#### CARTE BLANCHE TO BERNSTORFF

WASHINGTIN, Sept. 3. - The Americanpositiontoward a method of fixing reparation for lives and property lost in German submarine operations, scuh as the Lusitania and the Arabic, has not been finally determined, but there probably will be no opposition to fixing the amounts by arbitration.

As arbitration, however could cover only the extent of damages and not the question of the principle that unarmed merchant ships must not be sunk without warning and opportunity for the escape of noncombatants.

Berlin dispatches, apparently officially inspired, saying Count von Bernstorff, the German ambassador, has wide discretionary powers to speak for his government in the final negotiations over submarine warfare, have caused a large measure of gratification among American officials, who have had many evidences of the ambassador's efforts to prevent a break between Germany and the United

# Police Officers Use Their Clubs During Crane Strike Riot

BRIDGEPORT, Conn., Sept. 3.-A riot in which hundreds of persons took part took place outside the Crane Valve company today, and ten police officers were forced to use their clubs to regain control of the situation.

During the scrimmage two pistol shots were heard, but as no one was reported shot, it is supposed some excited person fired into the air. The trouble started, according to the officers on duty at the Crane plant, where a strike of machinists has been in force for several weeks, when several men tried to prevent others from going in.

Two men, alleged to have been leaders in causing the disturbance, were fined and given sentences of six months in jail. Three policemen were injured in the fighting.
