HOGS—Receipts were very light, arrivals of sixty-one cars, or 3.90 head, being the smallest since Monday. The week's run amounts to 33,500 head, which is 5,000 larger than last week, and nearly 7.000 heavier than a year ago, but is 11,000 smaller than two weeks ago.

Shippers had a hard time finding good lights this morning, but by sorting up a few bunches managed to get a couple of pieces of loads that were good enough to sell at \$7.75. The best price paid for a full load was \$7.40.

Most of the hogs sold at \$6.5537.00. The day's top of \$7.75 was only paid for half loads, but shipper buyers expressed their willingness to give the same figure for full cars if any good loads of straight lights were coming. Prices are a big nickel and possibly 5510c higher than at last week's close, when tops brought most of the mixed hogs.

SHEEP-The week's run totals 145,687 head, the largest since the first week of October, last year, and with that one exception the heaviest week's run since October, 1913, but in spite of the generous proportions of the supply aimost everything received during the week was sold on the day of its arrival, and fat lambs closed the week just about steady with last Friday.

sold on the day of its arrival, and laclambs closed the week just about steady

Feeder lambs outsold fat stock Monday, but slumped a little Tuesday and
from that time on showed a lower trend
throughout the week, closing anywhere
from a quarter to, in most cases, Se under last Friday. Good to choice kinds
are now quotable at \$8.008825, as against
a range of \$8.208.80 a week ago. Leas
desirable grades are now selling at \$7.55

and breeding ewes have held about the
same all week, and there has been little
quotable change in yearlings, desirable
light kinds still being quotable as high
as \$7.00.
