#### Society Ladies Adopt New Hair Curling Method

Since the introduction of liquid silmerine in this country, it has become quite the proper thing among society women, who have readily adopted it in piace of the destructive curling iron. The wayes and curls acquired by the new method are far more natural in appearance, and the hair is of course glossier and prettier than could be if the life were cooked out of it. The liquid is pleasent to use, being neither greasy nor atteky, it is a simple thing to apply with a clean tooth brush at night when the hair is down. The lovely wavy effect in evidence in the morning is all that one could wish for. It coasts little to use liquid silmerine, as a few ownces from the druggist will keep the hair in our for weeks.—Advertisement.
