

BRIEF CITY NEWS

Townsend's for Sporting Goods. Fighting Pictures—Burgess-Graden. Have Root Print It—New Beacon Press. Revival at People's Church—Dr. Frank W. Cox of Titusville, Pa., is holding revival services every night this week at the People's church. Today's Movie Program classified section today. It appears in The Bee EXCLUSIVELY. Find out what the various moving picture theaters offer. Grocer is a Bankrupt—Abe Blumenthal, dealer in groceries and meats, filed a voluntary petition in bankruptcy, giving liabilities as \$2,625 and assets as \$1,787. Laborer Files Bankruptcy Petition—Victor E. Muller, a laborer, filed a voluntary petition in bankruptcy. He says his liabilities are \$312 and his assets, \$400. He asks exemption on the latter, as they are household goods. Two Autos Taken—Dan Sunberg, 265 South Seventh street, reports to the police that his auto was stolen from Twentieth and Dodge streets. H. Dreesen, 507 South Twentieth street, asserts that his car was stolen from in front of his home. Wakeley Goes to Chicago—General Passenger Agent Wakeley goes to Chicago Thursday, where Friday and Saturday, together with the other general passenger agents of the Burlington, will be discussed and outline the plans for carrying on the passenger end of the road's business during 1916. The meeting is the annual family gathering of the passenger officials.

Sells Wood Alcohol in Dry State Without Labeling It Poison

SEATTLE, Wash., Jan. 11.—T. Takano, proprietor of a Japanese drug store and hotel in the lodging house district, was arrested late today on a charge of selling wood alcohol without labeling the bottles "poison." Detectives who investigated the deaths of ten men and one woman from alcoholism since prohibition became effective January 1, asserted that at least three of the persons who died from drinking wood alcohol had purchased it from Takano. Prosecuting Attorney Lundin stated he would charge Takano with manslaughter.

Carlson Puts Two Bandits to Flight by Wallops on Jaw

When O. S. Carlson, 433 Marcy Street, was held up by two men near his home Monday evening, he was given the usual order "to put up his dukes." Carlson evidently mistook the command, as he put them up rapidly, with successive wallops to the jaw of each bandit. The would-be bad men fled.

War Gives Print Paper Yellow Hue

The color of the paper on which the daily newspapers are printed is now beginning to reflect a result of the war. For the last few days, the print paper has appeared somewhat yellowish than usual. This is due to the fact that all such paper is treated at the mill with a German bleach, which makes it pure white, instead of the tan or yellowish tint of the paper pulp in its natural form. Now the mills are beginning to run out of the bleach, the supply from Germany having been cut off by the war and the stores of it in this country being practically exhausted. The "pink sheets" also look a little paler than before. This is also due to the war, the imported pink dye being no longer available, and the American brand of pink dye being considerably paler than the foreign variety.

Ernst Elected Head of Forest Reserve

C. J. Ernst was yesterday afternoon elected president of the Fontenelle Forest association, which is the organization that hopes eventually to raise money for the purchase of forest land in Douglas or Sarpy county for the purpose of making a forest reserve. C. M. Wilhelm was made vice president. Roy Towle was elected secretary, and C. W. McGrew treasurer. Dr. Boloh R. Towne, Thomas R. Kimball and Fred J. Adams were made the remaining members of the executive council. No definite action was taken at the meeting besides the election of officers, although President Ernst says the association hopes this year to get the program definitely under way. No funds are as yet raised for the movement.

Council Passes the Jardine Ordinance

The city council passed the Jardine ordinance, which holds saloon proprietors responsible for the sale of liquors to persons of whom they have been notified not to sell intoxicants. The ordinance reads that notices shall be served by "wife, husband, relative, guardian or business partner." The filing of a notice by a "friend" will not be considered sufficient within the operation of the measure.

Warships Converse Across Continent

WASHINGTON, Jan. 11.—Flagships of the Atlantic and the Pacific fleets were in radio communication today across about 2,500 miles of intervening land. The battleship Wyoming, near Cape Henry, reported to the Navy department that messages exchanged with the San Diego at Guaymas, Mexico, were strong and easily read.

LANSING TELLS ITALY TO DISARM ITS LINER

WASHINGTON, Jan. 10.—The desire of the United States government that the two three-inch guns mounted on the Italian liner Giuseppe Verdi now at New York be removed and the vessel depart unarmed upon its return voyage was stated formally today to the Italian ambassador, Count Macchi Di Celso, by Secretary Lansing. The secretary's views will be transmitted to the Italian government, and, it is said, until a reply is received the liner will be detained in port.

WELSH PULLS UP THE BLACK FLAG

Warning is Sent Out that Mercury is to Fall 20 Degrees, with Wind and Snow.

SHIPMENTS ARE HELD UP

Zero weather is right upon us. The weather man says so. He hoisted the cold wave flag yesterday to warn all. Along with the black flag went this new forecast: Much colder with snow and strong wind tonight and Wednesday with the thermometer 20 degrees lower within the next twenty-four hours. The snow, the beautiful snow, is all that saved us from about zero this morning. When the well-known white flakes began falling the temperature began rising and stood at 9 degrees above zero at 7 a. m. Up in Prince Albert and Medicine Hat, western Canada, they weren't quite so fortunate and the men all had use for their ear tabs and bear skin overcoats; for the thermometer registered 44 degrees below zero. Nearer home it was pretty cold, too, temperatures of 20 to 30 below zero being common in Montana and North Dakota. At Valentine, Neb., it was 4 degrees below zero.

Snow All Around.

And snow! There's snow all around. Every station in the Missouri Valley reported snow falling. But while it is so cold up in Prince Albert and Medicine Hat, it is quite warm down at Shreveport, La., and Corpus Christi, Tex., at both of which places the ice man probably finds some demand for his product, for the temperature is 70 degree above zero this morning. This is a difference of 114 degrees marked practically by the breadth of our dear republic. Held Back Shipments. On account of the snow and the possibility of blizzard conditions, hurry orders went out not to start out live stock trains, especially from points where there is good shelter and feed for the animals. Shipment of fruits, vegetables and other perishable commodities were held up for better weather, especially if consigned to the cold area and if going long distances. Over the state, light snow commenced to fall late last night and continued in most places this morning, having reached a depth of from two to four inches. Along the Missouri river the railroads reported the snowfall lighter than out in the central and western portions of the state and the temperatures from 8 to 20 degrees above zero.

Contractors Begin to Arrive for the State Convention

A few building contractors from various parts of the state gathered early this morning for the convention of the Nebraska Master Builders' association, which is to open this afternoon at Hotel Rome.

A business session is to be held during the afternoon and a theater party is to be enjoyed at the Orpheum in the evening. The speakers for today are John Steinhart of Nebraska City and Frank Whipperman of Omaha. The speakers for Wednesday are C. E. Duell of Sioux City, Harry Lawrie of Omaha and Stanley Rosewater, attorney of Omaha, who is to talk on some legal phases of contract work.

A banquet is planned for Wednesday evening, when some lively cabaret is promised.

All Land in Powell Unit is Taken Up

Word reaches the Burlington immigration department that practically the last of the 20,000 acres of land available in the Powell unit of the Shoshone irrigation project in Wyoming has been taken and that the greater part of it will be under cultivation next season, the water being ready to be turned over the entire area. The Franjie unit, 12,000 acres of the same project, will be ready for settlers early in 1917 and at \$55 per acre, \$2.00 per acre to be paid the first year after filing and the balance in nineteen annual payments, without interest, no payment, however, to be made until four years after the initial payment made at the time of filing. In the Franjie unit there will be 150 farms of eighty acres each, and when the land is ready for filing, it will be disposed of by some plan of drawing and to only actual settlers.

STREET CAR COMPANY HAS RE-ELECTED OLD OFFICERS

Stockholders of the Omaha and Council Bluffs Street Railway company have re-elected all the old directors, and they in turn have re-elected officers as follows: Directors—G. W. Wattle, F. T. Hamilton, C. W. Hamilton, W. A. Smith, Frank H. Johnson, C. R. Tyler, Barton Millard, J. A. Munroe and L. F. Crofoot. President—G. W. Wattle; vice president, F. T. Hamilton; secretary and general manager, W. A. Smith; assistant general manager, H. A. Lousler; auditor, W. G. Nicholson. At a meeting of directors to be held within the next few weeks the plan of operations and extensions, betterments and improvements will be discussed and agreed upon.

GURLEY RETURNS FROM CAPITAL MINUS MUSTACHE

Mr. and Mrs. William F. Gurley are back from Washington, where they spent the holidays and were detained by the illness of Mrs. Gurley's mother, 87 years old, who, however, had almost fully recovered when they left. Incidentally Mr. Gurley failed to bring home with him the handsome mustache which used to ornament his beaming countenance.

Do You Have Sour Stomach? If you are troubled with sour stomach you should eat slowly and masticate your food thoroughly, then take one of Chamberlain's Tablets immediately after supper. Obtainable everywhere.—Advertisement.

PRESIDENT BUILDING OWNERS AND MANAGERS ASSOCIATION.

Edwin S. Jewell

Edwin S. Jewell was elected president of the Omaha Building Owners' and Managers' association at the annual meeting held at the Loyal hotel. Mr. Jewell is building manager of the City National bank building.

A. A. Allwine, assistant secretary of the Omaha Loan and Building association, was made vice president, and Hugh Wallace, manager of the First National bank building treasurer, and E. O. Hamilton, Ernest Sweet and R. O. Babcock directors.

ICE CREAM MAKERS MOVE INTO OMAHA

Joint Convention of Nebraska and Iowa Association Opens Nebraska Sessions at Rome.

The joint convention of the Nebraska and Iowa Associations of Ice Cream Manufacturers opened its Nebraska sessions at the Rome hotel yesterday afternoon.

The biggest hall in the hotel was filled with delegates and with wonderful machinery which is used nowadays to supply the people with their great summer delicacy. The art of making ice cream has developed to such an extent that now all kinds, plain and brick, are made by machinery which is automatic and turns out the product at astonishing speed.

First sessions of the joint convention were held in the Grand hotel, Council Bluffs, where they opened Monday morning. The convention closes Wednesday evening. Thus, by the transfer to Nebraska soil today, each state gets a day and a half of the three-day session.

The question-box discussion will be held this morning, led by B. B. Rosell of Peoria.

The business meetings of the two organizations, with their respective elections, will be held Wednesday afternoon.

Old Ice Sharps to Attempt Come-Back

The public recreation department is clearing the snow from the ice at skating place.

C. B. McDonald, A. C. Taylor, J. P. Butler, D. B. Butler, Dick Grotte, George Clarke, Harry Primeau, C. F. Roate and Alvin Patten of the city hall are forming a skating club. These old timers declare they can "come back," but some of their friends are inclined to be of a Missouriian turn of mind on this point.

TELLS JUDGE FORD AND BRYAN HYPNOTIZED HIM

Victor Mullenborn of Knuts, Minn., was brought before Judge Foster to whom he had declared he had been hypnotized and kept in an unconscious condition for some time by Henry Ford and W. J. Bryan. Judge Foster ordered that he be held for the insanity commission.

CITY TO TRY TO COLLECT THE TAXES FOR SUBWAYS

The city council directed the legal department to proceed against various parties who have been delinquent in payment of subway taxes. Commissioner Jardine reports about \$2,000 due, covering a period of several years.

Resinol Soap

Resinol Soap makes clear skins and good hair. The regular use of Resinol Soap for the toilet, bath and shampoo, can usually be relied on to keep the complexion clear, the hands white and soft, and the hair healthy, glossy and free from dandruff. If the skin or scalp is already in bad condition, a short treatment with Resinol Ointment may first be necessary to restore its normal health. Resinol Soap and Ointment are sold by all druggists. For samples free, write to Dept. 12-P, Resinol, Baltimore, Md. Men with tender faces find that Resinol Shaving Stick prevents irritation.

ICE MEN SHARPEN UP THEIR TOOLS

Cudahy Starts Harvest at Seymour Lake—Burlington is Cutting at Curtis.

ICE IS NOW THICKENING FAST

In the event the cold weather now here continues any length of time, the ice harvest will be on to some extent within the next two or three days. Already the Cudahy Packing company has started work on the lake at Seymour park. There the field was marked off and during the afternoon something like 300 men were started to work cutting ice that is close to twelve inches in thickness. The Armour people are about ready to commence cutting at Memphis and will probably have a force of 200 to 300 on the ice Wednesday, the field having been marked off already. It will be probably the last of the week before the Swift people will start cutting on Carter lake. There the ice seems to be but about eight inches thick, but is now freezing down at more than two inches every twenty-four hours while the temperature is at the present stage. Nothing will be done until the ice has reached a thickness of about twelve inches.

To Cut on Reservoirs.

The Omaha Ice and Cold Storage people, who cut ice on the reservoirs, packing largely for domestic consumption, are looking over their ice tools and getting them in shape. However, nothing will be done in the way of cutting until the ice has attained a thickness of twelve inches. At this time it is about eight inches thick.

The Rock Island people will start the annual ice harvest at Meados, below the South Side, about Friday or Saturday in the event the weather continues cold. There the ice is said to be close to ten inches in thickness.

The Burlington is cutting ice at Curtis, employing a full force of men, mostly gathered from the town and the surrounding country. The ice has reached a thickness of nearly twelve inches.

The Pacific Fruit express has a large force of men on the ice at Gothenburg and North Platte, where twelve-inch ice is being cut for packing in the houses along the Nebraska division of the road. With two or three days more of cold weather the Northwesters will commence its annual ice harvest at Valentine and Long Pine. From these two points it will gather the ice for use on its Nebraska and western Iowa lines. Up there the ice is now ten inches thick and hourly is growing in thickness by reason of temperatures below zero.

Beautiful Hair, Thick, Wavy, Free From Dandruff

Draw a moist cloth through hair and double its beauty at once.

Save your hair! Dandruff disappears and hair stops coming out.

Immediate?—Yes! Certain!—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after an application of Danderine. Also try this—moisten a cloth with little Danderine and carefully draw it through your hair, taking one little strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggly, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yet—really new hair growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful. You can surely have pretty, charming, lustrous hair, and lots of it if you will just get a 2-cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.—Advertisement.

Be Careful in Using Soap on Your Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain mulfated coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will treat the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Advertisement.

Thousands of Fine SUITS and OVERCOATS at Half Price Berg Clothing Co.

Scarlet Fever in Omaha Improving

According to the reports received by the superintendent of public schools the scarlet fever situation continues to improve. Only four cases have been found this week, which is regarded as encouraging. Each week since the recent outbreak shows a decrease. During the last twenty-four hours one case was reported. The Board of Education is continuing

THIS THIEF EVEN TAKES WRIST WATCH IN RAID

A sneak thief gained entrance to 1215 Farnam street, Monday, and stole two watches belonging to Charles Van Stickle, an overcoat, the property of Leo Lang, and a wrist watch belonging to Mrs. May Whitesh.
