

TANLAC PRAISED BY MRS. CLARA ALBEE

Another Lincoln Woman Talks of the Most Remarkable Change.

Improvement Produced by Tanlac After Everything Else Had Failed.

Mrs. Clara Albee, well-known resident of University Place, residing at 1105 W. Twenty-first street, made a most interesting statement regarding the results she had obtained through the use of Tanlac, the new medicine now being so thoroughly discussed in Omaha and vicinity. Mrs. Albee said: "For many years I have suffered from hay fever and a most chronic case of stomach trouble. The hay fever caused me much suffering and my digestion was indeed very poor. "I also had those sick headaches, and whatever I ate of a solid nature caused gas to form on my stomach and I would suffer from nausea for sometime afterwards. "My nerves, too, were all unstrung, and sudden noises or excitement completely upset me. "I have only taken one bottle of Tanlac, and my suffering from hay fever has been greatly relieved, but I must say that it did help my stomach more than anything. "Sunday I ate a big meal and didn't feel the slightest pain or had effect as I had in the past. This medicine has helped me in every way, especially my stomach and kidneys. I will be more than glad to tell anyone, who may be suffering as I did, what Tanlac has done for me. "The 'Master Medicine,' which is so highly praised by Mrs. Albee, can be had at the Sherman & McConnell Drug Company, 16th and Dodge streets, who have the exclusive agency in Omaha. Stop in and see the Tanlac man, who will gladly show you the preparation and explain it to you. Get a copy of the Tanlac Times.—Advertisement.

How to Absorb an Unlovely Complexion

The face which is admired for its beauty must have a satin-smooth skin, pink and white and youthful looking. The only thing I know of that can make such a complexion out of an aged, faded, or discolored one—mean a natural, not a painted, complexion—is ordinary mercurized wax. This remarkable substance literally absorbs the unsightly cuticle, a little each day, the clear, healthy, girlish skin beneath gradually peeping out until within a week or so it is wholly in evidence. Of course such a complexion as breaks out, moth patches, liver spots, blotches and pimples are discarded with the old skin. You will discover an ounce of mercurized wax at the drug store. Use the cold cream every night, washing this off morning, you'll find it a veritable wonder-worker. Another valuable natural treatment is a wash lotion to remove wrinkles which can be easily prepared. Dissolve 1/2 oz. of mercurized wax in 1/2 gal. water, wash with this the face in this and you'll find it "works like magic."—Phyllis Moore in Town Talk.—Advertisement.

HARMAN AND HALL IN ANOTHER ROW

Food Commissioner Withholds Fees and Treasurer May Have to File Suit Against Him.

MUCH JOY AMONG DEMOCRATS

(From a Staff Correspondent.) LINCOLN, Oct. 5.—(Special.)—Food Commissioner Harmon and State Treasurer Hall are playing the game of "tit-for-tat" again, with Harmon now on the long end of the score. In fact the food commissioner is giving the state treasurer some worry as to how he can compel Mr. Harmon to turn over \$11,000 which the department has collected since September 1. Mr. Hall mentioned a possible suit against the food commissioner yesterday, to force him to turn over the fees. Mr. Harmon turned in all fees up until the time when Hall refused to allow the department to draw longer for salaries and expenses in the absence of a legislative appropriation of the fees. The state treasurer also reported the State Board of Health had turned in no fees since July 14, it being effected by the same ruling as applies to the pure food department and fire commission. Under the Gerdes act, the various commissions are required to turn over to the state treasurer all fees collected, at least every thirty days.

Notes from Beatrice And Gage County

BEATRICE, Neb., Oct. 5.—(Special.)—A number of Beatrice residents who recently purchased town lots from an Oregon agent have been "taken in" in the deal. They purchased lots for \$50, \$50 down and the balance on payments and have been notified by responsible parties living in Oregon that the lots they bought were not worth \$50. Six Beatrice residents were "stung" by the same party, and one of them was in Beatrice Monday trying to get some trace of the "agent." Mrs. Elizabeth Hoover was granted a divorce from David Hoover in the district court Monday on the grounds of cruelty and desertion. Mrs. Mary Pitt, a pioneer resident of Beatrice, died Sunday at the home of her daughter, Mrs. F. A. Clausen. She was 82 years of age and had lived in Beatrice for thirty-five years. A force of men began excavating Monday for the new cottage at the feeble-minded institute, which will cost about \$35,000. The Omaha firm which has the contract expects to have the building enclosed by cold weather. Announcement was received in Beatrice Monday of the marriage of Fred W. Barclay, formerly of this city, and Miss Alice Morgan Strong, which occurred last Saturday at Pelham, N. Y. Mr. Barclay is now a member of the board of review of the Interstate Commerce commission at Washington, D. C., where the young couple will make their home.

HASTINGS GAS FRANCHISE CARRIES AT THE ELECTION

HASTINGS, Neb., Oct. 5.—(Special Telegram.)—The Hastings Gas company franchise fixing rates from \$1.46 net down and running for twenty-five years, carried at a special election today by a majority of 299. The city is being elaborately decorated for the South Platte exposition, which

Omaha Man Caught Under His Car that Dropped Into Creek

NEBRASKA CITY, Neb., Oct. 5.—(Special Telegram.)—T. R. Peterson of Omaha was driving his car from Kansas City to Omaha Sunday night, when he ran into a creek from which a thirty-foot span of a bridge was missing, five miles north of this city. His car turned over and buried him in the mud, where he fought for nearly two hours to keep from being buried by the weight of the car. He brought his car here last night.

Many School Bonds Registered in State

(From a Staff Correspondent.) LINCOLN, Oct. 5.—(Special.)—School bonds reaching past the half million dollar mark have been registered with State Auditor Smith since last January, according to a report of the last nine months given out by the auditor. There has been a new school building within that time for every county and one left over, making ninety-four districts that have been bonded for new buildings. This number was distributed about the state, not, however, exactly one to each county. The following represents the principal issues with the total amount of each: School, \$33,325; street improvement, \$75,075.41; sewer, \$22,550; auditorium, \$25,000; lighting, \$24,000; refunding, \$28,300.

Heavy Frost Monday Night, but Weather Warmer Over State

The first killing frost of the season visited Nebraska Monday night, the temperatures, according to morning reports, ranging from 26 in the western part of the state to 44 degrees above zero in the eastern sections. That the frost will damage late corn considerably is the opinion of railroad freight men, who have kept in touch with the crop situation, yet none of them are prepared to place an estimate on such damage. They assert that the greater portion of the corn in the central and eastern parts of the state has passed the frost damage stage, but they contend that in the western counties there is still a large acreage that should have had a week, or ten days more warm weather without frost. According to the railroad reports clear weather, without wind, was the rule over Nebraska and western Iowa Monday night. As a result, with the low temperatures, in many sections, it was not only a frost, but a freeze. Today all through the west, from the mountains east, weather conditions are perfect. Temperatures are climbing and the indications are that warmer weather has come to stay, say the railroad men.

Building and Loan Associations Are In Good Condition

(From a Staff Correspondent.) LINCOLN, Oct. 5.—(Special.)—A million dollars in mortgages held by building and loan associations is in process of or subject to foreclosure in Nebraska, according to the annual report of Secretary Royce of the State Banking board. Concerns are warned against too great optimism just because the state is prosperous and they are urged to take more precautions in mortgages on urban property particularly, which is more dependent on good times than farm realty. The sum of \$7,286,219.18 is carried on improved real estate, the report says, and \$4,044.16 on unimproved, so that the ratio of foreclosures to loans is one to thirty-seven. There are 53 mortgages subject to foreclosure and 237 more being actually foreclosed. In spite of the optimism of the loan companies the secretary declares that they are as ably managed as any like institution and are in fundamentally safe condition. Since Secretary Royce entered the office fifteen years ago the assets of building and loan companies have increased from \$2,000,000 to \$41,000,000, while the number has only grown from sixty to seventy-one. The increase since last year has been \$4,522,467.33.

House in Crawford Wrecked by Dynamite

CRAWFORD, Neb., Oct. 5.—(Special Telegram.)—The home of Earl McDowell, a prominent lawyer of Crawford, was wrecked by a dynamite explosion about 12:30 this morning. The force of the explosion blew in the front end of the house and drove fragments into the walls at the rear. Vern Wiggins, a brother-in-law of Mr. McDowell, was sleeping in the house at the time and the force of the explosion blew him out of bed across the room, shaking him up severely, but leaving him otherwise unharmed. The detonation was heard all over the city and windows for several blocks were shattered. Mr. and Mrs. McDowell were absent from their home. No clue to the perpetrators of the outrage has been uncovered. Use The Bee's "Swapper" column.

Voter May Retain Office on Board

(From a Staff Correspondent.) LINCOLN, Oct. 5.—(Special.)—A voter, even after he has sold his property in a school district, may retain his office on the school board, according to a decision of State Superintendent Thomas, in a Harlan county case. He rules in the same case that district treasurers must properly qualify as to bond within the time specified by law or lose their positions. "Treasurers have been very lax in the protecting of their district by bond," Superintendent Thomas asserts.

Osmond Widow Sues Saloon Keepers for Sixty Thousand

MADISON, Neb., Oct. 5.—(Special.)—Mrs. Frances F. Wiley, widow of Dr. Wiley of Osmond, and minor children, have brought action against the certain saloon keepers of Osmond, Bloomfield, Pierce and Norfolk and their bondsmen to recover \$60,000 damages, which she alleges in her petition, she has sustained as a result of her husband drinking himself to death. The saloon keepers named as defendants are Charles F. Rohrbeg, William Mindy, Edward Herbst, William F. Smith, Ray Weber, Max Fielder, N. H.
