

FRANCE WILL FIGHT WAR TO THE END

Cabinet Minister Says Lost Provinces Must Be Restored and Prussian Military Killed and Buried.

PRICE BIG, BUT WILL BE PAID

PARIS, Dec. 6.—(1 a. m.)—France will not make peace until Alsace and Lorraine are won, Belgium and Serbia restored and "German imperialism and Prussian militarism are put beyond the possibility of resurrection," Albert Thomas, under secretary of war, said yesterday. The declaration of M. Thomas is attracting widespread attention, as it is one of the first statements from a responsible cabinet official concerning the attitude of the government in regard to peace.

The statements of M. Thomas were made in an address to a large crowd assembled last evening in memory of the dead of the war of 1870. M. Thomas said:

"There will be no peace until our Alsace and Lorraine are definitely re-established as part of the French unity. There will be no peace until our unfortunate brothers of Belgium and Serbia are assured of recovering their homes in complete security and independence.

"There will be no peace until German imperialism and Prussian militarism is put beyond the possibility of resurrection. There will be no peace until a system of right, founded upon the victorious union of the allies, and supported by the free adherence of neutrals, has abolished forever the violence of war.

"Whatever may be the sacrifices, France, united, will go steadily forward to accomplish this end. Today, before the terrible obstacle which confronts them, justice and liberty have only one road—that which our nation in arms opens to them, with the machine gun and cannon."

WILSON EXTENDS HOPE TO WOMAN SUFFRAGE CHIEFS

(Continued from Page One.)

that pushes woman suffrage forward," said Miss Jolliffe. "The enfranchisement of women of the west are seeking to help the women of the east gain the ballot and we earnestly pray for your assistance. I have worked earnestly for you and the democratic party and this is the first thing I asked in return. The poor working women of the nation need the ballot and look to you to assist them. Give the women their freedom."

Four Million Women Interested. Mrs. Field told the president he had changed his mind before and that the suffragettes had watched the development of his mind on the national defense issue. Four million women voters, she declared, desire the passage of the amendment.

In reply the president said he hoped he was a man who kept his mind open and that he expected to continue to learn as long as he lived. He declared he was deeply impressed by the showing made by the women, but that it was impossible for him to take up suffrage in his address to congress, because the address already was in the hands of the newspaper.

He added that he had decided to devote the address to another subject than woman suffrage. He promised, however, to confer with the congress leaders to decide what should be done.

On previous occasions the president had flatly opposed a constitutional amendment for woman suffrage, and his announcement today that he would consider the entire question deeply encouraged them.

After the exchange of speeches the president shook hands with the women.

CLARK RE-ELECTED SPEAKER OF HOUSE

(Continued from Page One.)

has attended me all my days here. By reason of the amazing growth of our beloved country and the bewildering increase of business the time is in sight when the congress will remain practically in perpetual session. I hope this congress will go into history as a working congress.

New Senators Sworn In.

The senate floor and gallery presented the usual scene. James W. Baker, the secretary, called the session to order and the chaplain prayed for divine guidance for the preservation of peace at home and its restoration abroad.

Thirty-two newly-elected senators then were sworn in. Each was escorted by his colleague.

After swearing in the new members the senate recessed until 2:30 o'clock.

Many Bills Introduced in House.

In the house meanwhile bills and resolutions were pouring into the hopper at the clerk's desk. National defensive measures predominated and there were many proposals for various investigations. There were many bills for rural credit, river and harbor improvements, extension of the rural mail service, and a large number of the so-called private bills. Many will never get further than the stage of introduction.

The business of introducing bills did not deter some of the returning old-timers from holding receptions. Former Speaker Cannon, Representatives Hill, Longworth and McKinley and others, as well as the leaders of both parties, were the centers of groups of the latest arrivals.

Resolutions reflecting the views of those opposed to the national defense program and proposing investigations of organizations which favor military preparedness were not lacking. In the lot were resolutions to investigate the Navy league, the National Security league and the American Defense society.

SHANGHAI REBELS QUICKLY PUT DOWN

Band of Insurgents Which Seized Warship Sunday Driven from Vessel by Other Ships.

ATTACK ON ARSENAL REPULSED

SHANGHAI, Dec. 6.—Three outbreaks by small bands of rebels within the last twenty-four hours have been put down by the authorities, who now apparently have the situation well in hand.

The cruiser Chao Ho, seized yesterday afternoon by forty men, who boarded it from a launch, was abandoned by the rebels early today after it had been shelled and set on fire. It was reported at first that the crew of the Chao Ho mutinied, but it developed today that the bombardment by the cruiser of other warships and the arsenal was carried on under compulsion from the rebels, who surprised and overpowered the crew. Three men on the cruiser were killed and five wounded.

An attack from land on the arsenal at midnight was repulsed quickly after some rifle firing.

The third outbreak occurred at 4 o'clock this morning. A party of thirty or forty rebels attacked the Chapel street police station, throwing bombs which killed one policeman and injured three. The outlaws were dispersed by troops.

Although a number of shots from the warships fell in the foreign settlement, no damage of importance was done there. The rebels were unable to make use of the heavier guns, as an officer of the Chao Ho threw overboard the keys to the magazines containing the six-inch and four-inch shells. His action probably saved the arsenal and foreign settlement from serious damage. Numerous shots fell in the foreign concessions, but no serious harm was done.

GREECE REFUSES TO MEET VIWS OF THE ENTENTE

(Continued from Page One.)

he calls the entire absence of necessity or excuse for an appeal to the people for the second time in a few months and the confusion of war.

He declared the Chamber of Deputies overturned the Greek cabinet not for the mere pleasure of exercising its opposition and that it would have accepted the new cabinet with the sole exclusion of the minister, who had insulted the chamber, and said:

"In spite of the affront intentionally inflicted upon the national representation by the promotion of that minister to the highest grade at the royal court, and in spite of his maintenance in the reconstructed ministry, the opposition contented itself with declaring that it would abstain from the session.

"The chamber had in view only the defense of its own dignity and had no intention of interfering with the passage of urgent laws. All these concessions were insufficient to turn the government from its decision to dissolve the chamber and to proceed with the elections while all the men in the kingdom, who could be mobilized, were under arms.

"The ancient regime that was thought to have been abolished by the revolution of 1830, came again to life with the ministry of the months of February. Beaten in the elections this regime concentrates all its forces today in a supreme effort to suppress the liberties of the people, because it cannot live otherwise."

MAN FOUND DEAD AT FOOT OF HIGH BANK

Graders Discover Lifeless Body of Wilhelm Hauelsen at Forty-Third and Dewey Avenue.

WAS SIXTY-THREE YEARS OLD

The body of Wilhelm Hauelsen, aged 63 years, 2315 Deer Park boulevard, was found at the foot of a fifteen-foot embankment at Forty-third and Dewey avenue yesterday morning.

M. Stotts and Frank and Ollie Green of Florence, who work in a grading camp near the location, discovered the body and notified the police.

A blackened eye, bruises on the face, and blood exuding from the nostrils, led the police to believe that Hauelsen had been assaulted, but later examination of the bank has led to the theory that he slipped and fell, striking on his head. Death resulted from concussion of the brain. The left arm was broken near the shoulder.

In the clothing of the dead man was found a silver watch and a little over a dollar in change.

His brother, Gust Hauelsen, 354 South Seventeenth street, says that the dead man had no enemies that he knew of.

Attended Union Meeting. Sunday morning Hauelsen attended a union meeting at Labor Temple, and late Sunday afternoon was present at the German Singing society gathering, Seventeenth and Cass streets, with Fred Krug.

He had lived in Omaha for the last thirty-five years, and for thirty years has been employed by the Krug Brewing company. At the time of his death he was foreman of the brew house.

He is survived by four children. His wife died a year ago. Coroner Crosby has taken the body and will hold a post-mortem examination. The dead man's hat was not found near the body, and it is the supposition that he wandered over the embankment some time during the early evening. His brother asked the police to look for him Sunday night.

Vitality Supply of Grain. NEW YORK, Dec. 6.—Vitality supply of grain in the United States shows the following changes: Wheat increased 1,523,000 bushels. Corn increased 1,371,000 bushels. Oats decreased 1,311,000 bushels. Rye increased 419,000 bushels. Barley in bond decreased 18,000 bushels.

SCALP AND HAIR BADLY AFFECTED

Pimples Broke Out. Itched. Hair Nearly All Came Out and Was Dead and Stiff.

HEALED BY CUTICURA SOAP AND OINTMENT

"After a long illness, during which I suffered a great deal with my head, my scalp would be so sore at times that I could scarcely endure the weight of my hair. It would itch until I would scratch it, and sometimes pimples would break out. My hair nearly all came out and was so dead and stiff that I could not arrange it."

"I used Cuticura as a massage, and shampooed with medicated soap but could find nothing that would give more than temporary relief. I saw Cuticura Soap and Ointment advertised and I got some. I followed directions and was completely healed, and have not been bothered since."

(Signed) Mrs. A. Lacy, Box 72, Park, Ark., Jan. 30, 1915.

BOILERS ON GIANT LINER DAMAGED

Chemicals Put in Water Used on Steamship Minnesota Probable Reason for Ship's Delay.

WILL BE TOWED TO 'FRISCO

SAN FRANCISCO, Cal., Dec. 6.—Chemicals put in the water of the Hill liner Minnesota's boilers may have caused the breakdown of the big freighter, on its way to this port, according to information received by C. W. Wiley, marine superintendent of the Great Northern Steamship company.

All sixteen boilers were put out of commission by leaky tubes at various times since the Minnesota left Seattle November 14 for London with a cargo of 16,000 tons of foodstuffs. Five hundred extra tubes were carried for replacing any of the 6,500 tubes in the boilers, but the supply has been practically exhausted.

"British agents informed the company," Mr. Wiley said, "that a water tender heated to his wife that the vessel would not make the voyage. I sent this information to Captain T. W. Garlick by wireless, but he made no comment on it."

"I know that the breaking of so many tubes and of all the boilers was not natural. Chemicals placed in the water would have caused this, or ashes might have done it. The report concerning the water tender accords with what happened. The Minnesota will set back all right, but it will have to be towed by the steamer Inagua and the tug Dauntless, which ought to meet it today about 65 miles south of here. Every boiler has been repaired, only to give way again, so that the vessel makes slow time."

The Minnesota will return here, Mr. Wiley said, instead of putting into San Diego, because there are no adequate facilities there for the proper repairs of the vessel. The Minnesota is equipped with a new type of French boiler, which has not been entirely satisfactory.

Minnesota Periled by Cedros Island

SAN DIEGO, Cal., Dec. 6.—Unless assistance reaches tonight the Great Northern freighter Minnesota, still drifting helplessly off the lower California coast, the big vessel will be endangered by Cedros Island, according to opinions expressed by shipping men here, following the receipt late today of radio messages from the steamer.

The last radio message received from Captain Thomas Garlick of the Minnesota, gave her position as about 270 miles south of San Diego, and less than fifty miles from Cedros Island. Nothing had been heard here from the radio-equipped steamer Inagua, which, with the tug Dauntless, was expected to reach the disabled freighter today.

Twenty-Five More Will Join Ford's Party in Norway

NEW YORK, Dec. 6.—There are 175 members in the Ford peace party now enroute to Norway on the steamship Oscar II, according to an announcement made today by the line owning the vessel. The names have not yet been received here. The line also announced that reservations have been made on the Frederick VIII, which sails late this week, for twenty-five persons who intend to join the Ford party in Norway.

Noted German Composer Dead. BERLIN, Dec. 6.—(Via London).—Gustave Hollander, composer of music for the violin and piano, is dead. He was 65 years old.

SCALDED!!!

Are your milk bottles steamed and sterilized before being filled???

A bottle during its life may have been in a dozen different dairies and a dozen different homes. With scarlet fever and other contagious diseases raging, they should be scalded.

You should know whether they are merely rinsed in luke warm water by hand, or driven through a boiling bath and live steam by machinery.

Have your milkman show you how he does it. See our large automatic washer and sterilizer at work.

Simple Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and itching of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—Advertisement.

ANCONA ATTACKED BY TWO SUBSEAS

Wounded Passenger Says He Saw Periscope at Right and Boat with Guns on Left of Ship.

CONSUL TALKS WITH INJURED

WASHINGTON, D. C., Dec. 6.—The State department received today a message from Consul Mason at Tunis giving the substance of an affidavit introduced by Giuseppe Torrisio, an Ancona survivor, to the effect that the Ancona was attacked simultaneously by two submarines, one on each side, the one on the port side shelling it.

Consul Mason's messages follow: "Giuseppe Torrisio states he heard a shot while in the dining room, went on deck and saw the periscope of a submarine to the right of the Ancona. He then heard a shot on the other side of the Ancona, crossed the deck and saw a large grey submarine with two cannons on deck; did not notice flag."

"Torrisio was injured and rendered insensible by the lifeboat he was in, falling. I have personally seen four persons who were wounded by the submarine shells. The seriously wounded were left aboard the Ancona."
