

### VILLA MAKES PLAN FOR NEW CAMPAIGN

Chief Plans to Siesse Guaymas and After Refitting Army to Strike at Mexico City.

#### EMBARGO BLOCKS EARLIER PLAN

WASHINGTON, Nov. 5.—Confidential reports to the War department from official sources in Mexico indicate that General Villa in his movement to Naco is carrying out part of a plan to strike from there through the interior to the Pacific coast to capture the port of Guaymas to get a base of supplies and then, after recouping his military strength, probably move on toward Mexico City.

Villa's first plan was to get supplies at Agua Prieta if possible, but that it was planned long ago to move on to Naco to Hermosillo, and then on to the coast, where the American embargo on arms will not prevent the receipt of munitions.

Consular dispatches contained no reference to the border. That Dr. B. H. Thigpen, his assistant, Dr. Miller, and J. B. Pylant, a chauffeur, all Americans, reported killed while giving medical aid to the Villa forces, had been seen alive yesterday. The official dispatches regarded the men as killed and said they had accidentally been shot while between the firing lines.

NACO, ARIZ., Nov. 5.—With the laconic statement by General Francisco Villa that he was on his way to Hermosillo and was busy getting provisions for his men at Villa Verde, the center of interest in the border hostilities between Mexican factions today shifted to the south. On the roads stretching south and southeast from Naco Villa said he had 13,000 troops which he was planning to concentrate along the line of march to the southwest metropolis.

In the face of Villa's reiterated assurances that no property in the Cananea mining district would be molested, it was reported that the Cananea Consolidated Copper company paid \$25,000 for immunity. Conflicting reports were received here concerning looting and destruction of property in this district.

### Murillo Painting Stolen in Mexico is Found in New York

EL PASO, TEX., Nov. 5.—Five paintings, believed to be by Murillo, valued at \$50,000, belonging to the Roman Catholic bishop, Montes De Oca, of San Luis Potosi, which were stolen by officers of Tomas Urbina's command and smuggled to the United States where they are said to have been sold for \$60, have been recovered. The paintings are being held by customs authorities in New York. They are said to have been smuggled to the United States in bed clothing by a person who was ignorant of their value.

The paintings were recovered through the efforts of Collector of Customs Zach L. Cobb, who acted on information that the paintings had been shipped to New York, and spread an alarm through the federal customs service. The masterpieces were located in an express office in New York City and the customs authorities took possession.

Secretary Lansing has been asked to secure from Cardinal Gibbons of Baltimore the address of the bishop of San Luis Potosi, who is believed to be a refugee in the United States. According to James Hambleton, a friend of Bishop Montes De Oca, the bishop was driven from Mexico by the forces of the late General Urbina, when the latter took possession of San Luis Potosi. Urbina's officers then sacked the bishop's palace. The pictures were afterwards traced to Urbano's ranch at Las Nieves, Durango, where Urbina was killed recently under orders of General Villa.

### GERMANS CUT DOWN THE POPULATION OF RUSSIA

(Correspondence of the Associated Press.) BERLIN, Oct. 21.—The school authorities in Bavaria have published notes on war geography for the children attending the public schools. The following information is given regarding Russia:

The Russian territory already occupied by the Germans is four times as extensive as the kingdom of Bavaria, but is only one-seventy-fifth of the entire Russian empire. But the greater part of Russia is thinly populated, the most populous districts are already in German possession, so that Russia can now show only six-sevenths of its former population.

At the beginning of the war Russia had 25,000,000 more inhabitants than Germany and Austria-Hungary combined; namely, 170,000,000 against 120,000,000. After a year of warfare this position has been reversed. Russia now has only 140,000,000, whereas the central monarchies rule over 155,000,000.

The new territory occupied in east and west is as extensive as the entire kingdom of Prussia.

His Vocation Clear. Young Arthur, the pride of his Beacon street home, had been attending school all of six weeks, and his devoted parent thought it was high time he should find out how things were running. So he asked one afternoon:

"And what did my little son learn about this morning?" "Well, miss Wilcox told us all about mouses."

"That's the boy. Now, how do you spell mouse?" "It was then that Arthur gave promise of entering the diplomatic service. He passed needlessly for a moment, then said:

"Father, I guess I was wrong. It wasn't a mouse teacher was telling us about; it was a rat."—Boston Globe.

Grateful Papa. Miss Curley kept a private school and one morning was interviewing a new pupil.

"What does your father do to earn his living?" the teacher asked the little girl.

"Please, ma'am," was the prompt reply. "He doesn't live with us. My mamma supports me."

"Well, then, asked the teacher, "how does your mother earn her living?" "Why," replied the little girl in an artless manner, "she gets paid for staying away from father."—Philadelphia Ledger.

Invaders Suffer Heavily. TOPOLOBAMPO, Mex., Nov. 5.—(By Radio to San Diego, Cal.)—Word reached here today that of the 1,200 Mexican troops that invaded Guaymas several months ago, only 500 escaped annihilation. The survivors, it is understood, returned to Mexico.

Michigan Drys Get Busy. ESCANABA, Mich., Nov. 5.—Dry forces in convention here today decided to open a campaign for state wide prohibition, with particular attention to the upper peninsula. Resolutions were adopted supporting the Hobson amendment for national prohibition.

### Saturday "Derby Day" in Omaha

"Derby Day" is new to Omaha, but the idea has already taken on so that dealers and men who wish to be up in style are giving it attention.

Saturday is "Derby Day" in Omaha. Haberdashers and men's clothing stores in general will observe it by making

special displays of derby hats in all the newest styles and latest shapes, not to mention the favored colors and shades. Derbies will be much in evidence Saturday. If you haven't gotten yours, Saturday will be an opportune time. Of course, if you happen to be a woman and do not care to wear a derby, you

may set one for father, brother, or for somebody else's brother. But remember that Saturday's the day they're giving derbies away at very attractive prices in all the leading Omaha stores. And say, man, fall in line, keep step with style, get a new derby.

### GOTCH GOES INTO THE COURTS

Champion of Mat Files Action in Polk County (Iowa) Court Over Gas Tractor.

#### NEW ROLE FOR THE WRESTLER

(From a Staff Correspondent.) DES MOINES, Nov. 5.—(Special Telegram.)—According to an original notice filed with the Polk county sheriff today, Frank Gotch of Humboldt, champion wrestler of the world, is about to go to the mat with the Huber Manufacturing company. The bout will be staged in the Humboldt courts. Gotch claims that \$1,800 is due him from the defendant company, which he asserts sold him a gasoline tractor on October 9, 1915, which failed to come up to representations.

Iowa Cities Show Gain. Population figures for the 101 cities of Iowa, being all those of more than 2,000 inhabitants, and for the 763 incorporated towns, as shown by the 1915 census, were made public today when the report of the department of finance and municipal accounts in connection with the state auditor's office was given out. In the 101 cities there has been a gain over the 1910 population of 108,860. The larger cities show the largest per cent of gain. Des Moines shows a gain of 23 per cent, its population being 105,538 this year, as against 85,368 in 1910. Sioux City shows a gain of 23 per cent, its population, according to the present census, being 61,787, as against 47,528 in 1910. Waterloo shows a gain of 23.50 per cent, its present population being 32,983, as against 26,903 in 1910.

Nearly all of the cities show a gain. The total population of the 101 cities is 533,191, as against 446,241 in 1910. It is not possible as yet to announce the total population of the state, inasmuch as the returns from the townships and counties as a whole have not yet been made up. The report of the department of finance and municipal accounts, which contain the census figures for 1915, is the first official statement to be issued on the present census. This report is made by the state auditor's department and was prepared by George Gallardo, chief clerk of this department. The census figures used were obtained from the census department.

To Increase Milk Sales. W. B. Barney, state dairy commissioner and member of the board of the Holstein Friesian association, leaves this evening for Chicago to attend a conference of representatives of various dairy breeders' associations with reference to

a publicity campaign to increase the consumption of milk and dairy products. It is proposed to spend \$200,000 in an educational publicity movement to show the public the food value of milk, with a view to increasing the use of milk. The campaign will be conducted on much the same line as was the one put on by the California raisin growers, which increased the sale of raisins by a very large per cent and also the one put on by the California orange growers.

Orphans Cared For. F. J. Sessions, superintendent of the State Orphans' home at Davenport and for many years city superintendent of schools at Waterloo, is attending the State Teachers' association meeting. Superintendent Sessions has reported to the state board of control that for the year ending June 30, 1914, there were 294 children received in the home and 382 placed, showing an increase of twelve in the number of children kept in the home for that year. For the year ending June 30, 1915, there were 249 children received in the home and 153 placed, leaving a gain of ninety-six in the number kept in the home. For the months of July, August, September and October of this year there were fifty-four received and 119 children placed in homes. There are now about 600 children in the home. The state allows \$13 per month per child for maintenance of which one-half is paid by the county from which the child came and one-half by the state. In cases of the children of soldiers the state pays all of the maintenance expense.

Refuses War Orders. The Nashua woolen mill has recently received an order direct from Italy for 200,000 army blankets. It has also received six orders from New York since the recent Anglo-French war loan amounting to from 60,000 to 200,000 army blankets in each order. An order for 10,000 blankets for the hospitals of Illinois also has been received. All of these had to be turned down because the mill is working to capacity filling large orders for army blankets for the United States army.

Bar Foot Ball in Grades. The Des Moines school board will not hereafter permit foot ball games between grade school teams. The action was taken after it was learned that a number of interschool grade teams had been formed and were playing many games. The board members took the position that the game was too strenuous for young boys who do not have the advantage of physical examination before joining the teams as do the high school players.

### PACKERS PROTEST ANEW AGAINST BRITISH ACTS

WASHINGTON, Nov. 5.—Counsel for Chicago packers called at the State department today with a complaint that Great Britain had imposed new and more rigid restrictions upon their trade with neutral European countries. They asked that special representations be made to the British for office and the matter is now being considered by the department.

Zepplines or Spiders? A story is told of a young French woman who observed with punctiliousness the wartime precautions ordered by the police.

She kept the shutters closed at nightfall and the curtains pulled down, so that not a speck of light would escape from her apartments. But one night, when reading the newspaper, she said that she had reached the limit. The newspapers said that if the Zepplines came all persons must go into the cellar. She told her friends she would not go down into the cellar.

"I do not care a fig for the Zepplines," she said. "It is no use asking me. But why?" asked her friend. "Because," she replied, "I am afraid of spiders."—London Mail.

To Organize Chinese Dairies. (Correspondence of the Associated Press.) COPENHAGEN, Denmark, Oct. 21.—A number of Danish dairymen have been engaged to go to China to organize the Chinese dairy industry along modern lines.

### A Contented Mother.

A quiet, tranquil mother will transmit a more healthful influence than if she is extremely nervous from undue pain. That is why experienced mothers are constantly urging expectant mothers to use the old time remedy, Mother's Friend, a dependable external treatment obtained at any drug store. It relieves undue tension on the cords and ligaments resulting from muscular expansion and gently soothes the network of fine nerve threads. It is the one splendid assistant to ease, comfort and safety.

### PERSONAL PARAGRAPHS

Searle Holmes, formerly of Omaha and now in the advertising business at St. Paul, Minn., is enjoying a short visit with his parents, Mr. and Mrs. Frank S. Holmes of the Hamilton apartments. Use The Bee's "Swapper" Column.

## Every Man Needs a Derby

We have a shape for every face and price for every purse

**\$2, \$3.50 and \$5**

STETSON DERBYS \$3.50, \$4.00 and \$5.00

**PRAY** FOR MEN 508-510 So. 16th

### FOR LIQUOR and DRUG USING

Over Thirty-Five Years of Success Due to Honesty, Safety, Certainty

The Keeley Remedies have been administered for more than THIRTY-FIVE YEARS and are recognized by the public at large, as well as the medical profession, as being the most efficacious treatment known for the diseases which they are designed to overcome.

We have cured thousands of veterans of the War of the Rebellion in the National Soldiers' Homes of the country, whose ages range from fifty to eighty years.

We have cured several children under five years of age, who were addicted to morphine and opium, such additions having been acquired through the mother's own addiction or direct administration. No constitution is too delicate for the Keeley treatment, as the remedies are perfectly harmless.

We have cured hundreds of soldiers in the Regular Army of the United States, and have letters from officials of all ranks, from major generals to lieutenants, commending the Keeley treatment in the highest terms.

We have cured hundreds of soldiers in the Regular Army of Business Men, Merchants, Laborers, men of all occupations, and of no occupation, to the number of 400,000. Among them 20,000 Physicians.

The treatment removes all craving or desire for liquor or drugs, restores the nervous system to a normal condition, clears the brain and makes a man out of a nervous wreck.

Patients are not confined; there is no irritating or vexatious restraint.

There is no nausea or other sickness attendant upon or caused by our treatment. Improvement begins at once and continues throughout entire course of treatment.

We have special accommodations for ladies, where they can be entirely exclusive, and can be treated as privately as in their own homes.

Printed matter and particulars by mail in sealed plain envelope.

All letters promptly answered and treated strictly confidential.
