OMARA, Aug. 16, 1915.

OMARIA, Aug. 16, 1915. The receipts of wheat were very large at all the leading grain markets. These receipts, together with the light domand, caused a drop of 2s to 5%c in the local wheat market. The receipts of all grains on the local exchange have improved during the last few days, and it is the opinion of many of the local grain merchants that there will be a big increase in receipts during the next two weeks. The costs market was very weak and declined 5c to 5c. The market sold unchanged to 5c The receipts of this practically no demand. Threshing has been resumed in the wheat wheat belt and harvesting is gen-eral in the apring wheat country, which means a big movement, no matter what the price may be, as there will be many who will be forced to sell at buyers' prices. Charances were: Wheat and flour.

Championship Bout at Seymour Lake

NEW YORK, Aug. 16.—Further furious manipulation of the war shares at higher prices, relative heaviness in investment issues and utter demoralization in the markets for foreign exchange were the conflicting fostures of today's session on the stock exchange. Trading in the war issues completely overshadowed the deal-ings in other parts of the list. United States Steel being the only former favorite to manifest activity and strength. On a very large overturn, ranging in in-dividual lots from 1.00 to 4,000 shares steel touched 70% or 1% of its top quotations of recent years. The qualifying round in the annual play for the club golf championship was staged at the Seymour Lake Country club Sunday. The following are the pairings for the match play in the first round

dividual lots from 1.00 to 4,000 shares steel touched 70% or 1% of its top quotations of recent stars. New high records were scored by Ameri-can Can at 64%, pressed steel car at 67. Westinghouse at 118 and Studebaker com-mon and preferred at 120 and 106%, reapec-tively. The extreme gain of Studebaker com-common for the day, was 20%. Numerous other stocks in the same class added 2 to 6 points to last week's final quotations, with irregular recensitions at the close. Coppers recovered from their recent leth-argy, the advance of 1 to 3 points being filmulated by reports of large sales of the refinal metals to foreign interests presumably the allies. The railways were under persistent pressure until the final hour when a recovery in the exchanice markets cauged an inquiry for the Pa-cifics and other dividend payers. Total sales aggregated 250,000 shares. The feature of greatest unsettlement was the decline in remittances to London, Paria and Italian points to new low records. The annual eighteen-hole team compe tition between the fats and leave was played at the club Sunday with victory

for the leans, 31 to 10. Fourteen men played on each team.

Some additional support for wheat de-veloped in the late trasactions, owing to fears that a guif storm reported at Gal-veston would bring heavy, unwelcome rains in the winter crop states southwest. Corn weakened with wheat. Subse-quently, however, pessimistic crop advices from lowa tended to bring about a rally that left the market steady at the close, with September 73% c and December 63% Side. RALSTON LOT OWNERS SLOW PAYING TAXES

So large a part of the lot owners of the village of Raiston are delinquent in the payment of their special water tax levied when the \$16,000 waterworks system was installed about two years ago, that the village is hard pressed to meet its obli-gation on the \$15,000 bond.

Notices are being sent out to some of the owners of town lots specifying what the special levy is on their lots with interest, and giving the owners an opportunity to make settlement before suit is brought.
