Prices on Board of Trade.

CHICAGO, Sept. 16.—Notable strength developed in the wheat market today as a result of reports that foreigners were active buyers and because of substantial progress asserted to have been made in negotiations for the Anglo-French billion dollar loan. Prices closed buoyant at life to 2%c net advance, with December at 26%c, and May at 29%20%c. Corn gained a shade to 1%c and oats %c to 1%p-c. In provisions the outcome was 15%c to 57%c net decline.

It was not until wheat had suffered a material decline that the market began to display a tendency toward a decided upward swing. Better weather conditions for threshing and shipping the spring crop had given the bears a temporary advantage, but the effect disappeared when gossip was heard that Europeans were purchasing at a rather lively rate, both cash wheat and future deliveries. Optimistic rumors in regard to improved chances of success for the billion dollar loan and as to the use of much of the proceeds in buying American products other than war munitions led afterward to a great increase of buillish sentiment and to an uninterrupted advance during the reat of the day.

Beptember wheat felt the tightening of prices more severely than was the case resarding other options. The reason was

September wheat felt the tightening of prices more severely than was the case regarding other options. The reason was that there seemed to be no limit to the demand for track lots of wheat available for spot delivery, and that arriva's here remained unusually small for this reason of the year. The actua amount of cash contract wheat in store in Chicago today was only 24,000 bushels.

Corn was helped upward by the strength of wheat. At first, however, the market was easy, owing to the warmer temperatures prevailing. In the oats trade, wet weather delaying threshing and shipping was a source of firmness as soon as other cereals turned upgrade. Country offerings were small.

Provisions went lower in sympathy with a decline in the hog market. Announcement that the British government had confiscated most of the long-interned cargoes of meats and lard had no apparent effect upon the market here.

CATTLED—Receipts were fair for a Thursday, 114 cars being reported in, but the total for the four days this week is only 28,728 head, a failing off of about 5,000 head as compared with a year ago.

Packers all seemed hungry for good beef steers and were out carly in the morning looking for fresh supplies. As a result the trade was reasonably active, with prices or destrable kinds fully steady or a little stronger sven than yesterday. The best cornfed yearlings sold up to \$3.5, the high price of the week, with heavier cernfeds at \$3.50.

Cows and heifers, while not particularly active, were fully steady with yesterday. Good feeders were in light supply and steady. Medium to common kinds were slow and duil, there having been too many of that sort here this week.

68 steers...1086 7 60 142 steers...1215 7 60 12 steers...1218 7 80 85 steers...1115 7 60 1 steers...1280 7 80 HOGS - Receipts continued to hold dabout the same, being estimated at minety-seven cars, or 6,200 head. For the four days the run amounts to 21,909 head, being 3,000 smaller than a week ago, but 2,500 larger than two weeks ago and more than 16,000 heavier than a year ago. 80 far this week the supply has been running nearly double the corresponding week of last year.

Trade opened out in very fair shape, both packers and shippers wanting the good light and butcher weight hogs at steady prices. Packers paid as high as 51.56, the day's top, for good even butcher weight stuff. Current shipping values may be just a little easier than the prices paid on last week's close, but on the whole good lights are selling nearly as well as they were last Saturday.

The packer market opened about steady, but buyers were picking their hogs carefully, and as a general thing would not take the rought weighty stuff.

By the time buyers began to get action on the weighty kinds prices had weak-ened, and most of the sales made towards the close were about 5c lower, while some might have been even a Hitle more than that. Late trade was draggy, but in the end all but two or three scattering bunches were cleaned up. Bulk of the packers' purchases were made at 56.7007 f.00. with a aprinkling of heavies on down.
