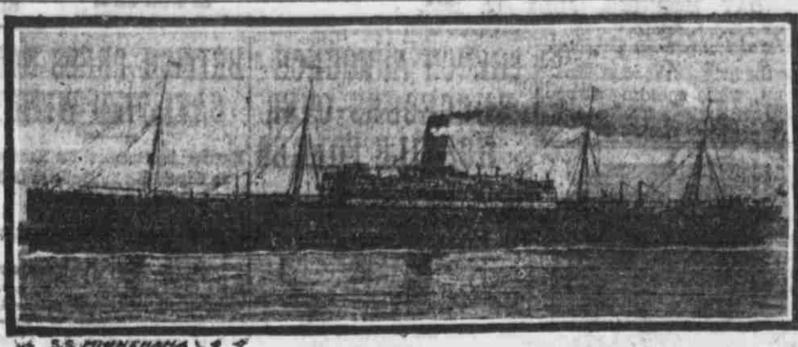

BOYS' AND GIRLS' CONTESTS

SPRINGFIELD, Neb., July 11.—(Special.)—Fifty boys and girls contests were conducted in Richardson county by the State Agricultural college. Last year only one was entered in these contests. There are sewing, gardening, corn and pig clubs and the cooking contest. Mr. and Mrs. A. H. Cordeiro, residing southwest of Stella, have three children—six girls. Two of the girls are enrolled in the sewing club and one in the cooking contest. It was their mother who secured the goldenrod to be adopted as the state flower of Nebraska.

CALLS FROM THE WIRE

Mr. Adell M. MacLennan, 81 mother of Frank P. MacLennan, died at the Topoka, Kan., hospital, Saturday, July 10, at 10:30 a. m. Her body was found by her son, Edward, floating in a pool of water. A reversal of liquidation which has been in progress for the last two or three days caused a further break of 150 per cent in prices on New York. October contracts sold for 10 1/2, or more than 50 per cent below the price of last week, and 100 a half under the high record of the season.

TRANSPORT LINER MINNEHAHA, which was found afire while 570 miles southeast of Halifax, on its way to Europe with a 35,000-ton cargo of war munitions for Great Britain. The liner left New York on Sunday, July 4, and was loading for a week before it sailed. Holt's remarks about a liner being blown up on July 7 would indicate that he had placed a bomb aboard such a liner.

MOTORCYCLE COP AND AUTOIST MIX

Motorwheel Officer Thrasher Suspended for Tilt with Joseph McGovern.

EACH CLAIMS PROPER ACTION

Police Commissioner Kugel's recent edict that motorists that have had sufficient warning about glaring headlights, coupled with a few exciting incidents on the Florence boulevard near Ames avenue last night, furnished thrills for a big crowd and resulted in the suspension from duty of Officer L. S. Thrasher of the motorwheel squad. Thrasher was at work passing out 'golden rule' police court summonses to violators of the ordinance last night when a machine driven by Joseph McGovern, district agent of the Wales Adding Machine company, drove by, headlights dimmed.

OFFICER DRAWS WEAPON

Thrasher ordered him to proceed to headquarters in the machine and explain to the captain in charge, and in the course of the command, drew his gun. McGovern started for the station and Thrasher followed on his wheel, but on account of the congestion of traffic caused by the loud argument, lost his position. Mr. McGovern arrived at the station, accompanied by several other motorists who had witnessed the argument.

MANLY WITNESSES OF MIS.

The charges made against him by Mr. McGovern and which were substantiated by T. J. Lyons, 1833 Deer Park boulevard, and George Donovan, 346 South Seventh, were so strong that Acting Chief Dempsey sent out for the officer and relieved him of his badge, pending a hearing before Commissioner Kugel. When Thrasher arrived at the station he admitted pulling his gun on McGovern, but said he did so to save himself from being roughly handled. Mr. McGovern's story of the affair is substantiated by at least a score of witnesses, all of whom declare the officer displayed unbecomable temper and acted without reason. Thrasher says he was justified in everything he did. The hearing will be held in Mr. Kugel's office Monday morning.

HYMENEAL

FALLS CITY, Neb., July 11.—(Special.)—Miss Sara Hutchins, daughter of Warren Hutchins of this city, and L. N. Lyon of Omaha, son of Mr. and Mrs. L. N. Lyon of this city, were united in marriage at the home of the bride's father at noon today. The wedding was a very quiet affair, only the immediate relatives of the contracting parties being present. The bride is one of the favorites of the society set and a most capable young woman. She was reared near Hubbard and received her education at the Young Ladies' seminary at Liberty, Mo., and later at the University of Nebraska, where she was a member of the Phi Beta Kappa society. Mr. Lyon grew to manhood's estate and received his education in this city. He is the owner of a large ranch near Sundance, Wyo., to which place he took his bride for the summer.

DEATH RECORD

Mrs. Alma Hilderman, who died at Denver, Colo., was brought to this city today. The funeral was held from the Christ Lutheran church at 3 p. m. Mrs. Hilderman was born in Falls City, July 11, 1881, and was married in this city several years ago, and that time became a resident of Kansas City. She was the daughter of C. H. Kallek of Kansas City, a former resident of this city.

Wounded Australians Return

(Correspondence of The Associated Press.)—MELBOURNE, Australia, July 11.—Australia has set a number of records for airplanes, including the dispatches of troops thousands of miles to the front line and the extraordinary exploits of the submarine AE-2 in covering 3,000 miles before its loss at the Darlanelle. Hundreds of wounded Australians are also to be brought back to the commonwealth from the hospitals at Alexandria, as soon as the heat of the Red Sea has lessened. The influx will begin next October or November, but already steps are being taken to cope with the situation.

U. S. OFFICIALS VIEW SITUATION AS VERY GRAVE

(Continued from Page One.)

will maintain the dignity of the United States and give promise of obtaining some satisfactory settlement of the dispute. There was no denial in any quarter that the general situation was fraught with grave possibilities. This was indicated, however, in the undertone of comment rather than in any direct way.

On the lax of the case the American position was held by officials to be absolutely impregnable because it was founded on the well-recognized principles by which nations have long been guided. A deadlock has been reached, it was declared, on the legal interpretations, respectively, held by Germany and the United States on submarine warfare as affecting the rights of neutrals.

The question seemed to most officials now rather one of national policy involving the settlement of whether the continued insistence on American rights would develop a situation menacing the peace of the United States or whether a passive acquiescence in the German point of view would embarrass the American government in its relations with other nations.

LOOK TO THE UNITED STATES

Many neutral nations have indicated informally to the United States that they looked to this country to uphold neutral rights under international law and their envoys here were alert tonight for information concerning the probable course of the United States so that their foreign offices might be promptly advised. Analysis of the unofficial text of the note confirmed impressions given by Ambassador Gerard during the last few days that practically none of the American demands would be heeded. The American ambassador had reason to believe that two weeks ago a favorable answer might be expected, but within the last week, he called Washington repeatedly not to expect a satisfactory answer.

JUST WHAT WAS RESPONSIBLE FOR THE CHANGE

in the situation and the final determination of the German government to refuse the assurances asked for in the American note, officials here would not say. Many of them, however, did not hesitate to comment on the apparent similarity in the proposals made by Germany with views expressed by former Secretary of State Bryan. These have been frequent intimations, too, through official sources here that since the resignation of Mr. Bryan, high German officials believed public sentiment in the United States was divided and would not continue unanimously to support the position taken by President Wilson.

COMMENT OF THE PRESS

Editorial comment by American newspapers was read with deep interest by officials and there was satisfaction when it was learned that apparently the newspapers largely concurred with the official view here. Secretary Lansing spent the afternoon at home at work on memoranda on the situation. Secretary Tammity was in frequent communication by telephone with President Wilson.

THE DATE OF MR. LANSING'S DEPARTURE

for Cornish with the official text of the reply has not been decided. Only three sections of the five in which the note was signed by Ambassador Gerard has reached here late tonight. Tomorrow the complete text will be available and will be made public.

Secretary Lansing said he had no reason to doubt the correctness of the press copy, which arrived here earlier because it was not delayed in transmission, but he could not take the question formally under consideration until the official text was in his hands.

Several cabinet officers were absent from the city, but it is probable that they will attend their president their suggestions in advance of the next cabinet meeting.

CONSUL VON BERNSTORFF, THE GERMAN AMBASSADOR

who was here today from his summer residence, would make no comment. It was indicated, however, in German diplomatic circles that the reply was viewed as opening the way to further friendly relations.

WITH AFTER HURON

Although the management of the Holt has turned down Hreschak's first offer for Huron, Hreschak still hopes to be able to make a trade for the great ship.

VETS OF THREE STATES HERE WILL VISIT THE DEN TONIGHT

Missouri Valley Veterinarians' Association Starts Three Days' Convention.

Veterinary surgeons from Missouri, Kansas and the Dakotas began to arrive in Omaha Sunday for the annual convention of the Missouri Valley Veterinary association, which is to be held beginning today and running for three days, July 12, 13 and 14. They gathered at the Hotel Rome, which is headquarters for the delegates. The convention sessions are to be held at the Hotel Rome. The veterinarians are bringing their women with them in many cases. The women plan to do a lot of sight-seeing while in Omaha and to make a few shopping tours. This morning the executive committee is to meet at the hotel at 10:30. Then at 1 o'clock in the afternoon the convention is to be called to order by President Slinger of Kansas City.

ANIMAL SANITATION

Some important papers on diseases of animals and their treatment are to be heard from the various veterinarians. Important matters of animal sanitation are to be taken up. Veterinary advertising is to be a subject discussed. Mistakes made in hog cholera vaccination is another point that is to be discussed. In fact, the whole field of veterinary activity is to be covered in the three days' meeting.

LOCAL ARRANGEMENTS HAVE BEEN MADE

by the arrangements committee and the entertainment committee, co-operating with the bureau of publicity of Omaha. There is to be a meeting of the live stock sanitary officers of the various states at the hotel Wednesday forenoon. Uniform interstate shipping rules are to be taken up. A clinic will be held at the Union Stock Yards pavilion Wednesday forenoon.

THIS EVENING THE DELEGATES ARE TO BE ENTERTAINED

and initiated at Ak-Sar-Ben Dea. Called to Edgar. NORTH PLATTE, Neb., July 11.—(Special.)—The Rev. J. C. Christie, pastor of the local Presbyterian church, has received a call from Edgar, Neb., and will accept. He with Mrs. Christie leave next week for his new field.

CHANCELLOR'S CAR HITS LITTLE GIRL

Head of Nebraska University Runs Down Child While Rushing Three Men to Hospital.

ARE OVERCOME BY FUMES

(From a Staff Correspondent.)

LINCOLN, July 11.—(Special Telegram.)—Chancellor Avery of the University of Nebraska accidentally struck a little 17-year-old girl with his automobile this evening, seriously injuring her, and she now lies in a hospital unconscious.

E. G. Maxwell, H. G. Young and J. M. Hall, three professors at the state farm, were found by Frank Wolf, a watchman on the farm, in the shower bath room unconscious from the fumes of a gas heater, which in some way had become defective. He dragged them out on the grass and called the chancellor, who was at the farm with his car. The two men placed the unconscious men into the car and started for a hospital.

Driving rapidly while crossing Vine street, Grace Brown, 12 years of age, daughter of Mr. and Mrs. R. A. Brown, ran out into the street in front of the car. The chancellor endeavored to turn his car and ran it across the street over the curb and against the porch of a house, but did not entirely miss the girl, one of the fenders of the machine striking her and knocking her down. The chancellor placed her in the car and took the four to a nearby hospital. The men are recovering all right, but the little girl appears to be quite seriously injured.

LEPERS ALLOWED TO WED EACH OTHER IN RUSSIA

(Correspondence of The Associated Press.)

PETERSBURG, July 11.—The Russian medical council has informed the Holy Synod that there is no objection to lepers marrying lepers, although the union of a leper to a healthy mate should not be allowed. This is the council's answer to the question raised by the Russian church.

The influence of the parents on their offspring in the spread of the disease is considered weak, since the percentage of infant leprosy is very small, only about 5 per cent. Fertility also decreases among lepers as the disease advances. Leprosy is not believed to be a hereditary disease, but one due to contact. For a leperous mother to part with her infant is painful, although necessary if the child is to be saved. But marriage brings at least some happiness into the tragedy of disease-stricken lives.

WINDOW BOX GARDENING ADVOCATED IN GERMANY

(Correspondence of The Associated Press.)

HAMBURG, July 11.—Not content with urging that back yards and tennis courts be made to grow vegetables, the proponents of what may be called "window-box gardening" are now hard at work.

It is the exception rather than the rule that a German city or country house is without its window or its balcony flower box. It is urged that these boxes, instead of being used for flowers, be devoted to beans, hops, or cucumbers. The proponents of the new plan outline carefully just what kinds of vegetables can be grown practically in such limited quarters and just how they should be tended.

Drink Schlitz in Brown Bottles

and you consume much the same food, in a different form, as the cereals served on your breakfast table. Both contain energy producing properties. Physicians and scientists are urging greater precaution to protect the purity of such a health-giving beverage as beer.

Schlitz Was the First in America

to recognize this necessity. Hence the Brown Bottle, which keeps Schlitz pure and wholesome from the brewery to your glass. Schlitz in Brown Bottles costs no more than light bottle beer.
