New Disinfectant, Harmless, Efficient, Has Been Found

WASHINGTON, Oct. 10.—As a result of experiments conducted at the hygienic laboratory of the United States Public Health Service it is announced that a new disinfectant, possessing qualities superior to ordinary disinfectants, has recently been discovered. The announcement is particularly important at this time, coming as it does in the face of the shortage of coal tar derivatives which has resulted from the European conflict. The new preparation is derived from pine oil, a by-product in the manufacture of turpentine. It is easily prepared by mixing certain proportions of the oil with formalin and sodium hydroxide solution, the finished product being a reddish-brown liquid, rather thick and oily in appearance, but free from turbidity. With water it makes a perfectly white emulsion, much resembling milk. It has a pleasing odor, no objectionable taste, and attacks neither fabrics nor metals. It possesses over four times the disinfectant properties of carbolic acid and is altogether nontoxic, so that it may safely be used as a throat spray or mouth wash in solutions of the ordinary strength. The cost of the preparation is remarkably low; as it can be manufactured for less than 50 cents a gallon, solely from products which are produced in this country. Many of the disinfectants now on the market are neither efficient nor economical, it having been demonstrated that a number are extremely weak in disinfecting power, so much so that their strength is undeterminable by ordinary methods. The sale of compounds of this nature constitutes a fraud. A second class of proprietary preparations are of guaranteed strength, thus putting a legal responsibility upon the manufacturer, but the cost of these per unit of disinfecting power is frequently excessive. The household is therefore often at a loss to select a disinfectant which is efficient, economical and of constant strength, and it is believed that this new compound, which is to be known as "Hygienic Laboratory Pine-Oil Disinfectant," will become one of the most useful preparations of that character.

DEATH RECORD

Etta Reed Payton.
SPRINGFIELD, Mass., Oct. 11.—Mrs. Etta Reed Payton, 41 years old, wife of Cora Payton, and formerly an actress, died in a hospital here today. Mrs. Payton was leading woman in her husband's stock company productions for many years. Her home was in Brooklyn, N. Y.

Andrew J. Ferguson.
Andrew J. Ferguson, 31 years old, pioneer of Holt county, died Sunday afternoon at Bellevue, where he had been making his home since 1861. He was born in Hancock county, West Virginia, in 1837, went to war with the Sixty-second Pennsylvania volunteers in 1863, and served until the close of the civil war. He married Miss Samantha Whites in 1866 and moved to a farmstead in Holt county in 1882. He is survived by his wife and seven children. Burial will be at Bellevue, probably Tuesday.

Hair Tinting Made Easy

Many thousands of women have put up with streaked and gray hair because they knew of no absolutely safe way to overcome this robber of youth and attractiveness. After all, one of the chief pleasures in life is that of appearing in an attractive manner, as possible. "Brownatone" Hair Stain will help you in just this emergency. With it you can touch up the gray spots instantly—or you can in a few moments' time give to your hair that rich, soft brown, so much to be admired. Or, you can make it a glossy black if you prefer. All this without the possibility of detection, failure or harm to either hair or scalp. No previous experience whatever is necessary when you use "Brownatone." Just brush or comb it into the hair. A sample and a booklet will be sent you upon receipt of 10 cents. All of the leading drug stores sell "Brownatone." Two sizes, 25c and 50c. Two shades—one for golden or medium brown, and the other for dark brown or black. Insist on "Brownatone" at your hairdresser's. Prepared by the Kanton Pharmaceutical Co., 62 E. Fifth St., Covington, Ky. Sold and guaranteed in Omaha by Sherman & McConnell Drug Co. stores and other leading dealers.

For Sailow, Blotchy Rough or Greasy Skins

Some skins require constant grooming to keep them from becoming oily, itchy, blotchy or rough, or if such condition has developed, to overcome it. In such chronic cases it is particularly inadvisable to keep piling on cosmetics which close the pores, collect dust and dirt, making the complexion worse than ever. It's a lot more sensible to use ordinary mercurized wax, which literally absorbs a bad complexion. Apply the wax, like cold cream, before retiring; next morning, in washing it off, you'll wash away fine, flour-like particles of the unightly cuticle. Repeat for a week or two and you'll have an entirely new skin—soft, satiny, spotless and beautiful as a child's. One ounce of mercurized wax, procurable at any drugstore, is all you'll need. If the skin is wrinkled or flabby, here's the best possible remedy: Mix 1/2 pint hot water and 1 ounce powdered axillite and use as a face bath. It works like a miracle, yet is entirely harmless.—Advertisement.

Just the Thing.

A tailor's work is sedentary. That is why most tailors suffer from constipation. G. W. Roberson, Wichita Falls, Tex., says: "I find Foley Cathartic Tablets the most delightful, cleansing cathartic I have ever taken. They are just the thing." They keep the stomach sweet and the liver active, drive away headache, dullness, tired feeling, biliousness, bloating and other results of clogged bowels. Prompt and effective, without gripe or pain. Stout people praise them for the light, free feeling they give. Sold everywhere.—Advertisement.

W. C. T. U. Convention Opens at Seattle

SEATTLE, Wash., Oct. 11.—Delegates to the forty-second annual convention of the National Woman's Christian Temperance union met tonight for the opening of the convention, which is to continue through Thursday evening. The visiting members and friends from every state in the union and many foreign countries were welcomed at the initial meeting by state and city officials and were accorded a special welcome by the churches and educational interests, the State Federation of Women's clubs and the Washington state Women's Christian Temperance union. From Mrs. Florence E. Richard, president of the Ohio Women's Christian Temperance union, and Mrs. Rosa Hayes Schuchter of Missouri, who spoke in behalf of the Young People's branch of the national organization. A part of the convention program which is expected to attract attention will be the receiving of messages from temperance workers in foreign lands and a discussion of world temperance questions. This latter is to be preceded by an address, "We Must Win," by Miss Frances Wang, Kiang, China. Morning hours of the convention are to be devoted to the department institutes, where one theme for discussion will be "What National Constitutional Prohibition Will Offer Your Departments," and another, "Social Services," under this address are to be made on "How to Win," "Safety First," and "Our Chief Asset."

Running a Campaign—What to Do—What Not to Do

President Wilson IS Starting Plans for the Wedding

WASHINGTON, Oct. 11.—Reports that President Wilson might go to San Diego for the first time in the Norwegian general elections. There are 170,000 new voters on the rolls. Press forecasts predict the women's vote will bring large gains to the socialist representation in Parliament, making that the strongest single party, although the government expects to maintain itself by a combination of three political groups. The socialists' platform is devoted largely to an anti-military propaganda. The government program includes a grain monopoly, old age pensions and restrictions of almost a prohibitive character on the sale of alcoholic liquors. A wedding trip is being considered, but it is not yet completed. The presidential yacht Mayflower may be used. The president went on a short shopping tour this morning and bought a traveling case. Congratulations from all parts of the world continued to arrive at the White House. One cablegram came from President Estrada Cabrera of Guatemala. The president is answering personally the messages.

Women of Norway Voting for First Time

CHRISTIANA, Oct. 11.—(Via London, Oct. 11, 8:30 a. m.)—Women are voting today for the first time in the Norwegian general elections. There are 170,000 new voters on the rolls. Press forecasts predict the women's vote will bring large gains to the socialist representation in Parliament, making that the strongest single party, although the government expects to maintain itself by a combination of three political groups. The socialists' platform is devoted largely to an anti-military propaganda. The government program includes a grain monopoly, old age pensions and restrictions of almost a prohibitive character on the sale of alcoholic liquors.

FOR A BAD COUGH

Here is a fine old-fashioned recipe for coughs, colds or catarrh trouble that has been used for many years with great success. Get from your druggist 1 oz. of Patent (Double Strength) and add to it 1 pint of hot water and 4 oz. of granulated sugar. Take one tablespoonful 4 times a day. No more racking your whole body with a cough. Clogged nostrils should open, air passages of your head clear up so you can breathe freely. It is easy to prepare, costs little and is pleasant to take. Anyone who has a stubborn cough, or hard cold or catarrh in any form should give this prescription a trial.—Advertisement.

Get Rid of Scrofula How? Take S. S. S.

Fifty Years' Use Proves S. S. S. Will Relieve Stubborn Cases

You have noticed the little festering pimples on the face and body—swelling of the glands—soreness in the legs and arm muscles. These are the symptoms of Scrofula. You may have some of these symptoms, possibly the taint of Scrofula infection. But in either case, it is a dangerous condition. Your blood is infected, impure, and you can never hope to gain perfect health until the impurities are washed from the system. If you feel badly all the time, you must crave health. If you want to feel renewed spirits, the glow of perfect health, bright eyes, clear skin, the knowledge that you are well, you can do so. Cleanse your blood by taking S. S. S. For fifty years it has been the standard blood purifier. It relieves the trouble by renewing the blood, renewing its strength, and stimulating the flow so that the blood regains its lost vitality, and throws off the poison. Even long-standing cases respond. But you must use S. S. S. Take it for all blood infections. Get it at your druggist's today. If you need special advice, write the S. S. S. Co., Atlanta, Ga.

Obregon Marching Toward Juarez

EL PASO, Tex., Oct. 11.—Forces of General Obregon are reported to be within a few days' march overland from Juarez. Carranza consulate advisers declare a revolt is pending in Casas Grandes, where General Villa has mobilized his army for an overland advance into Sonora.

MARY and JOHN Take in the AK-SAR-BEN

Many "Marys and Johns" took in the Ak-Sar-Ben last week. Many returned home with no clearer idea of the great manufacturing industry of Omaha—but others, and OUR Mary and John among them, took back to their out-in-the-state home a wholesome respect for this phase of our commercial life and a firm resolve to use Omaha-Made Goods.

Our Mary and John visited at the home of a LOYAL Omahan. Each thing they ate, used or saw was an example of Omaha manufacturing skill—a lesson that was driven home by the LOYAL Omahan who explained to his guests that "it was made in Omaha and its quality is better and its cost less."

While the sun was out and the air warm the first afternoon of their visit, they sat on the host's porch, protected from the sun's rays by Omaha-made awnings; they reclined upon Omaha-made furniture, sipped Omaha-made beer that had been cooled with Omaha-made ice and learned their first lesson about Omaha-made Quality. They learned this lesson because their host impressed it upon them.

On the chilly evening of the electrical parade, they buttoned Omaha-made clothes tightly around their necks, and pulled Omaha-made hats down low to keep out the October cold. An Omaha-made fur robe was wrapped about their feet, and a box of delicious Omaha-made candy proved a pleasing diversion while waiting for the floats. They returned home hungry and cold. A smack of Omaha-made whiskey took the chill from their bodies, and a light lunch, composed of Omaha-made crackers, butter and other foodstuffs, made even more enjoyable by a good hot cup of Omaha-made coffee, sent them to bed happy and comfortable. They were protected from the elements throughout the night by warm, soft Omaha-made mattresses and coverings, the staunchness of the well constructed house which had been built with Omaha-made brick, concrete and millwork, and the warm, pleasing drafts from an Omaha-made furnace. Mary and John went home with a new idea of the high quality, as well as the variety of Omaha-made goods, and with a firm resolve that henceforth they would always specify the same. The host proved himself loyal to Omaha by bringing to the minds of Mary and John the full importance of Omaha's manufacturing industry. If we were equally loyal to Omaha-made goods it would bring additional prosperity to Omaha and to each one of us.
