OMAHA CHRISTIANS AT ENDEAVOR MEET

Big Delegation Expected to Take Part in Parade at Norfolk Convention.

PREACH SERMON ON ESPERANTO

NORFOLK, Neb., Nov. 12.—(Special Telegram.)—More than 200 delegates are in Norfolk, attending the twenty-ninth annual convention of the Nebraska Christian Endeavor union. A delegation of 100 members from Omaha was expected to swell the attendance Saturday, in order to participate in a parade of the city. During this parade the delegates will march up the principal streets, and at frequent intervals will stop and facing the business houses, sing hymns. The business session of the meeting took place today, and the new officers will be announced Saturday. A service will be held in the Young Men's Christian association building Sunday, during which prayers and sermons will be conducted in Esperanto, the international language.

Many prominent Christian workers are in the city, including William Shaw, general secretary of the United society of Boston. He was the principal speaker Friday.

Mrs. Elizabeth Higgins Sullivan of Omaha delivered the principal address Thursday evening, during which she paid a tribute to the work being done by the members of the Women's Clubs in Omaha. Rev. Samuel Light of Cozad delivered the featuring address Friday night, taking as his subject, "Making Nebraska Dry in 1916."

The convention will end Sunday night.

Tubercular Patients Get Tubercular Milk

(From a Staff Correspondent.) LINCOLN, Nov. 12.—(Special Telegram.)—Feeding tubercular patients on milk from tubercular cows is the latest thing practiced at the tubercular hospital at Kearney. It has been discovered that nineteen of the twenty-six milk cows at the Kearney Industrial School for Boys are suffering from tuberculosis, and the tubercular hospital at the same town has been receiving its milk and butter supply from these cows.

That the cows were affected was shown when State Veterinarian Anderson made an examination of the animals a short time ago. The Board of Control immediately had the affected animals separated from the rest of the herd and they will be shipped to the Omaha stock yards and be killed. About forty patients in the hospital have been using the milk from the animals.

Chairman Kennedy gives out the information that a cow may be tubercular but still give healthy milk. Still it is not thought that the chairman's statement will make the milk from these animals a popular beverage.

Notes from Loomis. LOOMIS, Neb., Nov. 12.—(Special.)—Fire, supposedly started by lightning, destroyed the separator of the threshing outfit owned by Charles Seaman about midnight Wednesday on the farm of C. F. Christiansen, south of this village. Two wheat stacks belonging to Mr. Christiansen were also burned. The separator was valued at about \$400 and was insured for \$500.

Loomis' third annual farmers' institute, live stock and poultry show will be held on December 2 and 3. With good crops this season and a larger premium list than usual it is expected that this year's exhibit will eclipse any previously held.

LONG RANGE FRENCH GUN POUNDING GERMANS IN CHAMPAGNE—Here is one of the French 120 millimeter long range pieces which has been pounding the German positions in the Champagne district for almost a month.

SECRETARIES ON NEW TACK

Board of Health Officials Said to Have Plan to Shut Off Dr. Wild.

MOVE TO CHOKO OFF HIS SALARY

(From a Staff Correspondent.) LINCOLN, Nov. 12.—(Special.)—It is rumored now that the members of the board of secretaries of the State Board of Health, who have been trying to get Dr. Wild's scalp and have not succeeded so far, will now try other tactics to get the state bacteriologist. They are now threatening to enjoin somebody from paying the doctor his salary.

They will bring suit on the grounds that the doctor has no right to hold the job because he will not mind the secretaries nor fall down and worship at their shrine. They insist that as they recommended him and he will not now knuckle down to them that such acts constitute a removal from office and that the doctor is defunct and incompetent.

Hall Gets the Cash. State Treasurer Hall has received from the government the annual allowance for the support of the old soldiers. The same has been divided between the two homes, \$5,675 going to the Grand Island home and \$2,325 to Milford.

Pool Gets on the List. Secretary of State Pool has signed up the Lincoln base ball club. Just what position he will play is not given out in the signing of the contract. He may go in the box or he may go in the hole or he may go in simply as a pinch hitter. The contract so far only designates that he is a stockholder to the amount of one share worth \$100. Mr. Pool bears the distinction of being the only state house denizen who gets into the game and hits when his count.

Garlow Will Run. G. J. Garlow, an attorney at Columbus, will be a candidate for chief justice of the supreme court at the next primary. Mr. Garlow has been a republican in the past with leanings toward the progressive wing of the party. In order to run for

the supreme judgeship he will have to be a nonpartisan under the law.

On Wednesday, November 11, representatives of all the railroads of the state will meet with the State Railway commission to take up the matter of settling the controversy which has arisen because of the ruling of the Burlington road that shippers of apples cannot retail the same from cars shipped into the towns of the state.

The Burlington had an old rule that fruit, vegetables or other commodities could not be thus handled. It later modified the rule to cover only fruit and vegetables. The jobbers of the state will be invited to participate in the conference, as will also members of the Farmers' union, which is objecting to the rule.

The railroads claim that when a car of apples or other fruit is shipped into a town and the car set out on the side-track that it is a menace to life to have people and teams constantly crossing the tracks of the company to get at the car, and in the interests of safety they inaugurated the rule.

The Farmers' union does not like the rule because they say it prohibits them from shipping in a car of farm implements where a different implement is to go to each farmer. Others claim that the towns have jurisdiction over the matter and if they don't want the apple people to come to their town and retail the apples they can simply pass an ordinance taxing such retailers for the privilege and making the tax so high it will be prohibitive.

WYOMING EXPORTED THE MOST STALLIONS, fifty-eight; Missouri the most horses, 576; Colorado the most mares, 43; Iowa the most mules, fifty-two; Wyoming the most cattle, 5,726, and also the largest number of dairy and breeding cattle, 52; Colorado the most sheep, 154, and Iowa the most swine, 904. The exportations cover thirty-six states, including Canada, but Nebraska is not in the list.

ALLEGED BOOTLEGGER FOUND NOT GUILTY

GRAND ISLAND, Neb., Nov. 12.—(Special.)—In the district court the case of the state against Ishmael Bouquette et al. on the charge of selling liquor without a license was taken from the jury by Judge Paul, the jury being instructed to render a verdict of not guilty. The case grew out of a raid on the Bouquette, otherwise known as the Almo hotel, on the day of the opening of the base ball season here last year. At the time numerous men and women were arrested, and Deputy Sheriff Cordis discovered a

Many Stallions Exported from U. S.

(From a Staff Correspondent.) LINCOLN, Nov. 12.—(Special.)—According to figures compiled by Mr. Steeth of the state veterinarian's office 145 stallions were exported from the United States for the period beginning April 1, 1915, and ending November 1, 1915. On other stock the figures are: Horses, 2,489; mares, 2,714; mules, 291; cattle, 7,238; dairy and breeding cattle, 1,574; sheep, 317; swine, twenty-one.

Wyoming exported the most stallions, fifty-eight; Missouri the most horses, 576; Colorado the most mares, 43; Iowa the most mules, fifty-two; Wyoming the most cattle, 5,726, and also the largest number of dairy and breeding cattle, 52; Colorado the most sheep, 154, and Iowa the most swine, 904. The exportations cover thirty-six states, including Canada, but Nebraska is not in the list.

ORGANIZED 'AG' PLANS MADE

Preliminary Arrangements Made at Lincoln for Big Meetings in Winter.

TO HOLD APPLE AND CORN SHOW

(From a Staff Correspondent.) LINCOLN, Nov. 12.—(Special.)—After an extended session Thursday afternoon, preliminary arrangements were made for the program for the mid-winter meetings of Organized Agriculture. Seventeen representatives of the twenty-two societies were present.

Speakers of national reputation will be present at the meetings during the week of January 16-22, 1916. G. W. Hervey of Omaha, Dean E. A. Burnett, Prof. C. W. Pugsley, R. W. McGinnis, E. A. Purcell, H. J. Gramlich and others made suggestions for attractive features of the program.

Several banquets will be held during the week instead of the one big banquet held last year. It was decided to allot definite time periods to each speaker, and it was voted that the chairman and presiding officers begin their meetings on time and try to adhere to the schedules. On December 25, the secretary was instructed to send copy of the official program to the printer, while the meeting voted that secretaries of the various associations should turn in copy for their programs December 1.

The apple and corn show will be held in the Auditorium, as usual. The dairy-men, the horticulturists, the county fairs and the stock breeders will hold banquets. Something novel and entertaining will be presented under the direction of Prof. Gramlich, but the nature of the oration was not revealed.

A vote of the representatives resulted in the election of the following members of the committee to arrange for the meeting: W. R. Mellor, J. R. Dunson, E. A. Burnett, C. W. Pugsley, W. R. Whitten, R. W. McGinnis and George W. Kline. W. R. Mellor was unanimously elected chairman of the committee, and George W. Kline was chosen secretary.

STATE BOARD FIGURES ON RYE CROP FOR YEAR

(From a Staff Correspondent.) LINCOLN, Nov. 12.—(Special.)—From figures compiled by the State Board of Agriculture, the rye crop of Nebraska for the present year is 210,000 acres, with 4,462,821 bushels, an average of 16.4 bushels per acre. Custer county raised the largest crop, the figures showing 15,786 acres and 800,429 bushels, an average of 16.6 bushels per acre. Holt county stood second with 20,590 acres and 243,000 bushels, at twelve bushels per acre. The highest yield of the state being in Washington county, where the average was 31.5 bushels per acre, that county raising 1,331 bushels on seventy-four acres. McPherson county had the smallest crop, its twenty-five acres yielding 200 bushels, an average of eight bushels to the acre. This county also had the smallest acreage.

MAN IS CHARGED WITH ATTACKING YOUNG WOMAN

KEARNEY, Neb., Nov. 12.—(Special.)—John Ostoff, a stranger, was arrested here yesterday afternoon, charged with assaulting a young woman on Wednesday evening, shortly after dark. The crime was perpetrated early in the evening and officers worked all through the night endeavoring to locate the man, but efforts failed until in the afternoon when he was recognized by a local insurance man as answering the description given by the young woman. Ostoff afterward admitted his guilt and attributed the

crime to his intoxicated condition. A storm was raging at the time of the attack and the screams of the young woman were not heard by the residents but a short distance away.
