Slight Advance in All Markets, Wheat Leading with Price Increase of One Cent.

CORN MARKET HOLDS ITS OWN

OMAHA, August 18, 1815. There was a slight advance in all mar-There was a slight advance in all markets today.

The receipts of wheat were light and there was a pretty good cash demand. The market sold unchanged to le higher. Corn was also firm and sold unchanged to be higher. There was a pretty active demand for this cereal and would have taken care of larger receipts.

The rise in the corn market is generally thought to be caused by the wet weather and unfavorable crop conditions in the northwest.

Oats were steady, selling unchanged to be higher.

The receipts of this cereal were light and there was a pretty good demand shown.

Receipts of rye were unimportant and the few sales were about le over yester-

Receipts of rive were unimportant and the few sales were about it over yesterday's prices.

There was no barley received on the floor today and that market remained nominally unchanged.

Clearances Were—Wheat and Flour: Equal to \$10,000 bu. Corn: 27,000 bu. Oats: 1,000 bu.

Liverpool close: Spot wheat, unchanged; corn, unchanged to 146d higher.

Primary wheat receipts were 1,758,000 bu., and shipments \$15,000 bu., as against receipts of 1,655,000 bu., and shipments of \$80,000 bu. last year.

Primary corn receipts were 580,000 bu., and shipments \$65,000, bu., as against receipts of 1,279,000 bu., and shipments of \$67,000 bu. is year.

Primary coats receipts were 1,459,000 bu., and shipments of \$67,000 bu. is year.

December and May were the whoat options here that chieffy felt the influence of the promising outlook in the spring wheat belt. The harvest northwest was reported to be well under way clear up to Winniper, with big yields and fine quality the general rule. In this connection, a leading Chicago expert telegraphed from Portage La Prairie that the crop this season was the beat he had ever seen in Manitoba. Nevertheless the September delivers here showed a tendency during the greater part of the day to tighten in value, going to premium of \$0 over december as against \$0 discount as yes, terday's close. The incomant rams demaging and delaying the winter crop was including the premium of \$0 over the September contracts.

Weather in the Grain Belt. Summary of weather and crop con ditions in corn and wheat region for week ending August 17, 1915:

week ending August 17, 1915:

In the winter wheat belt stacking and threshing continued under favorable conditions in most sections, but some localities are still hindered, especially in Ohio and portions of Indiana and Kansas, where damage by sprouting and moulding was considerable. Fall plowing is progressing with favorable soil conditions, except it is too wet in restricted areas. In the spring wheat belt the week was very favorable for ripening the harvest, and the latter is well under way in the central and southern portions, with prospects of large yield. Corn made rapid growth generally, and showers improved the late planted corn in many southern districts. Truck crops, ranges, pastures and stock conditions continue good.

a week ago, and almost twice as large as two weeks ago, but nearly feet short of the same days last year. This is the second time this week that South Omaha receipts have led all points.

Owing to the size of supplies and the wotness of freeces trade was rather slow in getting under way, and nothing much was done on first rounds, mut by 10 o'clock a few good lambs were moving at about steady prices, soveral small strings having sold at \$5.25, which was the popular figure yesterday.

These early sales set the pace for everything, and the bulk of the fat lambs finally sold at generally steady prices, everything desirable going at \$5.25. All the butcher stock had been cleaned up long before midday.

Feeder lambs were plentifully supplied, but demand was eager and practically

SOME ERRATIC MOVEMENTS

NEW YORK, Aug. 18.—Stocks pursued their familiar course today, the so-called war specialities and affiliated issues absorbing the bulk of speculative attention to the exclusion of investment shares, which were either reactionary or irregular. Fully 60 per cent of the total overturn of 985,000 shares consisted of United States Steel, which made the new high price of 7% for the present movement, together with Westinghouse, American Can. Crucible Steel, New York Airbrake and the Alifs-Chalmers issues.

There were some highly erratic move-

Feeder lambs were plentifully supplied, but demand was eager and practically everything brought good steady prices, the bulk of the desirable offerings going at \$5.0083.10. Some feeders yeartings brought \$6.65, which is the highest figure paid so far this month.

As compared with the size of the total run, supplies of old sheep were rather scanty, and prices held fully steady. Fat yearlings again reached \$6.05, and some of the same sort of ewes that landed at \$6.10 yesterday took \$6.15. Wethers are hardly coming in large enough quantities

Rates of exchange on the principal European centers strengthened very decidedly, but failed to retain all their advantage. While definite details are still lacking it is taken for granted that arrangements are in progress of completion for the establishment of British and French credits here. It is also evident that this country's supply of gold is to be further increased by shipments from various foreign sources.

The bond market was lower in the main, with some strength in Mercantile Marine 45s and the coppers' convertible issues. Total sales, par value, aggregated \$5.175.000.

In reports received by Lieutenant Thomas Murray Tipton, officer in charge of the Omaha navy recruiting station, it is made public that the navy was, for a short time last spring, actually overstocked with men. Congress allows the navy 51,500 men, and during March of this year there were 428 men in excess of that number. At present the navy is short 671 men, but the combined energy of all of the recruiting offices in the country could quickly and easily make up this deficiency, largely among men who have seen service.
