MAKING MONEY WHILE YOU WAIT.

There will be planted in our section in Fiorida this month 10,000 to 15,000 acres of Irish potatoes. These potatoes will go to market about the time the northern farmer is planting and bring prices unhoped for by him. The pota-toes will be followed by a crop of corn or other field crops.

Our lands are equally adapted to trucking, small or large farming and stock raising. The largest cattle and hog farm in the United States is being developed in our locality. No one crop country can begin to compare with it. A place to live as well as to make money. The superb all year round ch-mate should add years to your life.

were little if any more than steady. Buy-ers gradually raised their hands, how-ever, and opening sailes were about 56 10c higher, while eager competition in the middle of the session pushed values up until they were a full dime above last week's close. One packer laid out all through the session, and while most of the hogs sold at prices that were largely a dime higher, close was weak, late sales looking as much as a nickel lower than the best time. Movement was fairly active all the way through, and while late rounds were a little duil a fair clearance was made in good season. Bulk of the sales was made at \$7.6967.75, with a sprinkling of lights from \$7.55 down, and tops at \$7.80. All prices are the highest of the year. The high month of last year.
