

Goethals Makes Report On Slides Along the Canal

WASHINGTON, Oct. 14.—A detailed account of the land slides, which have

caused the Panama canal to be closed indefinitely to commerce, was called to the War department by Major General Goethals. The dispatch said: "Masses of material involved in the break of October 14, 1914, which had been sliding gradually into place, moved precipitately. This, combined with a similar movement from the break which occurred

just opposite on the west bank in August, caused present conditions. "Length of channel involved, 1,300 feet. Of which 300 feet has presented width of twenty-five feet and depth of three to fifteen feet. "For the week ending October 3, 20,000 cubic yards of material was brought, but as the movement continued, the result

has been to maintain only what slides left in the first instance. The canal is therefore physically closed temporarily. "On the east side bank is upwards of 30 feet above canal level and on the west side varies from 30 to 40 feet above. Material in settling and moving creates such waves with deep depressions behind those being some 50 to 60 feet from

the canal prism, with elevations of sixty to eighty feet above water surface. These waves undoubtedly counterbalance weight of broken mass on either side, and when removed may cause another similar movement, hence impossibility of making any prediction as to date of reopening until after waves which now block the channel have been removed and action of remaining material determined. Heavy rains materially affect movement. "Whether light draft ships can pass in advance of thirty foot draft ships must depend on conditions when reasonably secure channel is attained."

Red Sea Don't Need Agnew. President Linnin of the Boston Red Sox

denies the report sent out from St. Louis that catcher Agnew of the Braves had been purchased by the Boston club for \$500. The Red Sox head office that Manager Bill Carrigan has not approved him of any such deal, and is certain that he would have been informed had Agnew been bought. He says, furthermore, that the club is not in need of a new catcher as Cady Thomas and Carrigan form a very capable backstopper trio.

Friday, a Day of Unprecedented Economical Importance in the Great October Sales
