Proposed Ordinance Shelved—Five city commissioners in session of committee of the whole recommended placing on file a proposed ordinance to prohibit the sale of groceries and meats on Sunday. Commissioners Kugel and Withnell supported the measure. It is believed this action disposes of a matter which has been before the city council for some weeks.

"Co-Op" Buying Firm for City Man Now as Well as Farmer

The United Buyers is the name of a new co-operative buying concern just incorporated for \$10,000 in Omaha. The offices are at 328 Brandeis Theater building. The principal incorporators are Frank Pinney, Tom Ayers and E. I. Morrow.

This new organization, according to Mr. Pinney, who is at the head of the office, plans to educate the buyer, or consumer, as to the best way and the best place to buy. "We can save the buyers a lot of money," he said, "and all we ask is 25 per cent of what we save him. For instance, if we save him \$50 on the purchase of a sewing machine, he pays us \$12 out of the \$50 we saved him. We act as his agent in a large way. He would have to pay a sewing machine agent 40 per cent, for that is what the sewing machine agent gets when he is on the road. I use the sewing machine in this instance merely as an illustration. We will deal in almost everything in the line of necessities."

City Dads Approve Plan for Boulevard

The city commissioners approved plans submitted by Commissioner Hummel for the establishment of a boulevard from one and one-half miles. The east end of the boulevard traverses a circuitous route to avoid a deep cut and on that account the commissioners anticipate there will be some opposition. A board of appraisers will be appointed and protestants will be given an opportunity to be heard.

CITY PRISONERS WILL WORK ON GRADING JOB

The city commissioners visited the old county jail at Eleventh and Dodge streets, which has been fitted up for use by city prisoners sentenced to work. City Commissioner Jardine, who has had charge of this new feature, states he will begin this week to erect a shack at Sixth and Dorcas streets as a shelter and feeding place for the prisoners who will be started on a grading job for the city.

BRETHREN OPEN FINE NEW CHURCH

Bishop G. B. Royer of Illinois Preaches Dedication Sermon to Congregation.

GOOD CHURCHES ARE NEEDED The new building of the First Church of the Brethren at Twenty-second and Miami streets was dedicated Sunday.

It is a commodious and well-arranged church consisting of basement and main auditorium, the latter having a gallery. The auditorium is handsomely furnished with pews brought from the old First Presbyterian church.

The edifice was built by contributions from various churches of the denomination throughout Nebraska. L. L. Meek of Octavia, Neb., treasurer of the Nebraska Mission board, was present last evening, delivering a short address of congratulation and offering prayer. The members of the building committee were there also. They were J. W. Raap of Omaha, J. S. Gable of Lincoln and C. J. Lichty of Carlton.

Pastor Given Sketch The pastor, Rev. M. R. Weaver, gave a short historical sketch. Six and a half years ago he noticed in a church paper an advertisement stating that a man was needed to take up the mission of the church in Nebraska. Though he had other plans he eventually answered the call. When he arrived in Omaha there were three members. Since then fifteen have been added by letter and seventy-seven by baptism, while eight others are soon to be baptized, making a membership of 100.

The dedication sermon was by Bishop G. B. Royer of Illinois, general secretary of the Brethren International Board of Foreign Missions. His topic was the verse, "I was glad when they said unto me, 'Let us go into the house of the Lord.'"

Need Good Church. He declared it is little less than a crime to have a poor church building or one humbler in its appointments than the homes of the members. This, too, in spite of the fact that the Brethren are a denomination far more opposed to the vanities of the world than the average, and any "fettles" of dress are rigorously opposed by them and avoided by the devout. In the east some of the congregations use the big barns on the farms as meeting places.

Bishop Royer declared that a useless waste of money such as is apparent in the great cathedrals of Europe is no less reprehensible than stinkiness in building God's house.

There was special music by the choir and by quartets and solos by Miss Violet Johnson and Miss Merriam.

Beginning this evening, evangelistic services will be conducted in the new edifice every evening for two weeks by Bishop Virgil C. Finnell of Des Moines.

Kugel Will Judge Complaints Filed Against Policemen

Hereafter Superintendent Kugel of the police department will first pass upon charges filed against policemen before presenting them before the city council.

The purpose is to protect members of the department from publicity in cases where their actions were justified, and also to prevent waste of time in hearing charges based on flimsy grounds.

Mr. Kugel advised the commissioners of a charge just filed against a policeman who went with a warrant to arrest a citizen who resisted by threatening to use a horse whip, whereupon the officer struck the prisoner.

The commissioners agreed to sustain Mr. Kugel in the plan of bringing before the commissioners only such charges as warrant hearings.

Tell Judge They Were Celebrating Holiday

Joe Carmelo, 314 North Fourteenth street, charged with keeping a disorderly house was arrested with eight inmates and brought before Judge Foster. The men pleaded guilty to having something to drink, but asserted they were celebrating a holiday in honor of Santa Lucia. "I thought you were going to say Santa Claus," informed the judge who was poised to fine them for rushing the season. All were discharged.

A number of members of this chapter also belong to the Benson Woman's club and through their influence arrangements were made to give the play in Benson. It has previously been given at the North Presbyterian church and the Kountze Memorial church.

Alice in Wonderland Saw No Such Sights as Are Prepared for the Omaha Kiddies

Store Windows Hold Wonders for the Little Folks and Joys for the Older People as Well.

SANTA CLAUS ON EXHIBIT Here is Archie in Wonderland with sister for a guide.

All down town is Wonderland for little boys and girls these days.

Oh, such a lot of good things and presiding over all is Santa Claus, keeping an eye on deserving little boys and girls who are good and do what mamas and papas tell them.

In front of the windows and in the toy departments of the stores little Archies and Alicies are everywhere. Such a lot of things Santa Claus has displayed this year that it's hard to tell which to choose.

Here are spritlike rocking horses and all kinds of animals, teddy bears and lions lying down peacefully beside woolly sheep and kitties.

Here are all kinds of things that wind up and run, taxicabs, man and woman waiting, a dog that turns back-summersaults and the laugh-provoking clown that drives the balky mule.

Here are peacefully busy scenes in elaborate railroad yards, with water tanks, semaphores, depots, sidetracks, tunnels and bridges, and here are war equipments of machine guns, cannon and unflinching tin soldiers.

Here are doll houses and doll beds and all kinds of dollies and washing machines and sets of dishes.

Oh, Alice's wonderland was never like this. And will little Johnnie be a good boy from now 'till Christmas? Will a duck swim? Will a squirrel eat nuts?

NO ACTION TAKEN ON ALARM SYSTEM

After Hearing Another Discussion Commissioners Refer Matter Back to Withnell.

UNDERWRITERS GIVE ADVICE FORMER OMAHA BOY DIES OF NERVOUS BREAKDOWN

Frank P. Mahoney, formerly connected with the Union Pacific in Omaha, died at Chicago, following a long illness from a nervous breakdown. He was a nephew of Frank and John J. Mahoney of this city and was about 27 years of age. His father is T. P. Mahoney of Chicago, formerly master of transportation for the government. Young Mahoney was born and reared in Omaha and had many friends here. After being in the local offices of the Union Pacific he became a traveling freight agent with headquarters at St. Louis. Burial will probably be in Chicago.

The matter has been referred back to Mr. Withnell's department, and it is expected a detailed report will be forthcoming within a few weeks.

New Station Needed. J. H. Howland of New York, engineer of the National Board of Fire Underwriters, told the commissioners that it would be a waste of money to attempt to enlarge the present fire alarm telegraph system; that a new central station is needed to give efficiency to the alarm system.

A. G. Beeson of the local underwriters said: "Our city has outgrown its fire-fighting facilities." Mr. Beeson explained that a new alarm system and at least partial motorization of the department would result in a general reduction of about 10 per cent in insurance rates.

Comd Divide Fund. Commissioner Withnell's department will have \$65,000 a year for five years to spend on an alarm system and motor apparatus. The suggestion was made that he could spend \$40,000 next year for motor equipment and \$25,000 to start the alarm system. It is estimated that the alarm system would cost \$40,000 for the "high value business district."

Another National Conference Looks Over Omaha Field

Omaha is being looked upon quite favorably by a lot of big educators all over the United States as a good place for holding the next National Conference on the Training of Rural Teachers. At the last meeting, held at Nashville, the matter of choosing the next meeting place was practically centered in P. F. Claxton, federal commissioner of education. Mr. Claxton is known to learn somewhat toward Omaha as the next meeting place, but is receiving suggestions from other big educators all over the country. Manager E. V. Parish of the bureau of publicity of Omaha, who has the handling of conventions in Omaha under his department, says that Omaha has a lot of good friends among those who are writing to Commissioner Claxton on this matter, and that this city is bound to set consideration before the choice of the next meeting place is made.

Insurance rates for the small business man and W. R. McFarland, speaking for the manufacturers, urged motorization before installing a new alarm system.

A letter was read from the Commercial club containing a resolution against the proposed alarm system.

During the discussion it was stated that the water supply had been improved, but additional protection should be provided for one of the local breweries.

To Have Smooth, White, Soft Skin All Winter

Does your skin chafe or roughen easily in this weather, or become unattractively red or blotchy? Let me tell you a quick, easy way to overcome the trouble and keep your complexion beautifully white, smooth and soft the winter long. Just get an ounce of ordinary marcolated wax at the nearest drugstore and use a little before retiring, as you would cold cream. Upon arising, remove the coating with soapy water. The wax, through some peculiar attribute, flecks off the rough, discolored or blemished skin. The worn-out cuticle comes off just like dandruff, only in almost invisible particles. Mercolated wax simply hastens Nature's work. Used as required, it keeps the face constantly free from defaced, scurf skin and only the healthy, young-looking skin is in evidence. It's the best treatment known for weather-beaten, aged, muddy, freckled, pimply and all unbecoming complexions.

Some skin wrinkles easily in winter. There's an excellent remedy in a harmless wash lotion made by dissolving 1 oz. powdered asacolin in 1/2 pint witch hazel. This will quickly eradicate every line.—The Woman Beautiful.—Advertisement.
