

MUNGER LEAVES ALL TO HIS WIFE

Federal Jurist Names Frank Fowler as Executor—Estate is but Fifteen Thousand.

WAS LAWYER ALL HIS LIFE

William H. Munger, judge of the local district of the federal court, who died August 11, this year, left an estate valued at \$15,000 to his widow, Mrs. Jennie M. Munger, by a will admitted to probate in county court.

This sum represented the savings of twenty-nine years' practice at the bar in Nebraska and eighteen years' service on the federal bench.

According to a petition filed by Mrs. Munger the judge left real estate valued at \$10,000 and personal property worth \$5,000.

Judge Munger left three children—Mrs. May Dell of Silver Creek, Mrs. Carrie Jackson of Dallas, S. D., and William

H. Munger of North Platte. Mrs. Munger lives at 1824 South Thirty-second avenue.

The judge was appointed to the bar in 1888 and came to Nebraska the same year, first going to Fremont.

Heard at the Tab

Homer Rodenhaver has returned from Milwaukee, where he went on a flying trip to attend the funeral of U. D. Sillio, head of the Milwaukee Rescue mission, who died suddenly.

At a special meeting for parents to be held this evening at 7:30 at the Lowe Avenue Presbyterian church, Father and Nicholas streets, Miss Gamlin of the "Bible" Sunday company will speak on "The Rights of the Boys and Girls."

A telegram that throws light on the much discussed question of "lasting effects" of Sunday revivals has been received from Paterson, N. J.

Rev. William A. Sunday, Omaha—The Bible schools of Paterson send greeting to you and your party on this the day of their greatest and most successful Sunday school parade.

A Faithful Servant. The hand is man's most faithful servant; it always obeys his command.

Too Many People Miss the Chance Which God Has Placed in Their Way

Rev. "Bible" Sunday preached Tuesday afternoon on "The Withered Hand in the Church." He said: Luke vi, 6: 'Jesus went into the synagogue on a Sabbath day, and he found there a man with a withered hand.'

He was not dead waiting for an undertaker to take him to the graveyard; he was not blind and groping his way to the coffin; he was not deaf or dumb.

A Faithful Servant. The hand is man's most faithful servant; it always obeys his command. It is the hand that carries the food to the mouth; it is the hand that will put a gun to a man's shoulder and murder his dearest friend.

In the wilderness; it was the hand that wrote the Declaration of Independence; it was the hand that built the locomotive; the steel mill; it was the hand wired it and lighted it; it is the hand that builds the telegraph that enable us to study the heavens; it is the hand that sends a message that speeds like the wind under the sea to a country you have never visited.

You can find persons with withered hands everywhere. They cannot do the work in the world they would do because they are handicapped. The drunkard can't do what he ought to do because of drink; the woman who lies causes her womanhood to wither; she can't live the kind of life she would live, because she is withered.

God has given Omaha an opportunity thousands of cities want; certainly you'll not miss it. God gives every one a chance to speak to some one about Jesus, to try to lead him to the Lord, and it is the man with the withered hand who does not do it.

the road to hell have had their opportunity, but didn't improve it, and they lost out. Don't be like the priest who saw the Levite lying injured and didn't turn aside to minister to his needs.

Most Opportunities. In India there are men who have stood so long with their arms extended the members have withered. They have lost control over them and can no longer bring them back to their body.

The hands have withered. Some people have lifted their hands so long they are withered and they can't open their hands; some play cards until their hands are withered and they can't do anything for Jesus.

Moody took his one talent and used it for the Lord and God gave him power to save thousands. There are men looking into my face this afternoon who have

more brains than Moody, but the trouble they are not willing. They just drift along like a round peg in a square hole and haven't moved anything for the Lord. Jesus went into the synagogue on a Sabbath day and he found there a man with a withered hand.

Many Miss Chances. Jesus Christ says to you with little ability, "Stretch forth thy hand." You say, "I have never done personal work" stretch forth thy hand. You have never prayed in public; stretch forth thy hand. God will loosen your tongue.

Saul missed his chance and his hand withered and the scepter dropped. David didn't miss his chance, he picked up the scepter and climbed upon the throne. Jesus reached forth his hand for the gold that betrayed Christ, and his name is spoken with disdain.

walk the streets of heaven had their chance and they improved it. See if you can improve yours. Bring your small store and Jesus Christ will meet the needs of Omaha.

Just Do Something. "Bring what you have," said God. You can't all sing like prima donna or sing the scale like Fred or Rodie; bring what you have.

COUNTY BOARD PAYS SUM OVER TO FAIR SOCIETY. The county board has paid a balance of \$2,680.46 to the Douglas County Agricultural society, following a decision by District Judge Leslie.

The Enger Twin-Six

The Quality Is High Tho' the Price Is Low

The Enger Twin Six at \$1,095 is a better car than you could buy for FIVE Thousand Dollars a few years ago—and that is stating it mildly. We can just as conservatively say that the new Enger is better than the ORDINARY machines selling today for two thousand and more. Because—

The Enger Twin Six is a wonderfully complete and efficient machine—a better better car than the Enger single six of the past year, which, itself, was a great machine. But the remarkable record of the old Six will be surpassed by the new Twelve, which—at the same price—offers twice as many cylinders, more and smoother power, faster pick-up, is more quiet, responsive and efficient.

Demonstrating car is on the way by express and will positively be here Friday morning. Arrange now for a demonstration.

Deliveries will start in October. First come, first served.

The Enger Twin-Six

- MOTOR**—Twin Six (12 cylinders) cast on bloc. Angle of cylinders, 60 degrees from center line, 2 3/4-in. bore, 3 1/4-in stroke. Valve in the head motor. Construction of motor allows for removing head.
- IGNITION**—Automatic and manual advance ignition.
- WHEELBASE**—115-in. Road clearance 10-in.
- ELECTRIC STARTING AND LIGHTING SYSTEM**—Electric motor meshing in fly wheel gear for starting. Generator—direct drive.
- CARBURETION**—Double entrance carburetor with manifold hot water jacketed.
- SPRINGS**—Cantilever.
- TRANSMISSION**—Three speeds ahead, one reverse.
- CLUTCH**—Multiple disc. Dry plate.
- REAR AXLE**—Pressed steel housing. Spiral bevel gears. Full floating.
- COOLING SYSTEM**—Thermo-syphon.
- CONTROL**—Center.
- TIRES**—Wheels equipped with demountable rims and 32x4 tires, non-skid on rear.
- COLOR**—Body is dark brewster green.
- WEIGHT OF CAR**—2,485 lbs., fully equipped with top, windshield, battery, lamps, starter, magnetic speedometer, tools and extra rim.
- PRICE**—\$1,095 f. o. b. Cincinnati.

FOSHIER-ENGER CO., Omaha, Nebraska
