Candidate Slipped Cash Into Pocket of County Judge

CORPUS CHRISTI, Tex., Sept. 10.—It was customary for the candidates in Nueces county prior to and including the general election of 1914, which is under surveillance by the government, in the trial of County Judge W. F. Timon and forty others in the United States district court here, to make a "slush fund" with \$100 contributions, according to the testimony today of J. Dorenfeld, jr., clerk of the Twenty-eighth district court of Nueces county, one of the five county officers not indicted. Dorenfeld testified that when he announced his candidacy for office Judge Timon told him that it would require about \$100 "as his end of the game" for his candidacy. He said he gave a check for \$50, made to Timon personally, and the remainder of the money was slipped into Judge Timon's coat pocket on the day of the election.

Forger Extradited to London Says He Will Be Tried as Spy

NEW YORK, Sept. 10.—Ignatius T. T. Lincoln, a former member of the British Parliament, who recently admitted he had been a German spy, was today ordered by Federal Judge Veecher of Brooklyn to be extradited to England to stand trial on a charge of forgery. Lincoln's attorneys contested the extradition proceedings, charging their client would be tried as a spy if he were returned to England. Lincoln was charged with three forgeries in the papers filed here by the British consul. One alleged he forged a note whereby Benjamin S. Rowntree of England purported to guarantee the payment of £279 to John Goldstein. Lincoln arrived in New York from Liverpool on February 9 last. Early in May he wrote two articles, published in a newspaper, in which he purported to tell of the workings of the British War office.

MORE POLICE PROTECTION WANTED AT TABERNACLE

E. F. Denison and A. A. Lamoreaux of the Omaha Evangelical association called upon Superintendent Koster of the police department to ask for more police protection at the Tabernacle during the early hours of the evening before arrival of the "where." The request was granted.

DUMBA INCIDENT ALSO INVOLVES TWO OTHER MEN

(Continued from Page One.) In an American passport may have technically contributed to an abuse of that document in the view of the State department, the nature of the communication he sent was so far removed from the others and of such a legitimate character that his act probably would not be regarded as offensive.

Papa's Letter Offensive.

Captain Von Papa's letter, however, is said to be decidedly offensive, as is the nature of Consul General von Nuber's connection with the affair as disclosed by the papers which the British secret service men took from Archibald at Falmouth.

It was believed that further steps would not be taken until the additional documentary evidence comes from London and until Vienna has heard from President Wilson's request for the recall of Dr. Dumba. In official and diplomatic circles it is expected Austria will recall its ambassador without delay, but that if it resents the action of the United States and stands behind the action of its envoy, it may not send another.

Dumba Consults Bernstorff.

NEW YORK, Sept. 10.—Dr. Constantin Theodor Dumba, ambassador from Austria-Hungary, whose recall has been asked for by the United States government, today conferred in his suite in an uptown hotel with Count von Bernstorff, the German ambassador. The subject of the conference could not be ascertained.

DEATH RECORD

Hert Bohannon, who was born and raised in Omaha, died Thursday at Stanford, N. Y., at the age of 29 years. He left Omaha fifteen years ago to take up a stage career. For a period of years he was with the Harry Hastings show which is appearing in Omaha this week. In that show he had an act under the name of "Bohannon and Corey," and also had a supervisory position with the company.

Iowa DELEGATES TO CONFERENCE

Iowa Laymen and Ministers Choose Those Who Will Go to Saratoga Springs. TWO ARE YET TO BE CHOSEN

(From a Staff Correspondent.) DES MOINES, Sept. 10.—(Special Telegram.)—Delegates to the general conference were elected by the laymen of the Des Moines conference this afternoon as follows:

Rev. A. A. Thompson, Chairman; Dr. J. L. Hillman, Des Moines; Dr. R. E. Shaw, Indianola, and Rev. Knuch Hill, College Springs.

The general conference meets in Saratoga Springs, N. Y., in May, 1916. Oppose College Merger. The educational committee of the Des Moines Methodist conference, to whom was referred the proposal from Parsons college to merge Simpson, Iowa Wesleyan and Parsons will submit a report against the merger.

Among the considerations that require us to decline a merger with Parsons are the following: "First—The fact that Simpson college occupies a territory which it is serving with efficiency, for which it is receiving an increasingly appreciative patronage, and in which it meets with no embarrassing competition from the other members of the proposed merger.

Second—The fact that the proposed merger with a school of a highly revered sister denomination, located miles from our institution omits taking into account another school of the same denomination as Simpson college. The further fact that already Simpson college is succeeding to resources and appointments which enable it to fulfill well the special mission of the college of moderate size and we cannot otherwise than that any further contemplation of its participation in a proposed merger would seriously interrupt and interfere with the growing success attending its work."

Oil Fields Here. Strange upheavals along the Burlington right-of-way near Villisca, which have caused that system more or less trouble may be caused by gas from oil wells near at hand, suggests J. M. Buswell of Leavenworth, Kan., who has had considerable experience in oil fields. The railroad company has called on the geological department at Washington to try and solve the mystery, which is as annoying as the slides of Culbert cut. Mr. Buswell says it's gas. "A gas mound of antineine is being formed," he says. "In the Texas and Oklahoma oil fields they look for the gas mounds or antineine ridges when they are looking for an oil or gas field. If the railroad company should drill a well there deep enough, most likely they would tap a gas field and possibly a supply of oil, too."

Gravel Roads for Polk. The Polk county board of supervisors, working with the Iowa State Highway commission, will begin next week the graveling of the entire county highway system, 130 miles, at an approximate expense of \$300,000. The state commission will come to this city the latter part of next week with a corps of engineers. The party will be joined by the local board of supervisors and the county engineer. Every road will be gone over. County Engineer Budd will then prepare profiles which will be sent to the state commission for approval, following which the work will start.

Cats Are Poisoned. Word was received by the state veterinarian yesterday that three colts belonging to a farm near Ankeny had died and the owner was unable to account for their death. An assistant veterinarian was sent out to the place and found that the horses had been eating rusty oats, which had undoubtedly caused forage poisoning. Dr. Gibson, state veterinarian, says there is considerable danger from such trouble this fall because so much of the grain and also the hay is apt to be rusty or spoiled. Extra precautions are being taken by the state department to prevent any outbreak of the foot and mouth disease here. There has been no trouble of this sort since the state was finally cleaned up last spring and the department is determined there will not be if it can be prevented. A representative will be sent to the Illinois state fair to thoroughly inspect all Iowa live stock shown there before it is returned to Iowa.

Will Celebrate. The Garden Grove Corn club will hold its annual picnic September 23, with J. W. Jarnagin, editor of the Iowa Farmer, and H. M. Havner of Marengo as the speakers. Havner is a candidate for the republican nomination for attorney general.

Twenty-one Divorce Cases on Docket at Clarinda. CLARINDA, Ia., Sept. 10.—(Special.)—Twenty-one divorce cases will be included in the sixty-three new suits on the court docket for the September term, which begins here September 21. Judge Thomas A. Arthur will preside this term and has directed that both the petit and grand jurors shall appear the first week, which calls forty-eight jurors to the court house at once, the largest number on record.

Heavy Wind in Dakota. PIERRE, S. D., Sept. 10.—(Special Telegram.)—The roof was blown from the top of a box car on a moving train last evening in a heavy wind storm which swept the country in the vicinity of Blunt, S. D., small buildings being overturned and grain shocks scattered by the force of the wind. At Canaan there was a heavy wind and hailstorm and a general rain, covering the central part of the state, accompanied the storm.

Plumber Burned When Metal Splashes in Eyes. Louis Sogge, plumber, living at 1727 1/2 South Fourteenth street, received severe burns about the eyes when some molten metal which he was pouring on a pipe, while working at Fifteenth and Harvey streets, splashed in his face. He was attended by Drs. Feltz and Shook and taken to the Lord Lister hospital.

Holdups Give Victim Dime for Car Fare Home. J. Farrison of Tampa, Fla., was held up and robbed by two men at Eleventh and Davenport streets Thursday night. The holdups got 60 cents as the result of their effort and returned a dime of the swag to the owner "to take a jitney back home."

Four Hundred Poles Are Sent to Germany From Fallen Capital

PETROGRAD (via London), Sept. 8.—A prominent Polish lawyer, who made his escape from Warsaw after its capture by the Germans, made the following statement today: "Two days after the Germans entered the city, more than 400 of the most prominent citizens who remained were arrested without warning and sent to Germany. About 700 families were deprived of their heads and of knowledge of their whereabouts.

"Arrests continued daily. The only known reason was that the names of the victims appeared on a list compiled by informers and sent to Germany months ago. "The Germans displayed their usual thoroughness. Within a few days after they entered the city three temporary bridges were thrown across the Vistula in place of the structures blown up by the Russians. The electric light, gas and water plants were restored, and there was early evidence of industrial activity. A house to house search was made and every copper vessel was confiscated. Metal was stripped from all places where it was left. Articles of cotton and wool were gathered similarly from houses and shops.

"Hundreds of men who previously had worked in factories were given the choice of internment in Germany or labor for wages at the Krupp works. Every day sees the departure of men who prefer forced labor to compulsory idleness in Germany or work in the trenches.

"Prince Lubomirsky, one of Warsaw's energetic public men, accepted the post as temporary president of the civic and central committees under the German military governor. He made it clear that he was a loyal Russian."

German Submarine Sunk by Patrol Day Arabic Went Down

NEW YORK, Sept. 10.—Confirmation of the London report that a German submarine was sunk on August 13, while shelling the British steamer Nicotian, was received here today with the arrival of the steamer Laland.

It was also learned that the British patrol boat which sank the submarine flew an American flag while approaching the scene. Just before it was ready to open up with its guns, the American flag fluttered down to its deck and the British ensign was hoisted in its place.

This German submarine was sunk on August 13, the day the Arabic was torpedoed, and not far from the scene of that tragic event. This gave rise to the report and belief in Great Britain that the Arabic's assailant had been sent to the bottom.
