

POES OF BRYANS PLEASED BY MOVE

Maher and Crowl Ticked by Refusal of Lincoln Mayor to Sign Petition.

THEY PUT SOMETHING OVER

(From a Staff Correspondent.) LINCOLN, Dec. 5.—(Special.)—There is a great deal of chucking under the breath among opponents of Mayor Charles Bryan over the manner in which he played directly into the hands of the men who brought out the idea of filing the name of President Wilson for a place on the primary ballot for renomination on the democratic ticket for the primary.

His refusal to sign the Wilson petition appears to be just the very thing they desired him to do, and it is said that when Colonel John G. Maher approached the city hall with the petition in his pocket he hoped as he had never hoped before that Prince Charlie would refuse to sign the petition. When he did refuse, there was joy sticking out all over the countenance of the colonel, and he hid himself to the house of his friends, and then and there they, with one accord, sang songs of praise and lifted their voices in psalms of joy.

Colonel Is Ticked. The reason given by the mayor, that he did not want to embarrass the president in his non-partisan program, tickled the colonel immensely. "The man who accepts a nomination on the democratic ticket for the presidency should be a partisan," said Colonel Maher. "We are not in sympathy with Prince Charlie's idea that the man who runs for office on the democratic ticket should be a non-partisan. We want democrats on our ticket. We have had enough of the wishy-washy kind of politicians running for office. I believe that a man running for office on the democratic ticket should be a democrat, without any hypocritical adjunct tacked onto his politics. Just Bryan, man, running for office on any other ticket who thinks it is necessary to his success to run on that ticket, it should be just as necessary to be a full-fledged partisan of that kind without any 'ifs and ands' about it."

Must Do Some Explaining. That the anti-Bryan have pulled off the smoothest thing in the political game which has been put across is recognized by the most astute politicians. The refusal of Mayor Bryan puts him in a position as being outside the democratic camp, but he has not yet explained his position. "The man who runs for office on the democratic ticket should be a democrat, without any hypocritical adjunct tacked onto his politics. Just Bryan, man, running for office on any other ticket who thinks it is necessary to his success to run on that ticket, it should be just as necessary to be a full-fledged partisan of that kind without any 'ifs and ands' about it."

Flee from Burning Home in Night Garb

BEAVER CITY, Neb., Dec. 5.—(Special Telegram.)—The farm house of A. R. Kinman, three miles south of town, was burned with all the furniture at 2 o'clock this morning. Mr. Kinman is a bachelor and living with him was Peter Hetherington. The two men escaped in their night clothes. Mr. Kinman was burned on his hands and face seriously enough for a doctor's attention. Mr. Kinman found a pair of overalls, and, arrayed in them, he walked two and one-half miles to his brother's place and secured clothing for himself and a companion. The cause of the fire is un-own. Insurance was \$200. Hetherington lost \$125 in money besides all his clothing.

Baby Killed When Machine Turns Over

YORK, Neb., Dec. 5.—(Special Telegram.)—A car driven by John Petken, in which were his wife, three children and Henry Hebert, turned turtle in the village of Henderson this afternoon, killing the 5-year-old daughter of Mrs. Petken and seriously injuring the baby boy. Mr. and Mrs. Petken were both badly injured, the former breaking an arm and leg. Mrs. Petken broke an arm and is badly bruised. Henry Hebert also broke a leg. The injured were rushed to the York hospital, where they are being cared for. It is not thought Petken will live.

PLEASANTON MAN HURT BY BOILER EXPLOSION

KEARNEY, Neb., Dec. 5.—(Special.)—John Kline, a farmer residing near Pleasanton, had a narrow escape with his life while shelling corn and was seriously injured. The sheller was operated by steam and the boiler exploded, Kline was thrown some distance in German circles. There seems to be no disposition here to criticize Greece harshly for yielding to a certain extent to the demands of the entente, as these are to the central powers and Bulgaria, since the position of Greece, with her exposed coast line, is realized.

FIRE CAUSES HEAVY LOSS AT MAQUOKETA

MAQUOKETA, Ia., Dec. 5.—Fire in the heart of the business district here today destroyed five establishments, causing a loss estimated at \$100,000. The blaze is believed to have started from a defective electrical wiring. The loss, it is thought, is covered by insurance.

LOBECK HAS CHAIRMANSHIP

WASHINGTON, Dec. 5.—(Special Telegram.)—In the assignment of committee places to the members of the majority the democratic way and means committee took good care of the faithful from Nebraska. Representative Lobeck retains the chairmanship of the committee on expenditures in the Treasury department which gives him an office in the capitol building proper. He retains his place on the committee on the District of Columbia, now threatened with new legislation as to division of taxes, between city and government new fiscal policies, prohibition without referendum and a score of other extremely important measures in which the residents of Washington are vitally interested.

GREECE NOT CRITICISED BY GERMAN AUTHORITIES

BERLIN (Via London), Dec. 5.—Despite the probability, according to indications, that the entente powers have attained favorable concessions in their negotiations with Greece, the situation as regards that country apparently is causing little anxiety in German circles. There seems to be no disposition here to criticize Greece harshly for yielding to a certain extent to the demands of the entente, as these are to the central powers and Bulgaria, since the position of Greece, with her exposed coast line, is realized.

GOSSIP REGARDING NAME FOR GOVERNOR

Nothing to Show that Hall Has Been Convinced that He Must Make Run.

NO GREAT RUSH TO COLORS

(From a Staff Correspondent.) LINCOLN, Dec. 5.—(Special.)—Wanted-Information regarding the much-talked-of petition for names which is supposed to convince Dr. P. L. Hall that he should stand for the nomination for governor on the democratic ticket. It was given out about a month ago that Postmaster Ludw of Wahoo and Dr. Webber of the same town had sketched round Saunders county and had secured 1,000 democratic names to a petition which was going to be presented to Dr. Hall with the idea that he could not refuse to stand for the place in the face of such a showing.

The men were in Lincoln a short time ago, but no tidings have come that they were successful in convincing the doctor that he should stand for something that had all the earmarks of an empty honor in the fact of the growing anti-democratic sentiment all over the country and which was equally prevalent in Nebraska. Never Asked Support. Dr. Hall emphatically stated about three months ago at a banquet given by the democratic press of the state that he had never asked a man for his political support in the past and he never would. Later he just as emphatically stated that he would not make a campaign if nominated. In the face of a foreign soldier the democrats have got to have a man at the head of the ticket who is a good campaigner and who is a good enough singer of hot atmosphere to be able to explain if he can why the democratic national administration has failed to make good on its promises to the people.

Not Yet in Sight. He must have a wide acquaintance and a mighty good stand-in, in fact, so good that he can attract support from outside the party. But the man who can do that has not appeared so far and the fact that the man upon whom they planned their faith as being the Moses to lead the badly demoralized army out of the wilderness did not say he will run, but, on the other hand, has given every evidence that he has no intention of being a candidate in democratic hearts around the state house that it is hard to fill. For positions on the democratic ticket below the governorship it is a foregone conclusion that Treasurer George Hall, Auditor W. H. Smith, Attorney General Willis Reed and Secretary of State Charles Pool will file for renomination.

King Ferdinand Manages to Keep in the Public Eye

(Correspondence of the Associated Press.) BUDAPEST, Hungary, Nov. 10.—King Ferdinand of Bulgaria has been by all odds the most talked-of figure in the public eye of Hungary since the outbreak of the war. He has been the step which arrayed his country on the side of the German allies. Many columns of newspaper space have been devoted to descriptions and anecdotes of the popular monarch, who appeals especially to the Hungarian heart because of his long and close connection with Hungarian affairs. It is remarked particularly that Ferdinand, once the emperor of the Austro-Slavic ruler, has of late years shown more and more democratic tendencies, until now, "without in any way derogating his royal dignity and the majesty of his appearance, he moves about among all classes and ranks in the attitude of a brother rather than that of a king."

Germany Develops Conquered Poland

(Correspondence of the Associated Press.) PETROGRAD, Nov. 25.—The enterprise which Germany has undertaken for the reconquest of Poland is the most important of the few months puts rather, in the shade the efforts that the Russian government put forth at various times in that portion of its domain. Apart from the reconstruction of the network of railways, special attention is being given by the Germans to roads and to agriculture. Lods has been repaved, and the important main roads as far as Warsaw have been restored and multiplied in accordance with plans prepared by German engineers. The paving material is said to be of excellent quality, brought from Germany. The work is practically all done by prisoners of war. In localities which suffered severely from the blight of war the houses are being rebuilt with brick and mortar brought from Germany. Devastated fields have been plowed and sown with clover and rye for early harvesting. Factories whose machinery was dismantled by the Russians or Germans are being organized for war work of various kinds. Everywhere the work of reconstruction is being pushed night and day, with either two or three shifts of workmen to each twenty-four hours. Politically, there are also evidences of German attention, according to the news which reaches Polish refugees along the Russian frontier. For purposes of present administration, Poland has been divided into German and Austrian spheres of influence. Meanwhile various proposals for a more permanent local government are being considered. A national council has been created in Warsaw, composed of all the leading Polish politicians who remain, together with the manager of the Warsaw land bank and the head of the society of journalists. The populace is not allowed to take any part in local government as yet, however.

ONE RETIRED ARMY OFFICER RESTORED TO ACTIVE LIST

WASHINGTON, Dec. 5.—Only one retired army officer out of more than a score who applied has been restored to the active list as the result of recent examinations. Three applications still are pending, and all of the other applicants have been found physically or professionally incapable. The examinations were held throughout the country under a recently enacted law. The successful applicant is Captain Ben H. Dorcy, who was retired in the line of duty in 1907.

Electrically Heated Clothing for Soldiers

(Correspondence of the Associated Press.) VIENNA, Nov. 25.—Austrian soldiers will not suffer from cold weather if the army adopts the new electrically heated garments which have just been invented by the professor of electricity at Innsbruck university. The essential feature of the professor's invention, according to the Austrian newspapers, is a method of weaving electric heating threads into soldiers' pants and coats and then connecting the threads with a battery or supply wire at a distance of from 100 yards to a quarter of a mile. It is asserted that the current can be regulated so that any number of soldiers in the trenches can be kept warm simultaneously.

THREE SUSPECTED OF CAUSING EXPLOSION

Crippled Liner Believed to Have on Board Men Suspected of Damaging Ship.

ARRESTS REPORTED TO BE MADE

SAN FRANCISCO, Dec. 5.—The crippled Hill liner, Minnesota, returning toward the Golden Gate, after having turned back when well at sea on its first voyage to London, has in its brig, three men, who, if information made public here tonight is correct, are suspected of perpetrating an explosion in the engine room of the big freighter and causing its disability. San Francisco representatives of the Great Northern Steamship company were reported tonight to have admitted their receipt of a message from St. Paul, Minn., where the general officers of the Great Northern company are located, telling of the alleged explosion and the arrest of the three men. The message said, it was reported here, that there is aboard the Minnesota a man, now said to be under suspicion, who alleged to have stated before the Minnesota sailed from Seattle that the vessel would never reach its destination. The last report received at the San Francisco Merchants' exchange from the Minnesota came on December 2. At that time the vessel was 700 miles south of San Francisco. Since then a tug and a salvage steamer have been sent to its assistance. Marine men here declared tonight that they base their belief upon the slow progress of the steamer in making this port.

Youthful Cypriot Too Proud to Work If He Is Educated (Correspondence of the Associated Press.) LONDON, Nov. 25.—The youthful Cypriot is a difficult subject to educate, for once he gets a bit of schooling he becomes too proud to work and lets his parents support him, states a report from the British authorities on the island of Cyprus. The youths come from the country in large part. They come in peasant garb, but return in modern European clothes and strongly imbued with the idea that it is beneath their dignity to lay hands to any sort of toil, even to fetching a pitcher of water from the spring. They are even encouraged in this idea by their parents. As the result educated youths refuse to do any work except clerical, and when not employed they spend their days in bed and their nights in cafes. The island of Cyprus, which became a British possession on the outbreak of the war with Turkey, was recently offered to and refused by Greece as the price of joining the allies. In former years it was celebrated for its famous wine, a desert wine of the nature of port, but little known in Europe now. Large supplies of live stock and of foodstuffs have been purchased by the British government from the peasants, although this year's crops have been poor. The olive crop was almost a complete failure and the wheat disappointing. But the high price obtained for cereals and vegetables for the use of the British troops in Egypt and the Dardanelles made amends to the farmers. The British rule here has been popular, not only with the Christian, but with the Mohammedan population, who were glad to escape from Turkish corruption and exactions.
