

POLICE DISPERSE CHICAGO STRIKERS

Scores Arrested and One Boy Loses Life as Result of Walkout of Clothing Workers.

OFFICERS USE THEIR CLUBS

CHICAGO, Sept. 30.—Scores of persons were arrested today and one 10-year-old boy lost his life as a result of the strike of the garment workers. The lad, Leo Schroeder, was crushed to death in the collapse of a shanty which he had entered to escape from a shooting affray indulged in by some strike sympathizers.

A mob of about 500 persons invaded the wholesale clothing district this afternoon, calling to workers there to join the walkout. Police, who were summoned by a riot call, drove the mob across the river, whence it came. There was considerable hand-to-hand struggling and the police used their sticks freely.

A delegation of union leaders called on Mayor Thompson and protested against what they termed the brutality of the police assigned to the strike zones.

Representatives of the Amalgamated Clothing Workers' union still maintained tonight that the number of garment workers on strike exceeded 25,000. Manufacturers insisted that not more than 2,000 persons had quit their employment.

Miners Are Rescued From Living Tomb After Explosion

FLORIDA, Ill., Sept. 30.—Martin Peritt is dead and Frank Robinson is fatally wounded as the result of an explosion in the mine of the Logan Coal company at Hanna City, thirty-five miles west of here tonight.

Seventy-five other miners who were imprisoned by a fall of rock caused by the explosion were rescued after several hours of desperate work on the part of a large rescue party organized by Mine Manager Fred Walters. None of these was injured.

Immediately following the explosion fire broke out in the mine a mile from the shaft and 50 feet below ground—where the accident occurred—and for two hours it was feared the entombed men would be burned to death.

JANSPORD, Pa., Sept. 30.—Failure again today met the efforts of mine workers to rescue the nine men who were entombed in the Foster tunnel of the High Coal and Navigation company at Coldville at noon Monday.

First Dress Parade By School Cadets

The first dress parade of the year was held by the high school cadets Thursday afternoon. The companies which had the best lines, while passing in review were: Company I, first; Company B, second; Company D, third.

RETURNS OF OWN ACCORD TO STATE PENITENTIARY

LANSING, Mich., Sept. 29.—Rev. Wallace M. Stuckey, finished a temporary parole from the Kansas state penitentiary last June that he might be with his wife, who was ill, returned voluntarily to the prison today and announced he was ready to complete his term. Stuckey was convicted of abduction. He has four years yet to serve.

Two Children Had Cramp

The two children of J. W. Nix, merchant, Cleveland, Ga., had cramp last winter. One was a boy of 6 and the other a girl of 8 years. Mr. Nix writes: "Both got so choked up they could hardly breathe and couldn't talk. I gave them Foley's Honey and Tar and nothing else and it entirely cured them." This reliable medicine should be in every home, for it gives immediate relief from colds, coughs and cramp, heals raw inflamed throat and loosens phlegm. Sold everywhere.—Advertisement.

It All Happened On the Big Highway of Old King Ak-Sar-Ben

Two reporters were wandering down the pike in King Ak-Sar-Ben's celebrated city of Quivers. Such an activity on the part of a reporter is dangerous. He might sprain his wrist while passing a hot dog stand.

But the two reporters were out for a lark, and when reporters are out for a lark they are the regular little cut-ups. The two reporters stopped in front of the first show on the pike. It was one of those shows where you see two alleged human beings eat fire, a couple more walk on glass, swallow swords and eat hard-luck.

The two reporters squeezed into the mob of a hundred or so in front of the entrance. Two ballyhoo men were making noble efforts to grind the entire mob inside at a dime a throw. Four people went in.

"Some grinder, those guys," remarked one of the reporters. The next stop was in front of the motordrome, where Darsdevil Toots, or somebody like that, risks life and limb piloting a twenty-cylinder "Bear Kat" around the portable saucer.

"If Dario Resta knew that such a machine existed he'd certainly break the speed limit getting out here," quoth one reporter as the two wandered on their way. "Here's the Miracle Girl," said the other reporter after a few steps to the south. "All girls are miracles," replied his colleague and on they went.

Can Diagnose Case With the Wireless At a Long Distance

SAN FRANCISCO, Cal., Sept. 30.—Dr. Albert Abrams, physician and author, announced today that he had devised an apparatus which already had determined at long range the nature of certain diseases. The order in which cases of tuberculosis, pus and cancer at Los Angeles were put into communication with the apparatus here today was determined by the instrument, Dr. Abrams said. Perfection of it, he said, would enable an operator to diagnose disease with the apparatus, even at long distances.

The experiment was conducted at Los Angeles by Dr. Bates T. Fisher, professor of nervous diseases in the University of Southern California. Dr. Fisher had been instructed to attach a certain form of cord conductor at one end to a point as close as possible to the seat of the disease in the patient, and at the other end to a ground, such as a radiator or water pipe.

Dr. Abrams said his apparatus consisted of an aluminum-compound bell, struck by a tiny hammer. The radio active waves from the sending source, he said, passed through a variable condenser such as used in wireless work, and made the metallic sound dull. The length of these waves he determined by the point at which the condenser allowed them to affect the bell's sound.

The apparatus also is sensitive to thought waves, Dr. Abrams said. He announced the theory that radio active emanations from the brain, which he said he had measured, could be used in all matters, the length of the waves varying with the kind of matter.

Decide Draft is Not Needed in England

LONDON, Sept. 30.—At a conference of representatives of the chief labor organizations of the country held after a meeting, at which Premier Asquith and Earl Kitchener discussed the military situation with them, the belief was expressed that the number of men required for army, navy and munitions work, in order to carry out the war successfully, could be obtained by the voluntary enlistment system. The labor representative decided to organize a special labor recruiting campaign throughout the country.

At the meeting, at which the premier and Earl Kitchener addressed the men, Earl Kitchener expressed a preference for a continuation of the volunteer system and the conference of labor leaders suggested that voluntary recruiting would be more successful if the government would state frankly as far as was compatible with the public interests what already had been done by voluntary means and what were the present and future needs and would insist upon employers no longer preventing their men from enlisting.

Don't Be Constipated. All kinds of ailments result from Constipation. Dr. King's New Life Pills are mild and effective; prevent Constipation. See all druggists.—Advertisement.

LUXUS AND DREXELS TO SETTLE OLD FEUD

The amateur base ball supremacy of Omaha will be settled Saturday. While the Luxus have been generally acknowledged the champs of this city because they won the Class A honors, the Drexels, who copied the Class B honors, have expressed some doubt regarding the matter, and Manager Livingston challenged the brewers to a combat. Johnny Dennis, manager of the Luxus, promptly accepted the challenge and the game will be staged at Luxus park Sunday.

As a preliminary game the G. A. Nelsons and J. D. Crews will look horns. The first game will start at 1:30 o'clock.

DR. CROTHERS TALKS AT UNIVERSITY CLUB SATURDAY

Dr. Samuel McChord Crothers, pastor of the First Parish church of Cambridge, Mass., author of The Gentle Reader, will address the University club following the luncheon Saturday.

ELECTRIC RAILWAY MEN GO THROUGH SATURDAY

One hundred or so of the members of the American Electrical Railway association, enroute to California will be in Omaha half an hour Saturday morning. On a special train over the Great Western they leave Chicago tonight reaching Omaha at 8 o'clock Saturday morning, from here going west over the Union Pacific. They are traveling in five sleepers, the train being designated as the "Whittle" special.

What a World Famous Dietician Says of Macaroni

If we Americans selected our food more from the standpoint of nutrition, we would hear less of the high cost of living. We find, especially among families of very moderate incomes, that most people eat to excess, the idea being that an abundant meat diet is essential to maintain and repair the system. We can well afford to cut down materially on meat and look elsewhere for nutritious and much more economical foods. Take Macaroni, for instance. Of Macaroni, Dr. Hutchinson—recognized as one of the world's famous dieticians—says: "The energy value of macaroni compared with beef is in the ratio of 100 to 40," and that "Macaroni is absorbed almost in its entirety," which means that it is practically all utilized to enrich the blood and build tissue.

Fast Macaroni is a highly glutinous food—muscle and energy builder. Can be prepared in many tempting ways. Costs but 10¢ a large package. Cut down on meat—substitute Faust Macaroni. MAULI BROS., St. Louis, U.S.A.
