HOGS—With only a moderate Friday run, the advices from other points very encouraging, another sharply higher market was in order this morning and shippers had to give prices that were logisted higher before they could fill their orders. Nothing at all desirable went to shippers under even money, and sales ranged from \$1.00 up, quite a sprinkling reaching \$7.50, the day's top.

Packer trade opened very quiet, and it looked as though buyers were waiting to see how extensive shipper operations were before starting out. When they finally made first bids they were no more than 5c higher, but they falled to get any hogs on this basis, and in the end killer droves were put up on about the same basis as those of the shippers, that is, legific higher. The market was very ragged, and a number of individual sales could be pointed out that looked as much as 20c or 25c higher, but, as a general thing, a 10215c advance covered the market.

Most of the packer droves were purchased around \$5.90, with sales ranging largely at \$5.8000.00. As was stated before shippers moved mostly at \$7.00 and up, there being a good showing clear up to the top. \$7.50.

Receipts were larger than for any previous day this week, but at that were moderate for a Friday, about eighty cars.

BRADSTREET'S TRADE REVIEW

Factors Making for Expansion Mul-- tiply. NEW YORK, July 16 .- Bradstreet's tomorrow will say:

NEW YORK, July 16.—Bradstreet's tomorrow will say:

Pactors making for expansion multiply,
Evidence la provided by such facts as
considerable improvements in industrial
matters, victually full movements in finished steel, overtime work in numerous
war order lines, smart activity at shipyards, freer distribution of seasonable
goods, somewhat fairer skies aiding
crops, bounteous yields of foodstuffs, better collections, growing scarcity of labor,
slightly larger sales of steam coal, absence of strain in money matters at the
crop moving season, increased construction placed to take care of war orders
and some western agricultural implement
makers resuming operations, whereas
awhile ago it seemed as though work
would not be started before September.
There is a notable absence of talk of
abitidowns due to nocessity for repairs
or for vacation purposes. Pregular improvement in railway freight tomage, accompanied by a uniformly heavy movement of the passenger traffic, is reported.
Commercial paper sells freely at the
west but demand for money is not remarkable, and consequently the general
supply of commercial paper is not large,
while low rates rule.

Pank clearings for the week were \$3,325,601,000.

European to extend to options than to cash. led to a temporary setback soon after the opening, but an offset gradually developed in the shape of fair buying on the part of foreigners. European demand appeared to extend to options even more

than to cash.

Corn rose in response to wheat strength and as a result of good inquiry from shippers. Hot weather that favored rapid growth failed to have any lasting effect on values. In the oats crowd shorts were on the buying side most of the day. Storms in the west were said to have laid many fields flat and there was an active call from the seaboard.

Selling by packers weakened provisions. No attention appeared to be given to the decided advance in the price of hogs.
