HOS—Receipts were the largest they have been on any one day since the second week of October, about seventy-seven ance. The run for the four days foots up 18,577 head, being 4.00 larger than last week and nearly twice as large as two weeks ago, but more than 7,00 short of last year. So far this week the run is inrager than for any similar period since the second week of October.

Shippers have not been heavy buyers at any time this week and this morning, with all other points reporting declines and packers talking sharply lower, they were able to buy what few hogs they wanted at 19230c lower prices. Most of their purchases were male at 28.4036.50, which later proved to be the packer buik as well, and nothing sold over the latter price.

Most of their purchases were made at 25.4026.50, which later proved to be the packer built as well, and nothing sold over the latter price.

Early packer bids at \$5.5026.30 looked lightly l at a rather late hour.

Summing up, shippers were anyway 1032

As a general thing packer trade was no more than a big nickel off, but the sharp break in shippers took the average cost down about 10c.
