FARM AND RANCH LANDS Arkansas Lands,

OR EXCHANGE - Clear Arkansa. farms. Leslie Land Co., Leslie, Ark.

MAKING MONEY WHILE YOU WAIT

There will be planted in our section in Florida this month 16,000 to 15,000 acres of Irish potatoes. These potatoes will go to market about the time the northern farmer is planting and bring prices unhoped for by him. The potatoes will be followed by a crop of corn or other field crops.

Our lands are equally adapted to trucking, small or large farming and stock raising. The largest cattle and hog furm in the United States is being developed in our locality. No one crop country can begin to compare with it. A piace to live as well as to make money. The superb all year round climate should add years to your life.

WHEN you buy a farm, get it where it has a future. It you buy high-priced land you are just trading deliars, so to speak. We have a land proposition that ought to interest every farmer seeking to better his condition. Our lands sell at \$30 to \$50 per acre, on easy terms. The soil is rich and fertile, the climate fine, the water supply pure and plentiful; the rainfall has always been ample to insure crops. Until a few years ago there was no railroad through this section of the country, but with the advent of a main-line railroad it is now rapidly coming to the front, towns are springing up, and in a few years these lands will double and treble in value. We have personally investigated this land, bought some of it ourselves, and have the agency for a limited supply. These lands are located in western Texas, below the Panhandle. CHICAGO GRAIN AND PROVISIONS

CHICAGO, Jan. 27.—Serious danger of extensive winter killing lifted the wheat market today in the face of reports that foreigners were reselling. The outcome was a steady close, 1975c to 13% net higher, with May at \$1.35%91.37 and July at \$1.27%. Corn gained provisions at a finished unchanged and provisions at a rise of 5c to 27%c. kept the wheat pit lively throughout the session.

Fear as to the effect a cold wave would have on winter wheat was heightened by dispatches from the northwest, saying that blimard conditions in some places were the worst in years.

Unsettled weather and the removal of an embargo against shipments to Baltimore put firmness into corn. The market was noticeably unaffected by temporary breaks in the price of wheat.

Oais closed on a rally, but strength was impaired by reports that Argentine oats at Liverpool were being sold cheaper than cargoes from the United States.

Provisions kept pace with hogs opening lower, but advancing later.
