NEW YORK, Oct. 19.—Industrial and special stocks rose to higher levels today under the lead of United States Steel, which made a maximum gain of 1½ points at S74 or within 7% of its record price in 1899. Steel's advance occurred in the face of persistent opposition from the professional element, which sold the stock on the theory that its rise was being used as a cloak for selling of other representative issues.

New records were made by Bethlehem Steel, which rose 7 to 500 Studebaker, 3 to 179; American Steel Foundries, 4½ to 74%; Willys-Overland, 3% to 28; Virginia Iron, Coal and Coke, 2 to 70, and United States Industrial Alcohol, 5½ to 112. Railway issues lapsed into dulineas after a forencon exhibition of strength. Missouri Facific was in fact the only active rail, scoring a moderate rise on the progress of the reorganization. Rock Island was beavily sold in the later trading on publication of a detailed statement calling attention at the road's heavy financial requirements.

Rock Island's decline was followed by general recessions in the railway group, many of which showed net losses at the close. Specialties also yielded in large part. Total sales amounted to 1,000,000 shares.

part. Total sales amounted to 1,000,000 shares.
Foreign selling of stocks was again in evidence, offerings consisting largely of transcontinentals, Eries. Reading and some of the coppers. Some dissatisfaction was expressed at the continued heaviness of exchange on London despite the arrival of another large amount of British gold via Hallfax. Rates on Italy were a trifle higher, but Austrian remittances were at last week's low quotations. The latest statement of the Imperial bank of Clermany, showed a gain of not quite \$1,000,000 in gold and a contraction of more than \$25,000,000 in note circulations.

Increased foreign offerings of our bonds made only slight impression ca prices. Total sales, par value, aggregated \$5,300,000.
United States bonds were unchanged on *Sunday.

CATTLE—Receipts, while quite liberal for a Tuesday, were smaller than a week ago, and the total for the two days foots up 29.899 head, a failing off of about 11.000 head, as compared with the same days last week. However, with the exception of last week, receipts are about on a par with most recent sales, and only about 2,000 head smaller than a year ago. The few cornfed steers in sight commanded about steady prices. There was a litheral supply of grans beef from the range and it sole generally a little stronger than yesterday. While the trade was a little slow in getting started, owing to the amount of sorting to be done, it was reasonably active when once under United States bonds were unchanged on call. Number of sales and leading quotations

stronger than yesterday. While the trade was a little slow in getting started, owing to the amount of sorting to be done, it was reasonably active when once under way, packers apparently wanting the stuff.

Cows and helfers were in larger supply than usual, considering the total number of cattle on sale. At the same time there was a fair demand, but packers were determined to take advantage of the liberal offerings, so that the trade was a little slow and the feeling no more than steady at the best.

The yards were full of country buyers looking for feeders and the market was both active and stronger. Desirable kinds were generally picked up in good season and the whole trade was in a very healthy and a very satisfactory condition as viewed from a seller's standpoint. It is safe to say that last week's break has been entirely recovered.
