If Back Hurts Take Salts to Flush Kidneys

Says Backache is sure sign you have been eating too much meat.

Uric Acid in meat clogs Kidneys and irritates the Bladder.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatism, twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Advertisement.

Then—Along Came a Man in a Hearse

A tragic story from real life—and real death—at Columbus, Neb., was recently told by Editor Edgar Howard in his Columbus Telegram in the following brief but graphic paragraph:

One day this week I heard two men arguing the question of life insurance. One man said it was the duty of every married man to carry a fair amount of insurance for the protection of his helpless wife and children in the event of his own death. The other man said any and all forms of life insurance were contrary to Christian principles. Just then a third party appeared in the argument. His argument was not audible. He spoke no word. He was in a hearse, bound for the cemetery. He was the father of six children. He left an estate of less than nothing, after payment of his honest debts. The only part I shall play in the argument will be to ask a simple question: Did that man who brought those helpless children into the world perform a Christian act when he failed to protect them against the cruel poverty which must afflict them during all their childhood years?

At the moment when the hearse passed by Mr. Howard stood talking to one member of
