

TEN ROBBERS LOOT EXPRESS CAR SAFE

Katy Car Robbed by Band of Men in Oklahoma in a Most Methodical Manner.

TRAINMEN ARE TIED TO TREES

OKLAHOMA CITY, Okla., Oct. 27.—A band of ten robbers held up Missouri, Kansas & Texas passenger train No. 9, southbound from Chicago to San Antonio, near Onapa, about 2 a. m. today, tied up the crew with ropes, placed a guard over the passengers and looted three express cars. They held the train two hours and went about their work with military precision. They sent back a detachment, which stopped a freight train coming up behind and placed the freight crew under guard to prevent interference.

Pursued by Officers.
Express officials refused to tell the amount of loot taken by the robbers, who escaped into the woods and marshes in the vicinity of Onapa, and were today being pursued by peace officers of a dozen counties and hundreds of citizens organized into posse. The train robbed often carries large amounts of money and securities.

Members of Crew Captured.
The band, it is believed, boarded the train at Checotah, north of the scene of the robbery. After reaching Onapa, a station without telegraphic facilities at night, the train was in a sparsely settled territory near the Canadian river, affording wild forests and marshes for escape. Here the robbers climbed over the baggage and mail cars into the engine. They forced the engineer and fireman to stop the train. They roped the conductor from the passenger coaches and the other members of the crew from baggage and express cars. All were lined up by the track. Some of them were tied to trees while members of the gang stood by.

Work Was Then Begun on the Express Safes. Three safes proved impregnable and were abandoned. After five charges of nitroglycerin were exploded the fourth safe was opened.

During this time probably a dozen shots were fired by the robbers, but excepting a brakeman, who was wounded in the finger when he tried to escape, no one was hurt.

When the loot had been packed away the robbers thanked the train crew, wished them good night and left.

Work Like Trainmen.
All the care of trained railroad men were exercised to prevent wrecks. Undoubtedly aware that they were on the main line they sent guards both to the front and the rear to flag any train that might approach. It was this caution that led to the stopping of a freight train in the rear and eventually to the spreading of the alarm of the robbery. The robbers guarding the freight train crew were aided by the engineer, who escaped and ran seven miles to Checotah, where he summoned assistance. Before officials could reach the spot all the band had fled.

Nothing of Value Taken.
ST. LOUIS, Mo., Oct. 27.—C. De Sumner, general manager of the Southern division of the American Express company, said nothing of value was in the safe which was blown by the men who robbed the Missouri, Kansas & Texas train in Oklahoma early today. He said he had been informed that the robbers took a package of claim vouchers and railroad tickets.

Haggin's Runners to Go Under Hammer

LEXINGTON, Ky., Oct. 27.—Elmendorf, the 5,000-acre estate of the late James B. Haggin, will pass out of existence as a breeding establishment here tomorrow when the stallions, Ballot, Bain and Heslian, with sixty-eight brood mares and thirty-one yearlings, will go under the hammer.

Probably the horse that will attract the most interest at the sale will be Ballot, son of Votter, the famous sprinter of fifteen or twenty years ago. Ballot, a better horse than his sire because he could sustain his splendid speed over any distance, was bred by the late James R. Keene at Castleton stud here. During his racing career, which extended over four years, during which time he won the Grand as well as in the United States, he earned for Mr. Keene the substantial sum of \$150,000. He was a winner of the Suburban handicap at Sheepshead Bay and seventeen other races, all fixtures at that time of the American and English turf.

Sain is probably better known as a sire, while Heslian stands extremely high in the list of winning sires during the last several seasons.

Elmendorf came into existence in 1877 when Mr. Haggin purchased the old Swigart farm, several miles outside of this city. At that time he was interested in breeding thoroughbred horses in the Rancho Del Paso ranch in California, but at the time he gave up his ranch in 1896 he sold all of his horses there at auction, purchasing the most desirable of the lot for Elmendorf.

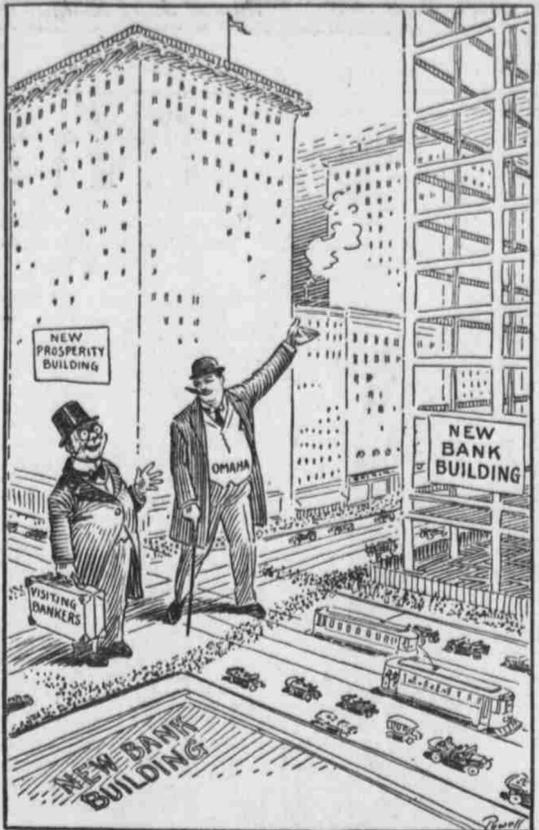

Mr. Haggin during the early '90s imported a number of celebrated stallions from England and the antipodes, and the sale tomorrow includes a number of horses which trace their lineage to these, although at the time the anti-racing bill was passed in New York Mr. Haggin shipped a large number of his horses to foreign countries.

The speaker endorsed the soil and topographical survey of the state, which has been started by Dr. Condra of the university, and urged a state appropriation for the completion of this wonderful and beneficial work, which would be of universal value to bank patrons and property owners.

Memorial for H. T. Yates.
The memorial hour for Henry T. Yates, late president of the Nebraska National bank of Omaha, was one of the principal features of the afternoon. Resolutions were introduced by a special committee consisting of J. T. Truener, S. K. Warwick and P. L. Hall. Eulogies were pronounced by ex-Senator Joseph H. Milyard of Omaha, Dean Tancock of Omaha and Dr. P. L. Hall of Lincoln.

Eight hundred bankers from all over the state were in attendance the first day. This is the best attended convention ever held by the association. Good crops, good conditions, and a good time of year for holding the convention, as well as the mastery system employed by Secretary Hughes and his office force, are said to be responsible for the especially large attendance.

region of La Courtoine, where heavy fighting has been in progress for some time for possession of the German salient. The war office announced today that this attack had been defeated. The statement follows:

"To the south of Loos our aeroplanes drove back and dispersed by their fire strong patrols of the enemy."

"In the Champagne in the course of the night the Germans attempted a new attack against our trenches at Lecourtville. This attack was checked by our infantry fire and machine guns and failed completely."

"The night was calm on the rest of the front."

Congregationalists For Defense Only
NEW HAVEN, Conn., Oct. 27.—The National Council of Congregational Churches today placed on record its belief that armaments in the United States should not be greater than adequate national defense requires. The president and members of congress were asked to recognize this principle and urged to bend their energies toward working out, in cooperation with other governments, a plan for international organization that will render a recurrence of war impossible.

The resolution, together with one adopted earlier in the day, appealing to the president to do something to stop the Armenian atrocities, will be carried to Washington by a committee of five to be named tomorrow. Rev. Dr. H. H. Dewey of Minneapolis proposed this method, so that "resolutions will be considered with all the seriousness accompanying their intent and adoption, and will not find judgment in an official 'wastebasket'."
