

TOMATOES OF POOR QUALITY

Prospects Bad for Local Crop—Apples Are Cheap—California Peaches Next.

POTATOES GROW CHEAPER

Tomatoes are of a rather poor quality at present, owing to the bad weather that has continued for weeks. In former years they have sold at this time of year for from 50 cents to \$1. Now they are selling at from 25 to 30 cents a market basket, according to the grade. The prospect is bad for a good local crop of tomatoes, according to dealers.

Apples are as cheap a fruit as one can buy at this time. Nice cooking apples can be had at 15 cents a peck. Southern Elberta peaches are about winding up this week, while California

Elbertas are on the market at 75 cents a crate.

California plums are 50 cents a crate, and not many are being sold, although the quality is especially fine.

Lemons are the cheapest ever known at this time of year in Omaha. Nice lemons can be had at a dime a dozen. There is no record of any such quotation on lemons in August in any former year in Omaha.

Cantaloupes are still abundant and are selling at from 5 to 7 1/2 cents apiece.

Plenty of Casaloupes. Potatoes are 20 cents a peck. They have settled back again after a temporary rise in price due to the extreme muddy fields in which potatoes for a time could not be dug for the market. For a time they sold at 90 cents and \$1 a bushel; but now can be had at 65 and 70 cents a bushel.

Cabbages is still a cent a pound and of good quality at this figure.

Flour has taken another advance and is now selling at \$7 and \$7.50 a barrel.

In the retail market it has gone up a dime a sack in the last week. It is costing \$1.50 a sack now.

Butter is steady at 35 cents a pound. Eggs are steady at 15 cents a dozen. Cheese of all grades is remaining about steady.

TEST OF LOAN SHARK LAW IS TO BE MADE

Jules Althaus loaned Alonso Winslow \$5 and together with the commission and interest, charged him a rate that amounted to 30 per cent per annum. The loan became due and was not paid, Winslow asserting the rate was in violation of law. Althaus will probably seek to collect and then be arrested. If convicted, he will appeal, taking the case to the supreme court in order to test the law.

The loan shark law was passed by the legislature last winter and became operative July 1.

Merry Time for All at the Armour Camp

Just to make doubly sure the Armour girls were having a good time at King's lake, Messrs. Orchard and Shields of the Armour company, accompanied by their wives, motored to the lake Thursday and proceeded to make things hum with merriment. A huge camp fire was made and a "wiener" roast was indulged in. Mrs. Hudson, the congenial chaperone of the camp, hastily dispatched invitations to all the campers at the lake, and they responded in large numbers.

Liver Complaint Makes You Unhappy.
No joy in living if your stomach and liver don't work. Stir your liver with Dr. King's New Life Pills. 25c. All druggists.—Advertisement.

"Our Headlines on the Screen" STARTING MONDAY, AUG. 9

WHAT happens in Omaha is of a great deal more interest to you than what happens in Antwerp, in Ypres, or in Przemysl. An accident in a local park in which people whom you know are lost is more important to you than a marine disaster which wipes out over a thousand lives.

In other words, what is "front page stuff" to you is the event which concerns your everyday life. And, generally speaking, you are more interested in domestic than in foreign news.

Our New Affiliation Puts "Our Headlines on the Screen"

So the Omaha Bee has arranged that the important news events happening right here in Omaha and some that happen in other parts of the United States, will not only be told you in print but actually will be shown you in motion pictures! This has been made possible by our affiliation with the National News Weekly, a service organized to provide the public with a News Pictorial based upon matters of local interest. You will be shown a film equally divided between local and national

events. You will see "our headlines on the screen." That fire in your block, that celebration in your community, that sporting event in your city—all of these will receive as much attention as do the news events from other American cities.

These Weekly Pictures Will Abound in "Local Color"

A camera man is to work under the personal direction of the managing editor of The Bee. This insures an accurate and most timely review of local events. No fire, wreck, accident, parade, sporting event or other happening of interest will be permitted to escape the vigilant eye of the camera. The photographers—they constitute the largest force of camera men employed by any news service—have had the benefit of a special course of instruction to develop their news sense. Some exceptional films may therefore be expected.

See These Bee Pictures at Your Neighborhood Theater

We urge you to see these pictures which are to present an entirely new idea in news photography. You can read about current events in The Bee. You can see them on the screen at your neighborhood theater. *Do so!* Ask the manager of your local theater what day The Omaha Bee World Film Weekly will be shown. Ask him any other particulars you'd like to know.

We consider it a privilege to be able to offer our readers this new service and assure you that you will find the pictures to be most interesting. You must surely see them.
