LES DARCY A WAR SLAVE Australian Fighter Held at Home by the Authorities Until After

the War is Over. FROMOTERS FIX THE MATTER

By BINGSIDE.

NEW YORK, Jan. 12.-There is no gainsaying that Les Darcy-Lester D'Arcey he was christened-is one of the greatest fighters of the present generation this must be supplemented the fact that the Australian is not coming to America to fight-or for any other purpose, for that matter. The Antipedean authorities simply will not permit their idol to haul in American dollars while there is a war going on.

feveral months ago report was current that Les Darcy was contemplating a trip to the states. He was coming for the avowed purpose of cleaning out our middleweight class. At the time this column stated positively that Darcy would not come to America for at least another year. Later developments have substantiated this statement.

Promoters Hold Him Back.

It is stated that the Australian government is seriously considering sending Darcy to the first line of battle-into the es. This may be so, but we are oute certain that should this come to pass it would be at the Instigation of others besides government officials.

Frafessional jealousy is keeping Darcy in Australia against his wishes. The lad-he is but 39-is keen for a tour of the states, and he looked upon such a sojourn as the realization of his boyhood dreams. But greedy, avaricious promotors are thwarting Darcy's plans, and Americans may never be afforded the chance to see the newest pugilistic phenom in action

The subject of a trip to the United States was first broached to Darcy by an American handler of boxers. This man has a wide acquaintance with the sporting lement in this country, and prom Darcy a hearly reception here, But Australla promoters could not see an American "stealing" their most formidabl lighter and greatest drawing card. The critics deplored Darcy's proposed deparharpoon into him for trying to leave his native land after what it had done for him; others mentioned Amerian enterprise as outwitting trusting Australians. Darcy ignored these thrusts until some one intimated that Les was going to America to escape military service.

Must Walt on War. This was flaunting an untruth and Darcy was riled. It soon got to the authorities through an undercurrent, and they requested Mr. Darcy to stay. Les importuned the officials to let him go to America for six months, so that could clean up our middleweight crop. He promised to return when the half year was up. But the authorities were int and Darcy must stay at home until the war is over at least.

A resume of the fight records for 1915 clinch the fact that Darcy is among the to Hart, asked for an option on the club, world's greatest fighters. He lost the one bout to Jeff ith on points early in the year. Darcy afterwards won from Smith in two

ONE TRUE TALE OF BASE BALL

By FRANK G. MENKE. NEW YORK, Jan. 22.-Charles Webb Murphy and his associates paid \$115,000 for the complete control of the Chicago Cubs late in the winter of 1905-06, and during the 1905 season the team cleared \$165,000-a net profit of exactly \$50,000 above the total cost of the club. The story of the Cubs and how Charlie Murphy "ran a shorestring into \$1,000,000

When the first pay day of 1916 arrives for the ball players and Joe Tinker hands a check to Heine Zimmerman, Heine will be entitled to a good laugh at the expense of his new manager.

About two years ago, when the Federal eague expanded and began signing major league players at fat saluries, Heine Zim was lingering in Chicago bemoaning his lot. He was tled up to a contract with the Cube for a small salary and the Feds wouldn't consider him.

"I'll tell you how to get agme money. ugh." said Joe Tinker, who ran across Heine. "You go up and tell Murphy that we have offered you \$7,500 a year and given you the privilege of sitting in the tand until your contract with the ula expires."
