GRAIN AND PRODUCE MARKET

Heavy Rains Make Market Bullish and Wheat Advances One and Two Cents in Price.

RECEIPTS ARE QUITE LIGHT

OMAHA, July 14, 1015. Heavy rains and generally unsettled reather continue to have a buillah effect Heavy rains and generally unsettled weather continue to have a buillah effect on the market.

Cash grains were stronger today and made good advances over yesterday's quotations.

Receipts of wheat and oats were exceptionally light and there was a fair demand for both of these cereals.

Wheat sold light higher, while oats were quoted unchanged to be up.

Light receipts and a pretty fair demand caused an advance of he in the corn market. market.
Oats are very scarce and some of the larger houses are asking for extensions on their sales for July shipment.
Bad roads and uncertain weather is delaying the hauling of these grains and it is difficult to say just when the movement of the new crop will begin.
Clearances were: Whost and flour equal to 60,000 bushels; corn, 6,000 bushels; oats, 314,000 bushels.
Liverpool close: Wheat and corn not quoted.
Primary wheat

Liverpool close: Wheat and corn not quoted.

Primary wheat receipts were 372,000 bushels and shipments 240,000 bushels and shipments 240,000 bushels and shipments of 1.413,000 bushels last year.

Primary corn receipts were 627,000 bushels and shipments 638,000 bushels against receipts of 451,000 and shipments of 418,-000 bushels last year.

Primary cats receipts were 582,000 bushels and shipments 478,000 bushels, against receipts of 757,000 bushels and shipments of 787,000 bushels last year.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, July 14.—Anxiety regarding black rust forced an advance in wheat prices today that bordered on the sensational. The market closed strong at 450 545c above last night. Corn finished a shade to %c up, and oats with a gain of 460 6c. In provisions, final quotations varied from 10c decline to a rise of 20c. Fresh reports of black rust infection were accompanied by signs that foreigners had abundoned a waiting policy in regard to buying wheat. It was found that offerings in the pit had lodged in strong hands, chiefly firms with connections at the seaboard. Speculators who had been indulging in short sales were unable to protect themselves and there were many stop-loss orders executed during the upward whirl that was witnessed as the session came to an end. The buying flurry received some additional impetus from a buillish construction placed on the government's weekly crop report and on Berlin advices regarding Germany's attitude as to submarine warfare.

Free selling by skeptics about black rust danger depressed the wheat market until about the middle of the day. Return the season cannot be middle of the day. Return the season courred at points in all western districts of the corn and wheat until about the middle of the day. Return the season cannot be middle of the day. Return the season cannot be middle of the day. Return the season cannot be middle of the day. Return the season cannot be middle of the day. Return the season cannot be middle of the day. rust danger depressed the wheat market until about the middle of the day. Renewed rains, however, in Kansas and other important sections of the harvest region tended to theck the bears. There was no decided upturn, though, previous to the receivt of dispatches from the northwest that seemed to imply a more serious outlook as to the dreaded black rust.

earnings have never been less than 9 per cent in the past twelve years. You can invest in amounts of \$100 or more. See or write us at once about it.

tions in corn and wheat region for week ending July 13, 1815; WASHINGTON, July 14.—Rains in the washington, July 14.—Rains in the winter wheat states delayed harvest in the central and northern districts, and much ripe wheat is unout, and soil is too wet for operations and wheat in shock is sprouting. In the southern portions the area is drier and harvesting is completed and threshing is progressing with satisfactory yields. In the spring wheat states less cool weather, with sufficient rains, made a favorable week, and wheat is now heading in the southern portion and the outlook is promising. For corn the week is less unfavorable than the proceeding one, although continued rains in important portions delayed cutivation. Also in northern districts corn continues small. Oats harvest was delayed, rains promoting too heavy growth in some sec-

promoting too heavy growth in some sections, and rust in others, but is progressing well generally. Haying was delayed by wet weather in several states.

HOGS—Another very moderate hog run showed up today, estimates calling for sixty-eight cars, or 4,700 head. Total for the first half of the week is only 14,120 head, being 2,000 smaller than a week ago over 20,000 short of two weeks ago and just a little over half as large as for the corresponding days last year. The receipts for the three days are smaller than for any similar period since the first week of December last year, when only a little over 13,000 head were reported in.

Under the influence of encouraging advices from other markets the trade took

Under the influence of encouraging advices from other markets the trade took a brace this morning. Shippers bought over half the receipts at prices that were quoted as anywhere from steady to as much as 56;10c higher. Shipper buyers considered their general cost as close to 5c higher.

Packers, with less than half the small supply at their disposal, started out bidding steady, and finally put up their droves at prices that were in most cases a nickel higher, although a few sales were considered as no better than steady. A decent clearance had been made by shortly after 10 o'clock.

On the whole the trade was mostly 5c up. Shippers bought hogs that they would not have looked at yesterday, while packers, on the other hand, were forced to be satisfied with droves that were made up, to a great extent, of the undesirable ends of sorted loads. Bulk of the killer hogs was cashed around \$6.70, with odd pieces of loads down as iow as \$8.30. Shippers' range of prices was even wider than vesterday, their purchases being made all the way from \$6.75 to \$7.30, the lattre figure being the day's top.

Following its usual custom the market
cluded generally in the final dealings,
when the deman- for most of the sueclaities showed signs of having run its
course, for a time at least. The closing
was bregular with some alight net losses,
notably in Canadian Pacific, Sotuhern Pacific and Reading Missouri, Kansas &
Texas issues were acutely weak, the preferred stock selling at the new low price
of if. Total sales amounted to 472,000.
Francs were the feature of today's forsign exchange market cables and checks
on Paris strengthening perceptibly in anticipation of the successful outcome of
the credit operations now pending with
our bankers
Heavy sales of United States Sicel 5s
and Consolidated Gas 6s marked the deallings in the bond market. Total sales, par
value, were \$2,345,000. United States bonds
were unchanged on call.

LOAN SHARKS PUT OUT BY NEW LAW

or Preparing to Close, as Result.

HEAVY BAN PUT ON USURY

With several hundred new lows laws which became effective on July 4, and no possibility of getting a single copy of lows are liable to be jailed for violating know of Chattel loan brokers at Council Bluffs.

however, have received typewritten copies

of a new anti-concre law which is driving

a place where a chattel loan can be negotiated in Council Bluffs. Senate file No. 527, introduced by the state's interest laws, but its title is: "An act to punish loan agents and others for receiving a greater rate of interest

a penalty therefor." The penalty provided is what has scared out the local loan agents, for it calls for a fine of not less than \$25 nor more than \$500 and imprisonment in the county jail not less than thirty days nor more than three months.

Details or New Act.

The new law is brief. It only has one section outside of the enacting clause and as it is almost impossible to secure a copy at all, and then only at great expense, the law is given herewith in

company, corporation or firm, and every agent of any person, persons, corporation or firm who shall receive, or agree to of commissions or brokerage charges, or otherwise, for the forbearance of use of any money, a greater rate than 2 per of a misdemeanor, and en conviction thereof shall be punished by a fine of not less than \$25 nor more than \$500, and by imprisonment in the county jail for a period of not less than thirty days nor more than ninety days.

"Nothing herein contained shall be construed as authorizing a higher rate of interest than is now provided by law. But the person or corporation making the loan shall be permitted to charge and include within the loan a reasonable of the security, or also the cost of drawing papers, not exceeding \$1, and cost of recording same, which cost of investigaper cent of the amount of the lean when the loan is under \$50 nor more than \$6 in any event, and no recording fee shall be included unless an instrument is actually included."

Death Knell for Firms. Bluffs loan men say this is the death knell of the business and that it will cease to exist. The National Loan company has gone out of business entirely. The Globe Mortgage company has ceased making new loans and is closing up its business. Several other loan companies have announced that they will probably wind up business in the near future. A. A. Clark & Co., the oldest and

strongest company in the city, announced

last evening that business would be continued for a while, at least, while the makers at least \$150,000. Loan men point out that the business cannot be done on 2 per cent a month margin. For illustration, a loan broker has all of his capital of, may \$10,000, out in loans of \$50, or the usual small amounts. At 2 per cent his income will be \$200 a month. It will require two men to look after these loans, and even the utmost care cannot The pay of the men will be not less than \$75, or \$150 a month, then office rent, telephone, postage, stationary and other expenses more than consume the remaining \$50, more than absorbing the earnings of

> the pica of usury. The legal rate of in terest in Iows is 5 per cent and anything in excess of that is pronounced usury and the penalty is the forfeiture of all the

Urge Military Duty For Men, 18 to 45

NEW YORK, July 14.-The development of the National Guard to the full limit of efficiency, making it serve as an effective school for officers; a course of study in the public schools calling at-tention to the need of public services; sports and physical drills for school children; a theoretical training in the art of maneuvering as a part of the college curriculum; an official classification of all those fitted for military enrollment; and a requirement of some military duty from all persons between 18 and 45 years of age, are among the matters urged in the report issued today by the militia league. The committee has just concluded its investigation of the military needs of the United States and the best method of supplying them, insofat as they relate to the state militia.
