

### WANT PROBE INTO THE SMITH MURDER

Coroner's Jury Recommends that County Attorney Investigate the Case.

#### NOTHING NEW IS DEVELOPED

A coroner's jury, after deliberating for a short period on the evidence offered at an inquest, returned the verdict that "William Harry Smith of Council Bluffs came to his death about 10 p. m. the night of October 16, near Thirty-first and Dodge streets, Omaha, from a gunshot wound inflicted by some unknown person, and owing to the peculiar circumstances under which the shooting occurred and the evidence offered, we recommend a more thorough investigation on the part of the county attorney."

Nothing developed in the testimony of any of the witnesses that did more than corroborate the story already related of the crime.

Miss Grace Slater, 422 North Thirty-fourth street, told in few words that she had known Smith for five years, was employed in his department of the Woodmen of the World and the details of the holdup and shooting which resulted in Smith's death. She told how with her mother she met Smith by chance at Sixteenth and Howard streets, and after leaving her mother she and Smith started to walk to her home; how near Thirty-first and Dodge streets they were confronted by a highwayman, who flashed a light in their face and commanded them to hold up their hands. Smith did not comply and was shot down, following which the bandit forced her to accompany him on a long walk, made improper proposals and finally after taking her purse gave her car fare and she boarded a street car and went home. She further asserted that as the bandit was masked she noted only that he had a prominent nose and his general height, build and wearing apparel, and further that unless she heard his voice she would be unable to identify him.

Other witnesses who testified were Mrs. Frank Fogge, Miss Ione Fogge and D. W. Phelps, all living at 3116 Dodge street; Mrs. Emma Solomon, living at Thirty-first and Dodge; F. L. Bushman, 304 Farnam street; E. G. Callahan, a caller at the Fogge residence the night of the murder; Mrs. Nellie Slater, 422 North Thirty-fourth street; the coroner's physician and Detective Del Rich. None of these witnesses offered any new evidence, but merely recited a repetition of what has been said before. Detective Rich, however, asserted that the police are in possession of the picture of an ex-convict, whom they are confident is the man who shot Smith. Miss Slater asserted she was certain that the murderer was no one whom she or Smith knew or ever saw before.

### Nebraska Hay Crop Biggest in History

The Northwestern is laying plans to ship out of Nebraska the largest wild hay crop that has ever been harvested in the state. All through Rock, Brown and portions of Cherokee counties, the fields are filled with stacks of the finest quality of hay. Up to that portion of the state the heavy rains ceased just before the late haying season set in and since then the weather has been perfect for cutting and curing hay. As a result the country along the Northwestern's Black Hills line has more hay to sell than ever before.

The Northwestern is pushing large numbers of cars into the stations in the hay district, where they are being loaded for Chicago and the markets to the east and south. All through the country large numbers of hay baling outfits are at work.

### Even Cross, Sick Children Love Syrup of Figs

Look at tongue! If feverish, bilious, constipated, take no chances.

"California Syrup of Figs" can't harm tender stomach, liver, bowels.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.—Advertisement.

### Cut Out Meats If Kidneys Are Troubling You

Uric acid in meat excites Kidneys and Irritates the Bladder.

Noted Authority says we must flush Kidneys with Salts if Back hurts.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from overwork; they get sluggish; the eliminative passages clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of scrapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending uric acid and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Advertisement.

### Rheumatism

A Home Cure Given by One Who Had It. In the spring of 1912 I was attacked by Rheumatism and Intermittent Malaria. I suffered so only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but each time as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply send your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of \$1.00 per bottle, but understand, I do not want your money unless you are perfectly satisfied to send it. Let it talk. Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today. Mark H. Jackson, No. 411 E. Gurney Bldg., Syracuse, N. Y.
