HOGS.—Hog values were pounded to the tune of fully 50c this morning, leaving them nearly \$1.10 lower than on Monday.
The story is easily told. Fresh receipts were light, the smallest of the week in fact, and the holdover of some 2,000 head made offerings just fair. Shippers were almost entirely out of the market, the few loads they bought being purchased at prices so far below yesterday's early market as to be out of the range of comparisons. Tops landed at \$7.40, 70c below yesterday's high price and \$1 lower than the top Tuesday.

Packers made first bids at \$7.25, 50;55c lower than yesterday's average cost. At first sellers were literally stunned and nothing was done for a while, but before long a few hogs started to move on a fully 50c lower basis, and by 8:30 nearly everything had been sold, only a few scattering loads being left out of total offerings of over seventy loads. The most popular price was \$7.36, with the next scattering loads being left out of total offerings of over seventy loads. The most popular price was \$7.26, with the next longest string at \$7.30. A few loads sold above this, and there was a sprinkling down toward \$7.00. The market was over in an incredibly short time, but sellers realized what they were up against and took their medicine without much fuss.

Fresh arrivals were only forty-three cars, or 2.500 head, and even with the 2.000 head carried over from yesterday total offerings amounted to less than 5.000 head. Other points were pretty well supplied, however, Chicago reporting 25.000. Total for the week to date is 16.692, being more than 1.000 larger than last week and 5.50 Oheavier than two weeks ago, but smaller than last year by about 400 head.

OMAHA. October II, 1915.

The commercial grades of wheat suffered a general decline today, ranging from unchanged to so lower.

The lower grades remained firm and sold at practically unchanged prices.

Corn was fairly strong, selling from higher higher. The receipts of this cereal were light and the cash demand was quite active. Yellow corn was at about to premium over the white and mixed grades.

The run of oats was also

grades.

The run of oats was also pretty light, but the demand for this cereal was good, causing the market to sell 'affic higher. Rye was in demand and showed gains of 1997c per bushel.

There were no sales of barley reported and that market was quoted nominally unchanged. and that market was quoted nominally unchanged.

entures of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, Oct. 21.—Wheat suffered a set back in price today owing chiefly to large receipts northwest, the fine weather and the outlook that the duty enforced by Canada would be removed. The close was heavy. 1%@1%c to 1%@1%c net lower, with December at 1.03%. and May at \$1.04%. Corn finished %c to 1%c off to 1%c up, cats unchanged to a shade down, and provisions varying from 30c, decline to a rise of 22%c.

Breaks in the price of wheat in the northwest appeared especially to stimulate the selling which was indulged in freely, both by longs and shorts. On the ensuing dip, however, purchasing of futures that was said to be at least partly for European account tended to bring about a rally. The effect, thought, was not of a lasting sort, as the bulls were handicapped by assertions that removal of the Canadian duty would be accomplished before February 1.

Talk of a gradual increase of winter wheat receipts cut some figure late in the day as an influence on the bear side of the market. In this connection, it was pointed out that arrivals at St. Louis today were the most abundant so far this season. Advices were also at hand that Nebraska was offering winter wheat freely at Kansas City, and that the Omaha cash market showed a material decline.

Corn had good support as a result of some export sales, but the good weather and the weakness of wheat proved to be rather more than an offset. European

Corn had good support as a result of some export sales, but the good weather and the weakness of wheat proved to be rather more than an offset. European demand was ascribed to the shutting down of supplies from the Balkans. Oats displayed more steadiness than was the case with other grain. Prices were upheld by reports of a scarcity in Great Britain.

Britain.

Stop loss selling the consequence of an extra ordinary fall in quotations on hogs led to a sharp break in the provision market. Nevertheless, an irregular upturn followed, the outcome of opinions that the receipts of hogs would be greatly curtailed by the big decline in prices.
