Boosting for the County Fair to Be Held Next Week

The Douglas county fair will be held next week on the new fair grounds be- power of the machine tween Omaha and Benson. The grounds are on the car line and are only about twenty minutes ride from the business center of Omaha. The gates will open next Monday and will close the following night. Members of the board of directors have issued an appeal to citizens of the city and county, saying:

"A large attendance is one of the main requirements to insure success and we urge all the business interests and all individuals in Greater Omaha, as well as throughout the county to help make this county fair something like the old time fairs days, when Douglas county turned out on masses and held the best county fair in the state of Nebraska.

"The board has provided attractions from the standpoint of the exhibitor and the spectator that will be interesting and instructive, but it is not on these features alone that we urgently request a large attendance, as this association contemplates a much wider field and scope. Possessing one of the most heautiful fair grounds in the country, with a large and commodious grandstand and splendid race track, it therefore has in view, if properly supported by a large attendance, the merging of the Dosglas county fair into a great district fair to embrace the eastern countles of Ne-braska, as well as those of western lowa, South Dakota, Missouri and Kansas.

"As Omaha is destined to become the greatest city in the Missouri valley region, it would be but fitting and proper to have each fall a big exhibit of the agrriculaurtal resources of this America's Valley of the Nile A Omaha, the gateway of the west."

(From a Staff Correspondent.) LINCOLN, Sept. 15 .- (Special.) -- Parties who have old and decrepit buildings around their premises which are nothing but fire traps will now have to look out for Fire Commissioned Ridgell will soon

Judge Ridgell has returned from at tending the national convention of fire ommissioners at Chicago and while there satisfied himself as to the right of a fire commissioner to order the tearing down of atructures which are a menace to the neighborhood surrounding them as fire starters. Heretofore there has been question as to the right of the commissioner in the matter and he has discovered that every state which has had a test in the courts of the matter has decided that the buildings must come down. Some sates give the fire commissioner the right to tear down the buildings himself, but in this state the owner of the building is first notified and if he does not do the work the commissioner can order the same done and the expense charged up to the property
