AMMUNITION EXPENSE

General Heinrich Rohne Declares as

Man as 300,000 Shells Dis-

charged in One Day.

(Correspondence of the Associated Press. BERLIN, July 25.-The asionishing shell-consuming power of modern ar-

tillery is discussed by General Heinrich Rohne in an interview published by the

"In the war of 1870," says General

Rohne, "no German battery fired more than 200 rounds in one battle from each of its guns. A Russian battery fired 522

rounds for each of its guns at the battle

of Tuschitschao. The use of ammuni tion in the present war puts all these

figures in the shade.

GRAIN AND PRODUCE MARKET

All Grains Sell Lower, with Wheat Taking Biggest Drop, Two to Four Cents.

EXPECT A HUGE CORN CROP

OMAHA, August

OMAHA, August 20, 1915.

All grains are lower today.
Wheat takes the biggest drop, selling 2 to 4 cents under yeaterday's prices.
Corn and oats follow the wheat, corn selling 16the lower and oats, which have been steady for the last few days, sold from 19572c lower.

A \$,000,000,000,000-bushel corn crop is estimated by the Armour Grain company. There is no feeding of new corn tills year, owing to the abundance of hay and pastures, while last year it was extensive, as pastures were very short.

This means more corn for market and a supply of rough feed never before equalled.

New corn is being offered at Muskogee. Okl., in wagon loads at 65c. Texas is offering new corn all over the southwest. Clearances: Wheat and flour equal to 650,000 bu., corn, 2,000 bu., and cats, 65,000 bu.

bu. Liverpool spot: Wheat, unchanged and corn, unchanged to %d lower.

Frimary wheat receipts were 1,154,000 bu., and shipments of 1,166,000 bu., against receipts of 1,335,000 bu. and shipments of 797,000 bu. last year.

Primary corn receipts were 300,000 bu. and shipments of 380,000 bu., against receipts of 1,226,000 bu. and shipments of 225,000 bu. last year.

Primary coats receipts were 1,462,000 bu. and shipments of 61,000 bu. and shipments of 61,000 bu. and shipments of 625,000 bu. last year.

Five-Room House Out of the Ordinary

is especially adapted for a young couple where they desire a five-room house that is a little out of the ordinary. The first floor consists of three rooms and the and large store room; each room have plenty of closet space. The living at dining rooms are finished in plain reoak, and at the end of the living roo is the built-in seat with the bookcas on each side. A very attractive stall way leads to the second floor. The kitchen is supplied with built-in cupboards, and plenty of floor space for stoves and tables. At the rear of the kitchen is an entry for refrigerator space. Any one desiring more infor mation on the above design, or the planning of a new home, should get in touch with the architect, who will be glad to furnish such information. Everett S. DUN'S REVIEW OF TRADE Foreign Exchange and Labor Trou-

NEW YORK, Aug. 20.—Dun's will say;
International monetary complications and disturbances in the ranks of labor constitute the chief elements of uncertainty in the general stuation. There is, however, nothing either unsound or disquieting in strictly domestic finance and though further controversies between employers and wage earhers have arisen, serious and protracted troubles have thus far been avoided. The foreign exchange wroblems which attract much attention are essentially those of the belligerent bles Anvoy. wroblems which attract much attention are essentially these of the belligerent nations abroad and affect this country mainly in the sense that export trade may be impeded unless relief is afforded. Recent importations of gold falled to check the depreciation of European funds in the New York market and more effective means will be necessary to correct conditions that are wholly lacking in precedent. Negotiations are under way with this end in view, but the exact n ure of the reprecial measures to be adopted remains largely a matter of conjecture.

adopted remains largely a matter of conjecture.

Because it was attended by considerable loss of life and destruction of property the most adverse event of the week was the storm that completely isolated several cities along the coast of Texas. Shipping and rallroad traffic suffered and growing cotton was damaged, though to what extent is not definitely known. Otherwise, the leading crops are doing finely. Gross earnings of roads reporting for the first week of August made a better showing than for the same period of any previous month this year.

Weekly, bank clearings were \$2,986,286,.912, an increase of \$2.8 per cent over last year, when most of the exchanges were closed.

Clearing House Bank Stytement.

Coffee Market.

Coffee Market.

NEW YORK, Aug. 21.—COFFED—The market for coffee futures was unsettled today with prices working lower under near-month liquidation and some trade selling accompanied by reports of lower firm offers from Bray! The opening was steady at a decline of 2 roints to an advance of 3 noints, and the market held pretty wall during the early trading, but offerings increased, with December contracts selling off to 8.50c, and the close was 7 to 10 roints net lower. Saies, 10. 30 bags. August, 6.25; September, 6.85; December, 6.85; January, 6.55; February, 6.46c; January, 6.55; February, 6.46c; January, 6.55; February, 6.46c; June, 6.85c; April, 6.85c; May, 6.75; June, 6.65c; July, 6.70c. Spot. barely steady: R'o 7s 7c; Santos 4s, 9%c. Coat and freight quotations were unchanged to 15 points lower with reprise that there were two offers of well described Santos 4s, Rio exchange was 3-15d lower at 125-15d, Mirels prices were unchanged.

Apartments, flats, houses and cottages mand for apartments in them has filled them, and many spartments are below for "For Rent" Bee "For Rent."

NEW YORK STOCK MARKET pleted.

International Affairs Loom Large on the Financial Horizon.

LIQUIDATION IS FEVERISH

NEW YEARK. Aug. 21.—International effairs loomed arge in he i an faith risea today. Stocks were liq linated with favorish haste, in consequence of latest developments in the Arabic episode. Concern regarding this country's relations with Germany was heightened when it became known that the British government had made specific domini that the Arabic was under protection when attacked. Advices from Washington to the effect that our ambrasador at Berl'n would be directed to make representations to the German foreign office offered further cause for apprehension.

Opening prices, while generally lower, mainly affected the war shares, but the selling movement soon comprehended leaders as United States Steel. Union Pacific, Canadian Pacific, Southern Pacific and Reading, Transactions in steel were even larger than in the early days of the week and at the belight of the decline a break of % was recorded between sales. Steel fell to 50%, a loss of 3½; Union Pacific, Southern Pacific and Reading yielded virtually 2 points each at 167%, Southern Pacific and Reading yielded virtually 2 points each at 167%, Southern Pacific and Reading yielded virtually 2 points each at 167%, Southern Pacific and Reading yielded virtually 2 points each at 167%, Southern Pacific and Reading yielded virtually 2 points each at 167%, Southern Pacific and Reading yielded virtually 2 points each at 167%, Southern Pacific and Reading yielded virtually 2 points each at 167%, Southern Pacific and Reading yielded virtually 2 points each at 167%, Southern Pacific and Reading yielded virtually 2 points each at 167%, Southern Pacific and Reading yielded virtually 2 points each at 167%, Southern Pacific and Reading yielded virtually 2 points each at 167%, Southern Pacific and Reading yielded virtually 2 points to 20. New York Air Brake 64 at 125% and Pressed Steel Car 5% at 5% Other Issues of the same class approximated at 560,000 as hares, of which steel supplied almost 25 points, of which steel supplied almost 25 points and 1 per cent in Panama 2s and

Progress is Being Made in Erection Of Big Buildings

> The excavation is practically completed for the Blackstone hotel at Thirty-sixth and Parnam streets. The cement foundation and the piling is in with cement caps on the piling. The cranes are to be put in place early this week, and the steel construction work is to begin perhaps within a week. Work on this famfly hotel of eight stories is now to be pushed rapidly.

> Work is well under way on the new addition of the Skinner macaroni plant. The excavation is completed, together with the foundation. The skeleton structure is to be put in at once. The addition is to duplicate the present plant, as well as duplicate the capacity.

> Excavation is complete for the Bran, dels garage, storehouse and service plant at Seventeenth and Dodge streets.
>
> The work of pouring concrete for the foundation and pillars for the Rose Realty building at Sixteenth and Farnam streets is in progress. Some leases for offices and store rooms in the new building have been negotiated.

With the excavation completed at Fifteenth and Fernam streets for the new World-Herald building, the necessary equipment is being hauled into place to begin on the foundation. The steel framework for the Grain Exchange building has been completed and

Good Demand for Houses to Rent

work is going along rapidly there.

Demand for houses to rent at present is somewhat better, comparatively, than the demand for houses to buy. Mederate sized homes are selling right along, and real estate men say the demand is fairly good for the time of year, but the demand for houses to rent of moderate size and all modern is brisk. There is a growing demand for all-modern houses. Then, too, this is the time of year when persons who have lived in a partly modern house up to this time, like to change to an all-modern house with furnace heat, electric light and sewer and water facilities in the home for the winter.

Apartment houses are in good domand, though a dozen or more of various sizes have been built this summer and others are just now being constructed. The de

have no more than the foundation com

CASE A VINCKY ASSURAN

MANY BARBER SHOPS IN BERLIN FORCED TO CLOSE (Correspondence of the Associated Press,) BERLIN Aug. &-More than one-quar-

ter of the barbers and wig makers of Berlin have been called into the army, with the result that no less than 106 barper shops in the capital have had to close. For a time women whose barber-husbands went to the war last year attempted to keep the shops running with the employes who were left, but as these have gone, one by one, the women have had to close the doors and suffer accordingly the loss of their income. Only older men, who were ineligible for service, have been untouched by the war, but even they have had to work from early morning until late at night to make up for a lack of employes.

The recent quarterly meeting of the master barbers of Berlin was the first in the history of the organisation at which no new member was taken in, and never has there been so small a number of apprentices recorded-only three being eligible to advancement,

WALKS INTO LIONS' CAGE TO PROVE HIS BRAVERY

(Correspondence of the Associated Press.) FISHGUARD, England, Aug. 5.-Pergeant Fuller, who recently won the Victoria cross in Flanders and has since been assisting in the recruiting camuaign tering a lions' den.

Fuller was speaking at an open-air meeting in a vacant lot adjoining a small menagerie, when two young men in the outskirts of the audience jestingly temarked to him: "We'll join if you are brave enough to enter that lions' "narmed."

"I'll just take you at your word," re-turned Fuller without a moment's hesi-tation. "Lions have no terror for any me who has been in the front trenches in

He strode over to the menagerie, obtained the permission of the proprietor, and entered the cage, where there were two lions. Amid tremendous excitement in the crowd, he calmly stroked the liens for a moment or two and then walked out of the cage and resumed his place on the recruiting platform.

"During the whole Franco-German war the German artillery fired 317,000 rounds, a tenth part of which was used in the battle of St. Privat. In the Russo-Japanese war one side used a total of 264 000

shells. "On March 10 German headquarters announced that the enemy during the preceding fortnight had fired off an imown and of American manufacture, often using more than 100,000 shells in twentyfour hours. This is three times as much as was used in the battle of St. Privat

on a front almost twice as long. The

number of shots that were fired at a

yard of front was six times as large as

in the year 1870 in the hottest battle of north of Arras on June 17. This was almost as much as the whole fire of the German artillery in 1870. On the German side we used our ammunition more sparingly, because the American factories cannot add to our supplies. How costly the bombardment of Arras was for the English may be gathered from the fact that the very smallest gun shoots a projectile costing at least 86."

Apartments, flats, houses and cottages can be rented quickly and cheaply by a Bee "For Rent."

Heat Your House This Winter With Clean, Pure, Moist, Healthful Air From a Weir Steel Heater GAS AND SOOT CONSUMENCE

The WEIR reduces your coal cost 35% to 50%, operates with less care, gives more efficient service and provides healthful oxygen for every member of your household.
