Former Demo Congressman and Governor Would Run on a Dry Ticket.

#### HITCHCOCK MORE FUN FOR

(From a Staff Correspondent.)

LINCOLN, Oct. 25.-(Special.)-Complications continue to come in the democratic situation over the nominations for the United States senate. Now ex-Congressman A. C. Shallenberger, who at one time filled the job of governor and at another time served his district as a congressman, has tipped off to his friends that he wants the democratic nomination for the senate in place of Senator Hitchcock.

The congressman, however, is a little afraid of the Hitchcock combination. He does not desire to buck up against the

of stirring up the democrats of the Fifth district who have congressional ambitions, for if Shallenberger gets into the senatorial fight there will be an opening for somebody to sawrifice himself.

It is said that the reason for the congressman's sudden shift from the congressional race track to the senatorial speedway is caused by the announcement of W. E. #### **BARRETT WORKING TO GET** MONEY FOR THE STATE

(From a Staff Correspondent.) LINCOLN, Oct. 26.-(Special.)-As digger up of ancient treasures, Deputy Etate Attorney General Dexter Barrett is gaining considerable glory. For months

he has been working on the O'Connor case at Hastings with pretty good results and it may mean that the cofffers of the state may be made the richer from that estate

Today Mr. Barrett went to Hastinge to file a bill of exceptions in another estate in which the right of the state to inherit involved. The estate is known as the Henry Keller property and covers eighty acres in Adamas county, said to be worth presided. The meeting was for the purin the neighborhood of \$10,000, Keller died in 1904 and nothing has been

done to gain possession of the property for the state and until very recently no person has appeared to claim the right to it. Now, however, a Lewis Keller has sppeared and says he is a brother of the deceased man and claims the estate. Mr. Barrett believes that the man has to kinship to the deceased Keller and will county Agricultural society, has sent in indeavor to zecure possession of the proporty for the state.

# You Must Know What Makes a **Good Car Before** You Can Tell When It Is Bad

Automobiles are like everything else; not all of them are good ones. It is not always the car that looks pretty and runs like a blue streak that satisfies the demand of the family that is out for comfort, safety, reliability, endurance and economy-

A car that is abnormally strong in a particular line is oftener than not weak in some essential feature-some vital point may be flimsy-its frailty may amount to a flaw-

Engineers and mechanics know this, but they do not constitute the big class of buyers of cars. The business men and business women are the purchasers of automobiles-they are without technical knowledge of design or construction-

How on earth are they to know when a car is strong and when it is weak? There is only one rule by which they can be governed-only one avenue by which they can be offered protection-

That is, the honor of the man who sells the car. He knows whether it is good or bad. He knows how good it is, and how bad it is. The car's value represents the measure of the man's honesty. Hunt the honest dealer. He is safe in selling the Enger-you are safe in buying it.
