**N**IGHT after night at the "Billy" Sunday Tabernacle I have observed one of Omaha's most beautiful matrons. Sometimes she is with her husband and other times she is accompanied by the husband of a charming matron who gives a great deal of her time to a popular local charity.

They sit close to the front row always, and the fair one listens intently to every word uttered by the revivalist, gazing upon him as if spellbound all the while.

I wonder what effect continuous Tabernacle-going will have on this gayest of Omaha playfellows? For that she is of a surety—always ready to make up a table of bridge, or the other great American pastime, dancing with a grace rivaling that of Mrs. Castle, and, of course, a faithful devotee of the theater.

As for the fair one and her husband, the story is told that while a game of the aforementioned pastime was in progress one of the players asked the little butterfly's husband, "Can you open the pot?"

"The only thing he can open is a prayer meeting," sniffed the fair matron.

At any rate, it isn't very far from where she sits to the head of the trail, and it is just possible that "Billy" may exert enough magnetism to have her traverse that bit of the sawdust trail.

## PRESIDENT OF INTERNATIONAL CONGRESS OF FARM WOMEN.

MRS. BELLE VON DORN HARBERT.

## FARM WOMEN WILL HOLD ONE SESSION

Mrs. Belle Van Dorn Harbert, International President, Will Preside at Meeting Thursday.

## WORK TO CHECK RUSH TO CITY

One session of the Farmers' National congress now meeting in the Hotel Rome will be given over to a meeting of the American branch of the International Congress of Farm Women. This will be this afternoon. Mrs. Belle van Dorn Harbert of Manzanola, Colo., will preside. Mrs. Harbert is not only president of the national American branch, but at the International congress in Ghent, Belgium, in 1913, she was elected president and still holds that office.

The international congress was organized five years ago to better the household condition of farm women. Mrs. Harbert is author of a bill for the establishment of a government bureau for farm women and this bill

will be discussed at the Thursday meeting.

"Our work is to check the rush of farm people to the city by supplying social needs and household conveniences. In most cases it is the discontented farm woman who induces her husband to move to the city. The farm woman has problems and hardships that the city woman can't realize. She longs to move to the city where she has a better chance of having her house with light instead of having eternally to clean kerosene lamps. No carrying of water, no hauling of wood either and more social requisites."

## Join with Women's Clubs.

Mrs. Harbert has under consideration with Mrs. Percy Pennybacker, president of the General Federation of Women's Clubs, a plan for the co-operation of the two organizations which they head, the one as the rural department of the General Federation. The Nebraska branch of the Congress of Farm Women, of which Mrs. Ada Carroll Wortman of Beatrice is president, is already affiliated with the State Federation of Women's Clubs.

Mrs. Harbert is the farmer of the family, her husband being in the insurance business. Her hobby is growing cherries. This last season she shipped 700 crates of cherries and sent fourteen tons to the factories. Besides this she has carried off a master's degree in sociology at the Denver university and is soon to receive her Ph. D. from the University of Colorado. Mrs. Harbert has traveled extensively abroad, studying the conditions of farm women. A world's congress including represen-

## LOAN EXHIBIT IN ONE OF THE CLOTHING STORES

That the men's clothing business is not devoid of idealism is well demonstrated in a Nebraska Clothing company show window this week. This store has secured from the Hickey-Freeman company of Rochester, N. Y., a "loan exhibit" of six original oil paintings in full color, showing correct styles in men's clothing for the present fall season. The paintings will continue on display for the balance of the week. They were brought to Omaha by John A. Swanson of the Nebraska Clothing company, who just returned from a buying trip to the Rochester and New York markets.

## Missouri Pacific Will Improve Line

As a result of the visit of Missouri Pacific officials here this week, orders have been issued for a large amount of work to be begun in the near future and continued during the coming winter, to be completed as rapidly as money is available for payments.

The work contemplates the completion of laying new and heavier steel on the line to Kansas City, it now having been completed to a point nearly as far south as Weeping Water.

It is proposed to rehabilitate the entire main line from Omaha to Kansas City and the Crete and Lincoln branches. In carrying on this work, permanent camps for the workmen will be established along the line and in which they will live.
