FARM SNAP

190-acre unimproved farm south of Dix Nebraska Lands.

WHEN you buy a farm, get it where it has a future. If you buy high-priced land you are just trading dollars, so to speak. We have a land proposition that ought to interest every farmer seeking to better his condition. Our lands sell at 130 to 150 per acre, on easy terms. The soil is rich and fertile, the climate fine, the water supply pure and plentiful; the rainfall has always been ample fine, the water supply pure and plentiful; the rainfall has always been ample to insure crops. Until a few years ago there was no railroad through this section of the country, but with the advent of a main-line railroad it is now rapidly coming to the front, towns are springing up, and in a few years these lands will double and treble in value. We have personally investigated this land, bought some of it ourselves, and have the agency for a limited supply. These lands are located in western Texas, below the Panhandle. NEW YORK, Jan. 24.—COFFEE—The market for futures was higher today on scattered covering, a little trade buying and some renewed support from Wall street sources. Rumors that a British steamer which had been chartered to carry coffee here from Braxil had been commandeered by the British government evidently served to restrict offerings. The market opened at unchanged prices to an advance of 7 points and May contracts sold up to 7.18c, while September sold at 7.38c, with the market closing at a net gain of 480 points. Firm offers from Brazil were delayed and the cost and freight situation was unsettled. The official cables reported no change in mitrel prices and a decline of 1-32d in Rio exchange on London. Santos reported clearances of 21.090 bags for New York and 60,000 bags for New Orleans.

The trade continued duil all the morning, with prices ranging anywhere from weak to 100 lower, the decline being mostly on killers, while feeders were about steady.

HOGS-The week opened out with another good run, supplies being estimated at 169 cars, or 12,200 head. This is a gain of a few hundred head over last week and 4,000 larger than last year, but smaller than two weeks ago by about 450 head.

SHEEP-Receipts were only twenty-nine cars, or 7.000 head, it being the smallest Menday run since four weeks ago. As compared with last week supplies today show a failing off of more than 6.000 head, while they are less than half as large as two weeks ago, and 3.000 short of the corresponding day last year.

Receipts here failed by a big margin to come up to expectations, but other points reported good runs and sellers found the moderats local supply a poer argument with the packers, who made their opening hids as much as 106726c lower than Friday's early trade.

Sellers tried hard to get bids raised, and most of the forencen passed before much was done. In the end, however, most of the offerings sold at prices that were little if any better than Friday's close and were 106720c, and some traders thought in spots as much as a quarter, below Friday's early trade. It was at the best a very uneven market. General quality was nothing to bras on, and nothing choice was offered, the day's top of \$10.90 being paid for a bunch of good fed westerns of desirable weight. Bulk of the offerings moved at \$10.40276.55.

Aged sheep were only moderately supplied, and while they were slow sales made up to acon looked almost steady with last week. A good kind of ewes sold at \$7.2567.70, while some not so desirable were still in first hands at noon. Nothing of feeder weights was offered. Shearing lambs sold as high as \$10.00.
