Kansas Wheat Crop Short.
Gustav Dilbert of Atchison, Kan., a cousin of Colonel Philip Ackerman, hotel commissioner, is visiting him this week. He says conditions surrounding the harvesting of the wheat crop in his locality are alarming. Very little of the wheat is cut because of wet fields, while a large quantity of that which has been cut is sprouting in the shock. It is estimated, according to the Kansas man, that the wheat crop of that state will be 30,000,000 bushels short this season.

Saunders Crop Good.
Dr. E. O. Weber, a prominent democrat of Saunders county, was in Lincoln today. Dr. Weber says the crop outlook in his county is exceptionally fine. There will be about 63,000 acres of wheat, 90,000 acres of oats and 153,000 acres of corn in Saunders county this year, and wheat that has been threshed so far has been turning out around the thirty bushels per acre mark.

Three Generations In German Army

(Correspondence of The Associated Press.)
DRESDEN, Germany, July 18.—A remarkable case of three generations in the field has just been discovered. The unusual honor belongs to the family of Kloetzer, near Bookwa near Zwickau.

Kloetzer, sr., a veteran of the war of 1870, in which he won the Iron Cross second class, volunteered for service in his sixty-seventh year, at the beginning of the war, and went into the field as captain of the First company of the Zwickau reserve battalion. He has been advanced to major and has received the Iron Cross first class.

His son is in the field as captain of the Eighteenth Lithuanian regiment, and his grandson is lieutenant in the Thirty-second reserve artillery regiment. Both of the latter have been decorated with the Iron Cross second class.

Too Nervous To Drive a Car?

That's too bad, old man, but you know nervousness is largely due to wrong habits of eating and drinking. If you would quit coffee and use Postum your nerves would steady up.

Postum tastes much like fine, mild Java but there's no drug in it—that's where it's got coffee beat a mile.

Sound advice.

More and more, people are waking up to the harmful effects of caffeine—the drug in coffee—a frequent cause of nervousness, heart flutter, dizziness, headache, and other ailments.

Instant Postum

is the soluble form of the original Postum Cereal. A level teaspoonful of the crystalline powder in a cup of hot water makes a delicious food-drink instantly. 30c and 50c tins.

The convenience of Instant Postum is seen at a glance, but some prefer the original Postum Cereal which must be thoroughly boiled—15c and 25c packages. Grocers sell both kinds and the cost per cup is about the same.

CURE TEMPTATION, PURISTS ARE TOLD

Chicagoan Tells Them They Have Got to Use Some Common Sense and Not Shout Suppression.

NEED REFORMING THEMSELVES

SAN FRANCISCO, July 22.—Dr. E. H. Pratt of Chicago, who was to address the International Purity Congress today on "The Actor, the Stage and the Play," astounded his audience when he laid aside his folded manuscript and turned loose a volley of pointed criticism of the propaganda of the purists.

He was expected to follow out the expressed ideas of previous speakers who have maintained that the stage and actors needed reforming. But the Chicagoan abandoned his text and declared that the methods and standards of the International Purity Congress needed reformation before it could hope to eradicate the evils it condemns.

"All the talk, steam and force of the speakers of this convention," he said, "are in line with suppression, suppression, suppression. What are you going to do about vice? Can you punish any harder than the instruments in the middle ages did? Can you preach any louder than did those who lived at the time of the crusades?"

"Give me a remedy for temptation. There's the real rub. All else is suppression and not cure, and suppression is like a boiler filling with steam—when it gets chucked full enough, pop goes your boiler. You people have got to use some common sense."
