

WHY HAIR FALLS OUT

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 2-cent bottle of Dandruff at any drug store, pour a little in your hand and rub well into the scalp. After a few applications all dandruff disappears and the hair stops coming out.—Advertisement.

Meals Will Fit!
No Indigestion,
Gas or Acidity

Eat without fear of sourness, heartburn, belching or dyspepsia.

The moment "Pape's Diapiesin" reaches the stomach all distress goes.

If your meals don't fit comfortably, or you feel bloated after eating and you believe it is the food which fills you; if what little you eat lays like a lump of lead on your stomach; if there is difficulty in breathing after eating, eruptions of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas which sours your entire meal—interferes with digestion and causes so many sufferers of dyspepsia, sick headache, biliousness, constipation, griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapiesin will cost fifty cents at any pharmacy here, and will convince any stomach sufferer five minutes after taking a single dose that fermentation and sour stomach is causing the misery of indigestion.

No matter if you call your trouble colic, or the stomach, nervousness, gastritis, or by any other name—always remember that instant relief is waiting at any drug store the moment you decide to begin its use.

Pape's Diapiesin will regulate any out of order stomach within five minutes, and digest promptly, without any fuss or discomfort of any kind of food you eat.—Advertisement.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids.

It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dizziness" and listless feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "perk up" the spirits, and how they "perk up" the spirits. At 50c and 50c per box. All druggists.

NINE GROUPS IN
O'CONNOR FIGHT

Heirship Rights Are Being Tested in Action Brought at Hastings.

JUDGE CORCORAN HEARS CASE

HASTINGS, Neb., Jan. 3.—(Special Telegram.)—Nine groups of professed heirs are contesting the state's claim in a legal battle which opened in the district court this morning on the application of the state to have title in the John O'Connor estate quieted in the name of the commonwealth on the ground that there are no heirs.

The case involving the will offered by John T. Culavin of Omaha, has been appealed to the supreme court, but Culavin may make a showing in the heirship trial as a nephew. There are nearly a hundred visiting lawyers and claimants here, whose expense this far has been estimated at about \$20,000. The estate is valued at about \$100,000. The taking of evidence was begun today on the claim of Honora O'Connor of Leeper, Mich., and her four sons.

It is related that John O'Connor disappeared from Albany, N. Y., about forty-five years ago. He was clerk of a school district board and at the time he left was short in his accounts. Evidence will be submitted to show that O'Connor came to Hastings, changed his name to O'Connor and made this city his home.

Objections to the jurisdiction of the court were raised this afternoon, but Judge Corcoran of York, who is presiding for Judge Dungan of this district, said he would not pass on the question until after the evidence is in. The trial is expected to last well into next week.

Motorcycle Comfort in Winter

A new top for a motorcycle and sidecar, the invention of Victor H. Roon, 2308 Leavenworth street, is attracting considerable attention locally.

The motorcycle and sidecar are enclosed on all sides and bottom. The top is a regular one-man fold-up, same as an auto top. Over the driver the top is collapsible and is put in a bag under the sidecar when not in use. It can be taken down in a few minutes and no tools are required. Jiffy curtains are used on both sides.

On account of the motor being enclosed the heat is held inside the "limousine" and it is warm and comfortable even in the coldest weather. In the summer the motor will be on the outside of the enclosure and ventilated to keep it from being too hot.

NEBRASKAN INTRODUCES
ALFALFA IN MINNESOTA

TECUMSEH, Neb., Jan. 3.—(Special.)—Prof. W. L. French, now an instructor in agriculture in the public schools of Austin, Minn., is visiting relatives here. He recently lived in this country. Five years ago, when Prof. French assumed his work in the Austin schools, there was no alfalfa raised in that section. It was unknown grass to the farmers there. The agricultural classes of the Austin school do much demonstration work and Prof. French had the pupils work with alfalfa from the beginning. The results were almost surprising, the grass thriving nicely. As a consequence the farmers near Austin became interested, and Prof. French and his classes went among the agriculturists and told them how to raise and harvest the grass. At the end of five years there are thirty-five farmers reporting good crops of alfalfa, and there will be many more to raise it another year.

House Burned at North Bend.

NORTH BEND, Neb., Jan. 3.—(Special.)—The house occupied by Henry Kellerman, manager of the Farmers' Co-Operative union, was practically destroyed by fire Sunday morning about 11 o'clock. The fire seemed to have started in a closet on the first floor and burned between the walls in such a manner that the hose company could not reach it. The loss on the building was covered by insurance. Mr. Kellerman carried \$1,000 insurance on the contents.

A Child Doesn't

If Constipated

Look, Mother! Is tongue coated, breath feverish and stomach sour?

"California Syrup of Figs" can't harm tender stomach, liver, bowels.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "Fruit Laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."—Advertisement.
