## Continued by request—

### "Klostersilk Instruction Week" lengthened to a fortnight

It would have disappointed a large number of our good friends had "Klostersilk Instruction Week" ended as first planned. So that all who desire them may receive the full set of fifteen instructions, the offer is continued for another week. It cannot be held open any longer than that. If you have not already received your set of full instructions for croch-

### How to secure the fifteen instructions without charge

Take this advertisement, hand it to your dealer, or present it at the department where Klostersilk is sold, and receive the set of fifteen different instructions free. If your dealer is not supplied with the instructions, or his supply has been exhausted, then send us this advertisement and his name, with a self-addressed, stamped envelope and 3 cents in stamps, and we will send you the full set by return mail. Take advantage of this special offer today.

## A Miracle of Beauty Can Happen to You

on the teeth is just nature's way of telling you that the microbes are at work boring into your teeth and separating the particles of food for making my formula for removing wrinkles. Write to my secretary, enclosing the price, fifty cents, and I will send you the drug. My formula will disappear, the gums will become rosy red and the teeth firm and strong. Your mouth will be clean and free from microbes.

MISS T. B. A.—If you keep on blotting and steaming your face you will ruin your complexion. You can get rid of blackheads in a few minutes by rubbing them with powdered peroxide sprinkled on a hot, wet sponge. You can get the same result at night. All these conditions will disappear if you use my formula. I have been often complimented on the magic action of this formula.

THRESEA O.—I am very sorry indeed you could not get at the drug store in saying that it was a marvel in making hair grow luxuriantly, and absolutely stopping the falling of hair. It is a mixture of one ounce of beta-quinol, half a pint of alcohol and half a pint of water (or with a full pint of bay rum instead of water) and delicately scented. This costs less than any prepared hair-tonic. The beta-quinol can be secured at the drug store.

LULU M. S.—My formula, given below, according to my own formula, called "Valaska Suratt Face Powder." It is free from the crude chalkiness common to nearly all face powders, is equally smooth, and delicately scented. To say it is a jewel, it is now obtainable at my drug and department store. If you find it difficult to obtain, simply write to my secretary as suggested here to Theresa O., enclosing fifty cents, and stating whether you wish white or flesh tint.

MISS THOMAS.—The most luxurious shampoo I ever used is a teaspoonful of soap dissolved in half a cup of hot water. It is an extraordinary cleanser and its lather is rich and creamy. You can get enough soap at any drug store for five cents. It gives you over twelve shampoos.—Advertisement.

WOMEN SHAVE UNKNOWINGLY

When women are so unwise as to use so-called hair removers, they actually shave unknowingly because such preparations stimulate hair growth after each removal. The proper way to remove hair is to utilize it. It is impossible to accomplish this result with any of the preparations because they only remove hair from the surface of the skin. DeMiracle, the original fluid depilatory, de-vitalizes hair by attacking it under the skin as well as on the skin. Imitations of DeMiracle are as worthless as pastes and rub-on preparations because they lack certain ingredients that DeMiracle alone contains which give it the power to rob hair of its vitality—its life sustaining force. Buy a bottle of the genuine DeMiracle today and you will get the original fluid hair remover. Others are worthless imitations—refuse them. Remember, you are not asked to buy DeMiracle on a mere promise of your money being refunded. DeMiracle is the only depilatory that has a binding guarantee in each package which entitles you to the refund of your money if it fails. DeMiracle is sold in \$1.00 and \$2.00 bottles. The larger size is the most economical for dermatologists and large users to buy. If your dealer will not supply you, order direct from us. The truth about the treatment of superfluous hair mailed in plain sealed envelopes on request. DeMiracle Chemical Co., Dept. D, Park Ave. and 15th St., New York.—Advertisement.

Remember—you haven't read ALL the news unless you have read the advertisements. Because the advertising columns of THE BEE are new and instructive they tell about many things sure to interest you.

# The Busy Bees

IT WOULD be a good idea for the Busy Bees to take an inventory of all the things they have to be grateful for this Thanksgiving day. Some little boys and girls are prone to be dissatisfied and complaining because they can't have everything they would like to have, but let them take a peep at their less fortunate brothers and sisters and they would be more tempted to be satisfied with their own lot, I think.

When your thoughts stray to the bountifully-laden Thanksgiving table that you know mother will have in readiness for you, give a thought to those who will not be dining so royally. Maybe there is some pleasure you can forego in order to pass along some little kindness to that boy in the same room with you at school, who hasn't so much. I assure you you will enjoy your own dinner far more if you do.

On the Busy Bee page this week we have the picture of three of the most faithful Busy Bees, Florence, Frances and John Swift, whose beloved "Uncle Tom" Fitzmorris has been with The Bee for many years.

This week, too, we have a letter from the youngest Busy Bee who has yet written to our page. He is little Edward Rosewater, only 6 1/2 years old. Grace Moore of the Blue side won the prize book this week. Honorable mention was awarded to Leona Walter and Peter Jessen, both of the Blue side.

## Little Stories by Little Folk

(Prize Story.)

### First Thanksgiving Day.

By Grace L. Moore, Aged 12 Years, Silver Creek, Neb., Blue Side.  
Many, many years ago, when the Pilgrims and the Indians lived in this country, the Indians showed the white men how to plant and raise corn. Although the Pilgrims' winter was very cold and damp the summer proved to be very dry, and the Pilgrims and Indians' corn suffered for want of rain. So they set apart a day of prayer and fasting. Even the Indians heeding that the white men were going to pray for rain, watched the sky anxiously. Soon a gentle rain came and then the Indians said that the white men's God had heard their prayers, too.

Then there followed ten days' moisture, and it looked as though there would be a plentiful harvest crop for the Pilgrims. And in November this harvest was safely gathered.

The Pilgrims felt so grateful for this that they set a day to give thanks to God, which they called Thanksgiving Day. After a solemn service they had a great feast, which ninety Indians attended. At this dinner they ate wild turkey, which the colonists shot; pumpkin pie and boiled potatoes, which the colonists raised. And ever after they kept this day and called it "Thanksgiving day."

(Honorable Mention.)

### Dog Stung by Bees.

By Leona Walter, Aged 10 Years, Wahoo, Neb., Blue Side.  
One evening when I came home from school I went into the house. My sister-in-law told me to let our dog out, which I did. But before I go on I will tell you the dog's name. It is Babe. She is a bulldog. My brother bought her when she was a pup. She will sit up for you and will be a dead dog. Now I will continue my story. I let her out and went out myself. I made a house, and when I was finished and had played in it, Babe came up and wanted to go into the house. I let her in, but after she was in I said to myself, "What's the matter with her that she is all swollen up?" Then after while I came into the house. The folks were all laughing. I looked at Babe. She was swollen all over and as big as a pumpkin. We fed her milk and she lived on milk for three days, until she was better.

The bees had stung her, Busy Bees. She is all right now.

(Honorable Mention.)

### Mr. and Mrs. Pigeon.

By Peter Jessen, Aged 10 Years, Cedar Bluffs, Neb., Blue Side.  
As I haven't written to the Busy Bee page I thought I would write about Mr. and Mrs. Pigeon.  
I like birds, and have seen many different kinds of nests. I will write now telling you about Mr. and Mrs. Pigeon. This summer, in the month of June, Mr. and Mrs. Pigeon came to our place to pay us a visit. They made their house in the hay barn. Mrs. Pigeon laid two eggs. I watched them and four weeks later there were two little twin babies.

(Honorable Mention.)

### A Farewell Party.

By Mary E. Grevson, Aged 13 Years, West Point, Neb., Blue Side.  
I am a bobolink. One day while flying to my southern home I stopped in a meadow, where merry-making children were having a party. They noticed me where I was sitting in a tall oak tree and placed a small paper basket, and filled with crumbs, and various things. I flew from my perch, down to it, and enjoyed eating the crumbs. After finishing my meal I started on my journey and left the voices of the happy children still ringing "Good-by, bobolink, we hope

one blue and white and the other one dark blue. They can fly now. I read the Busy Bees page and enjoy it very much.

### A Thanksgiving Story

Margaret Brown, Aged 12 Years, 1129 South Twenty-ninth Street, Omaha, Blue Side.  
In a certain town there lived a poor family. One day the children of the neighborhood were telling what they were going to have for their Thanksgiving dinner. One little girl said, "We are going to have turkey."

"The little girl of this poor family said, 'Oh, won't that be nice. We have never been able to have one.'"

When the rich little girl went home that night she told her father, about it, so when he ordered the turkey, he ordered two instead of one and had one sent over to the poor family. When these rich people sat down to their good dinner they felt happy, to think that they were making this poor family feel happy, too.

They said that was the happiest Thanksgiving they ever had because they knew that they had made some one else glad. I would like to see that continued story in print, written by Edith Kenyon.

### Two Pairs of Twins.

By Edward Rosewater, 3223 Farmington, Aged 6 1/2 Years, Red Side.  
My school, I go to Columbian school. My teacher's name is Miss Searle. I am in the second A. There are two pairs of twins in our room. We play some and we work more, but have a good time always. I like my teacher and try to do what she tells me.

### Jean Francois Millet.

By Martha Jessen, Cedar Bluffs, Neb., Aged 12 Years, Blue Side.  
As I have written once and saw my letter in print, I thought I would try again.  
Jean Francois Millet was born October 4, 1814, near Greville, France. He was one of the greatest French painters and was the second child, the oldest son of the family.  
His father was a poor farmer, living in Normandy. As a boy Millet was very fond of books. His uncle was a minister and taught him how to read the Bible. Mr. Millet remained at home until he

### Stories of Nebraska History

By A. E. SHELDON

(By special permission of the author, The Bee will publish chapters from the History of Nebraska, by A. E. Sheldon, from week to week.)

### The First Railroad

After Lewis and Clark had found a way to the Pacific ocean and the early emigrants to Oregon, California and Utah had made the great overland wagon roads across Nebraska and on to the western coast, the people began to want a railroad to the Pacific. The first railroad in the United States was built in 1825 at Baltimore. Soon after that a few people began to talk about a railroad to the Pacific ocean. It was a far-off dream at first. Nowhere in the world had a railroad ever been built for so great a distance or over such high mountains. Then there were no white people living along the way, but instead there were tribes of wild Indians. So those who spoke of building a railroad to the Pacific were called dreamers. Very few thought it was possible to build such a road and still fewer believed that they would ever live to see it built.

In 1850 Senator Benton of Missouri introduced a bill in congress to build a Pacific railroad. By it the United States was to give a strip of land a mile wide from the Mississippi river to the Pacific ocean and the railroad was to be built in the center of the mile strip. More people began to believe it was possible to build a railroad to the Pacific. They began to dispute where it should be built. Some wanted it built in the south and some in the north and some in the central part of the United States. The dispute was so fierce it seemed that no road would be built because the people would never agree upon its route. War broke out between the south and the north in 1861. There was more need than ever for a railroad to unite the east with the west. Many surveys had been made to find the best route across the mountains. The Nebraska way, up the broad, level valley of the Platte, was chosen as the best approach to them. On the first day of July, 1862, President Abraham Lincoln signed the bill which provided for building the first railroad in the Pacific ocean and the first railroad in

you have enjoyed your party." After rearing my young, I always told them of my "farewell party," going to the south. They never tired themselves listening to it.

### November.

By William Sudman, Aged 8 Years, Sarben, Neb., Blue Side.  
I am an autumn month. My name is November. Thanksgiving day is on the last Thursday of November. That day we have turkey, pumpkin pie, apples and nuts. Pilgrims set this day in the early years to thank God. This is the day that everybody should be thankful. All boys and girls are glad when Thanksgiving comes.

### Enjoys Party.

By Viola Diedericksen, Aged 10 Years, Route 1, Maple, Ia., Blue Side.  
Last Saturday, the sixth of November I went to my schoolmate's party. It was a surprise party on the children. Every one of my other schoolmates was there, too, and some of some other school were there, too. I had lots of fun. I suppose the others all had fun too. There

### New Busy Bee.

By Ella Zepin, Aged 14 Years, West Point, Neb., Blue Side.  
I enjoy reading The Bee every Sunday and wish to join the Blue side, which is my favorite color. This is my first letter to the Busy Bees and I hope to see it in print.

### First Australian Cruiser Launched

SYDNEY, Australia, Nov. 15.—The cruiser Brisbane, the latest unit in the Australian navy, which was launched successfully at the Cockatoo Island naval yard here this month, is the largest vessel of any type yet launched under the Union Jack in the southern hemisphere. The Brisbane is of 5,400 tons and is the first cruiser to be constructed completely by any of the overseas British dominions. At the launching it was christened by Mrs. Fisher, the wife of the prime minister, who is from Queensland. It is after the capital of that state that the cruiser is named.  
It is hoped to place the Brisbane in commission next August. It is to be followed on the stocks by another vessel of the same type to be called the Adelaide, in honor of the capital of South Australia.

### Hand Crocheted Boudoir Cap

By Katherine Krochet

The pretty boudoir cap shown above is one of the newest creations that is getting the attention of women interested in this fascinating pastime. The simplicity of the design, the inexpensiveness of the material and the attractive usefulness it adds to the wardrobe, all contribute to its present popularity.

As the directions include abbreviations that you may not understand, we are giving the meanings so that you will experience no difficulty in working the pattern.

Materials required—Four balls crochet cotton, size 5, and a No. 6 hook.

### ABBREVIATIONS.

b. block. pc. popcorn, c. cluster. F. ring, ch. chain. rp. round, st. cross treble. sp. space, dc. double crochet. sc. single crochet. fs. festoon. sk. skip. st. slip stitch. sl. stitch. t. treble. tr. triple treble. tu. turn.

### DIRECTIONS.

Ch. 3.—1 t. in 4th ch. 23 t., tu.  
2d R.—Ch. 3 ch. 3 at end of each row and count R as 1 t., 29 t.
