Council Urges One Scene Be Removed from Big Picture

Upon request of John Grant Pege, Rev. G. G. Logan and Rev. W. T. Osborne, negro citizens, the city council voted to urge the management of Brandeis theater to eliminate from "The Birth of a Nation" the scene wherein the negro servant, "Gus," pursues Flora Cameron to her death at the bottom of a cliff. The action of the officials became of record in the form of a resolution offered by Commissioner Jardine who explained he witnessed these motion pictures and his views of the scene in question coincided with those of protestants. "I think there might be no objection to the first part of the scene, showing the girl running away from the spring when she sees the negro, but I believe the subsequent chase and death could be eliminated, without detracting from the general excellence of the pictures," stated Commissioner Jardine. Mr. Pege said he visited the theater and observed expressions of aroused feelings during the presentation of this objectionable scene. He added that this particular scene had been eliminated in most cities where "The Birth of a Nation" had been presented. The mayor explained there is no ordinance in force at this time covering a situation of this character. An ordinance is pending.

Democrats Try to Agree on Dr. Hall

In an effort to save some state office for a democrat in the election next fall, leaders of the party are trying to agree on Dr. P. L. Hall of Lincoln as a compromise candidate for governor. "We don't believe Morehead can make it again," one leading democrat said, "and we have about agreed on Dr. Hall as a man that could draw the votes from the various factions of the party." The movement for Dr. Hall comes largely from the anti-Bryan faction, although Dr. Hall is a Bryan man and was a pro-Bryan and pro-Wilson national committee man on Nebraska. Nevertheless so desperate do the democrats consider their chances for success in 1916 that they are ready to agree to any kind of a compromise that would seem to promise a silver of hope to cling to in the whirlpool.

R. R. Kimball Leaves Estate of \$75,000

The will of the late R. R. Kimball, filed for probate in county court, disposed of an estate valued at \$75,000. The entire income is to be paid to the widow until the two children become of age, when Mrs. Kimball will receive one-half and the children the remainder. Thomas R. Kimball, Omaha architect, brother of the dead man, is named executor. The children are Thomas L., aged 18, and John L., aged 11 years.

Henry Payne Whitney Gets Omaha Literature

Henry Payne Whitney, the many times millionaire of New York, passed through Omaha yesterday on his way to the coast. He stopped long enough to get some Omaha literature from the Bureau of Publicity and the railroad offices, and to say that Omaha is a wonderful city.

Bad Habits.

Those who breakfast at 8 o'clock or later, lunch at 12 and have dinner at 4 are almost certain to be troubled with indigestion. They do not allow time for one meal to digest before taking another. Not less than five hours should elapse between meals. If you are troubled with indigestion correct your habits and take Chamberlain's Tablets, and you may reasonably hope for a quick recovery. These tablets strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere.—Advertisement.

CONNELL DEFENDS HIS QUARANTINE

Says Everything Possible is Being Done to Prevent Spread of Contagion.

HAS INSPECTOR TO WATCH

Health Commissioner Connell contends there is no foundation to statements which have been made that information regarding diphtheria and scarlet fever cases in Central Park and Monmouth Park districts have been neglected by his office. He asks for specific information on the subject.

Inspector Jensen, he says, has been detailed to watch the northwest part of the city and arrest any persons breaking quarantine.

Dr. Connell states that during the last two weeks only three cases of scarlet fever have been reported to his office and no cases of positive diphtheria reported during the same period from the districts mentioned.

Dr. Connell Makes Statement.

The health commissioner dictated this public statement: "The charge is unjust and uncalled for and is wholly without fact. It is true there were some cases of scarlet fever in the northwest part of the city and through my endeavors the Board of Education engaged two nurses who form a nucleus for larger activities along this line. These nurses discovered a case of scarlet fever at Central Park school and another at Lothrop school a few weeks ago. It is reasonable to assume that these cases spread more or less contagion."

"As for conditions at Central Park district, I want to state here has not been an instance of a contagious disease or even suspected case reported to this office that has not been attended to within a few hours by myself or assistant. If anybody has evidence to the contrary I want to hear from that person."

Has Man to Make Rounds.

"I presume there are some cases now under quarantine and in some instances the quarantine regulations may not have been obeyed strictly. I have a man who goes the rounds, but I cannot place a policeman at every house under quarantine."

"I have been criticized because I have insisted upon proper observance of quarantine and vaccination regulations, but this is the first time I have been censured for failing to be strict in the enforcement of rules and regulations to prevent spread of contagious diseases."

Judge Rules War Widow Cannot Get Mother's Pension

The petition of Mrs. Louise Saco and her three small children, left destitute since Joe Saco, the husband and father, was called to the colors by Italy, for a pension for their support, was rejected by District Judge Leslie on the ground that they are not citizens of the United States.

The Italian government will be asked by J. M. Ledy, administrator of county charities, to support the family. The county has been providing for the mother and children through the ordinary channels of relief and will continue to do so until other aid is secured.

Mother's pensions will not be awarded in juvenile court for the benefit of soldiers fighting in the European war, according to the precedent established by Judge Leslie's ruling.

Street Cars Bump Each Other on North Twenty-Fourth St.

Two street cars on Twenty-fourth street, near Michigan avenue, scraped as they passed each other, with the result that the sides were torn from the cars and several passengers were slightly injured by broken glass.

The condition of the paving of Twenty-fourth street has been a source of annoyance to the city commissioners as well as the street railway company for some time. The pavement has been ordered relaid and it is probably due to the bad condition of the track that the accident happened.

The conductor of the south-bound car reported that but one person was hurt by the broken glass.

Florence Laborer Dies in City Cell

Thomas Clark, laborer of Florence, was found dead in a cell at the police station early Thursday morning by the turnkey. Clark was arrested Wednesday afternoon on a charge of drunkenness and begging on the streets. During the evening he complained of heart trouble.

POSTPONE WORK ON THE CHALCO CUT-OFF AGAIN

The Chalco cutoff on the Burlington, connecting the Omaha-Lincoln line with the Ashland-Sioux City line, will not be constructed this year. The contract for the grading on the Chalco cutoff was let last spring and work was about to be commenced when the wet weather of early summer set in. Then work was called off until the ground dried up, and now a further postponement has been ordered.

The proposed cutoff is about twelve miles in length. It leaves the Burlington line just west of Chalco in the northern part of Sarpy county and runs northwest through Douglas county, connecting with the Sioux City line at Tutin in Saunders county.

RESOLUTIONS OF REGRET ON DEATH OF JOHN DALE

Resolutions of regret for the death of the late John Dale, passed by the Omaha Church federation, are in part as follows: Resolved, That in the death of John Dale the Omaha Church federation has lost a valuable member, a wise counsellor and a true and faithful worker. That our city has lost a loyal, intelligent citizen, whose devotion to the cause of better government and a "Greater Better Omaha" was admired by all who knew him. That we extend to his family our sincere sympathy. We are comforted with them and all who knew him in the rich heritage of his noble, useful life. "We sorrow not as those who have no hope."

U. S. Commerce Expert Urges Nebraskans to Study Spanish

"Learn more Spanish, study Spanish, get courses of Spanish in your schools," that is the advice given Nebraskans and Omaha, by Stanley H. Rose, special agent of the Bureau of Foreign and Domestic Commerce, who arrived in Omaha today.

"German and French are all right in the schools for educational and cultural purposes; but get at it and learn the commercial languages."

"Here we are with twenty republics south of us in this hemisphere. Eighteen of them speak Spanish. One speaks Portuguese, and the republic of Haiti speaks French. Why should we then not learn Spanish, next to English?"

"For the very reason that we have neglected the study of Spanish we are not at all ready to build up the trade with South America that we should. We haven't nearly men enough to go into South America and speak the language well enough to carry on commerce on any large scale."

Mr. Rose says while South America is a good field that American manufacturers should look to for an outlet for their goods, it is in his opinion not so good for immediate market as New Zealand, Australia and China. "South America will be very good, too, for the future, but I believe the best immediate prospect now is China, Australia and New Zealand," he said. "South America is not so well fixed financially just now as to be able to do as much buying as we should like."

Mr. Rose came to Omaha from Lincoln, where he has just been attending the meeting of the Nebraska Manufacturers' association. He is on a junket now, traveling over a large part of the United States, meeting manufacturers personally and giving them information gathered by the government of interest to their particular line of manufacture. He has just been visiting manufacturers in New York, Pennsylvania, Ohio, West Virginia and other states, and is now on his return trip to Washington, after which he starts immediately for a long trip throughout the southern states.

He is to speak Friday noon to the Omaha Manufacturers' association at a meeting at the Commercial club rooms. He is meeting manufacturers personally and talking over their business with them. He has with him a trunk full of information regarding markets of the world for goods of various lines. He has

STANLEY H. ROSE.

long lists of dealers in the various countries so that a manufacturer may get lists of dealers in his particular line preparatory to circulating them.

Mr. Rose was greatly interested in what little has thus far been done toward establishing river navigation on a section of the Missouri river out of Omaha. He said, too, that Omaha and Nebraska occupy a peculiar position in the matter of commerce, being so far from the seaboard, "but," he said, "they have done wonders in a short time and I see that this is a wonderful state and Omaha a wonderful city with a great future. I can see it no other way."

PROHIBITIONISTS TO CATALOGUE VOTERS

Anti-Saloon League Will Keep Record of Opinion of Every Man Who is Registered.

STRONG EFFORT TO WIN STATE

Every voter in Omaha and Douglas county, and his name, age, nationality, religious preference and attitude toward the liquor question, are to be catalogued by the local office of the Anti-saloon league. A new filing case has been installed by District Superintendent F. A. High. Names and details concerning the voters of Greater Omaha already have been obtained by the office from the election commissioner's office. A separate canvass is to be made in the country precincts.

More than 150 members of young people's societies of seven churches of Omaha have volunteered to fill out the cards for the filing case. They will begin to work evenings within a short time.

Petitions Circulated. The Anti-Saloon league will make a greater effort in next year's state-wide prohibition fight than it has ever made in any of the numerous contests in which it has engaged.

At this time also initiative petitions seeking to bring the state-wide prohibition question to a popular vote in 1916 are being circulated.

Last Sunday these petitions were taken into most of the churches of the city, and hundreds of signatures were obtained. The league must have about 40,000 signatures to place the proposed constitutional amendment upon the ballot for 1916. Mr. High says they expect to get 15,000 signatures in Douglas county. There are about 30,000 voters registered in Greater Omaha.

Austrian Aeroplane Drops Five Bombs Into Belluno, Italy

BELLUNO, Italy, Nov. 17.—(Via Paris, Nov. 18.)—An Austrian aeroplane threw five bombs on the city at 8 o'clock this morning, but only one of them exploded. Three persons were slightly injured. No material damage was done.

The report of the aerial raid on Belluno apparently clears up the Rome dispatch sent out last night by the Stefani News agency, which said an "Austrian aeroplane appeared over the city" at 8 o'clock and dropped five bombs.

The name of the plane bombarded was not given and it was inferred the dispatch might refer to Rome. Belluno is on the Piave, fifty-one miles north of Venice.

Engineer is Run Over by Automobile

Emil Carlson, engineer at a hotel at Thirteenth and Jackson streets, was struck by an automobile at Seventeenth and Davenport streets. The police are searching for the driver, who is said to have sped on after striking Carlson, who suffered various bruises.

The injured man was cared for by the police surgeons.
