

Nebraska MELLOR RETURNS FROM WEST COAST

Secretary of Board of Agriculture Finds Road Making at Its Best in California.

NEBRASKA IDEAS IN IDAHO

(From a Staff Correspondent.) LINCOLN, Nov. 8.—(Special.)—Secretary William R. Mellor of the State Board of Agriculture, and Mrs. Mellor have returned from a trip to San Francisco and other points along the Pacific coast and to places of interest between Lincoln and the western cities.

Mr. Mellor says people of Nebraska who are interested in good roads in this state ought to take a few pointers from California, where they have road making down to an almost perfect condition and the roads there are in fine shape.

They stopped off at Boise, Idaho, on their return home and visited with Mr. Henderson, former president of the Nebraska state fair. Mr. Henderson was recently elected secretary of the Idaho state fair and the 1916 exhibition was his first attempt. It was a success in every way, the first time that the Idaho fair has been made to pay as a consequence the people there feel Mr. Henderson is the whole thing and if it wasn't for losing him they might run him for governor.

The secret of the success was due to the fact that Mr. Henderson put a few Nebraska ideas into the scheme and with his Nebraska push the fair just had to pan out on the right side of the ledger.

Mr. Mellor witnessed aeroplane flights by Peteraky. The man could not talk English, but he could fly in several different dialects. His most spectacular flights were made like a cockscrow, twisting around as he made a straight flight through the air. Mr. Mellor may make an effort to secure him for the Nebraska fair the coming year if the cockscrow artist decides to remain in this country and continue his exhibitions.

Insurance Authority. Attorney General Reed denies the published statements that the State Insurance board has recalled its former declaration about enforcing the electricity clause in fire insurance policies. He says that the resolution of the board will stand, but that the board has come to the conclusion that it has no authority over what kind of stipulations are made in riders attached to insurance policies.

"If the insurance companies can make a special agreement with the party insured covering electricity, then that is a deal directly between the two and we have no jurisdiction over that kind of an agreement attached in the form of a rider," said the attorney general this morning.

Pardon Board to Meet. The State Pardon board will meet tomorrow at the penitentiary. So far there has been no applications made to the board for pardons or cutting down of sentences, but the board expects to have the usual number of men before them asking for paroles.

Dourine Quarantine Lifted. The State Live Stock Sanitary board has lifted the quarantine on horses, mules and such animals which has been on because of the dourine trouble in northwestern counties, passing the following resolution at their last session:

It is hereby ordered by the Nebraska Live Stock Sanitary board that the order of this board of August 1, 1915, designating as quarantine order No. 3, which prohibits the movement of stallions, mares, mules, jacks, ponies, and yearlings or over from the counties of Blaine, Cherry, Grant, Hooker and Thomas, of the state of Nebraska except upon test made as provided, is hereby revoked.

Luff Will Have His Hearing Wednesday

AURORA, Neb., Nov. 8.—(Special.)—Not in many years has interest in Hamilton county attached to an assault case as it has in the Nelson-Luff case, near Marquette. Few men and no women in the county are without expressed opinions as to the guilt or innocence of Fred Luff, who is charged with the assault of Nels Nelson.

Luff's preliminary hearing takes place before the county judge next Wednesday, and it seems probable that the court room will be packed with Danes and Swedes from Kronberg and Marquette. Luff is a Dane and Nelson is a Swede.

Miss Mary Peterson of Marquette will probably be the principal witness for the state. She is the young woman who was being courted by both Luff and Nelson. She is reported to have told the officials that Luff had made threats against Nelson in her presence.

When Luff was shot in the back of the head a few nights later, the story was advanced that both Nelson and Luff had been the victims of some one of the numerous admirers of the young woman.

Nebraska PRAIRIE FIRE IN LINCOLN COUNTY

Area Twenty Miles Long and Four Miles Wide Burned Over Sunday Evening.

RANCH BUILDING DESTROYED. NORTH PLATTE, Neb., Nov. 8.—(Special Telegram.)—Thousands of dollars worth of hay in stacks and many farm buildings were destroyed in a prairie fire Sunday evening which swept a path four miles wide and twenty-five miles long. The fire started eighteen miles south of this city from lightning at the Griffith and Lattimer ranches near Dickens. At the William Sole ranch 100 tons of hay were consumed. Telephone warnings in advance of the fire prevented loss of life.

The fire traveled at a rapid rate due to the high northwest wind which was blowing at the time. Hundreds of miles around turned out to fight the fire. The fire menace just now is great because of the large amount of dried vegetation in western Nebraska and the long period of dry weather.

No Formal Banquet for Senator Burton. The expression prevails in certain quarters that the republicans will tender a banquet to Senator Burton Wednesday. This is a mistake. In the evening former Senator Joseph H. Millard will give a dinner at his home to Senator and Mrs. Burton, and has invited only Miss Janet Wallace and W. M. The noonday luncheon tendered by the Commercial club to Senator Burton will be largely attended by republicans from various parts of the state.

Union Men on Rose Building Walk Out Over Nonunion Man

Carpenters, bricklayers, lathers, ironworkers, plasterers, and union men in all trades to the number of several dozen went on strike Monday on the job of constructing the Rose Realty building at Sixteenth and Farnam streets, because the man running one of the hoisting engines is a nonunion man. They demand that a union man be employed in this job.

John Hart is the general contractor. Up to late this afternoon no agreement had been reached. Several disputes among the union and nonunion men nearly brought them to blows. Superintendent Olson of the contracting firm said the same young man had been running the hoisting engine for a long time, and that the union men had frequently threatened to strike if a union man were not employed.

The scale demanded by the union for hoisting engineers is 62 cents an hour.

Turk Fights Like Christian Gentleman. (Correspondence of the Associated Press.) LONDON, Nov. 8.—An enthusiastic tribute to the Turk as an honorable fighter comes in a letter from an Australian officer to relatives in London.

"The Australians will hear nothing said against the Turk," he writes. "I want to warn you against the tales of Turkish atrocities in Gallipoli or elsewhere. We know all about the Turk. Haven't we fought against him for months? He may be a colored infidel, but he fights like a Christian gentleman. One of our fellows went out to get a Turk sniper. Something went wrong and the Turk got him. But he put up a good fight against numbers, and the Turks were so pleased with him that they dressed his wounds and gave him a bottle of wine and water and sent him back to us."

The same officer remarks that at first the English Indian troops regarded the Australian troops with contempt and considered it almost undignified to be asked to fight alongside them. "The Gurkhas bucked when they were first put beside us," he says. "They said that we were not trained soldiers and that it was not fair to have to fight with us. Then we got into a charge together, and now they admirably call us the white Gurkhas."

Millions for Defense but not one cent for tribute

Not since the Civil War has Congress been called upon for such vast appropriations as it will be this winter.

It will be a busy winter in WASHINGTON! Big sums accomplish big things.

The BALTIMORE & OHIO spent \$100,000,000 in four years for the betterment of its lines between CHICAGO and WASHINGTON, or \$10,000 an hour for every working day of eight hours.

"I was afflicted with eczema on my toes for two or three years. It began with small watery pimples and caused intense itching. Soon it began to spread around my feet. "I used Salve and without success. Then I began to use Cuticura Soap and Ointment which soon gave relief and in a short time I was completely well." (Signed) Miss Elizabeth Jacobs, 831 E. Clay St., Troy, Ohio, Jan. 5, '15.
