the receipts demanded to rental of the Auditorium from the city. Mr. Melady says:

The final decision of the city commissioners not to change the Auditorium rate of 50 per cent of the gross receipts for the staging of wrestling events, after the urgent solicitation of the best business man critizens of the city of Omaha, makes it necessary for me to discontinue my offorts to stage the Steeher-Hussane match in Omaha, for which I have articles of agreement signed up. The articles of agreement for this match are the most binding upon the contestants, of any wrestling match ever staged in the United States. The clause which I had inserted in the articles of agreement signal is factory termination of the match, both contestants waive their right to any interest in the proceeds, as dithese proceeds, at my discretion, to be turned over to any charitable institution or refunded to the ticket purchasers.

It is to be very much regretted that the political powers of Omaha should use their influence to bur this great match from our city.

I have gone to a great deal of palms and trouble to set data from every large western city and all reports I have are to the effect that the Auditorium, armories and collesums of these cities charse a flat rental rate ranging in price from 1160 per night to as high as \$500 per night.

I offered the city commissioners double the amount they charged for any other chass of entertainment, for example, if their highest schedule was \$500 per night, I offered \$500.
