REPUBLICANS FOR SIX

Will Go to House With Approval of President and Will be Pressed to the Front.

ASSAILED IN NORRIS SPEECH

WASHINGTON, Feb. 4 .- The Philippine bill, which would extend to the islands a greater degree of self government and would authorize the president to grant them absolute independence within four years, passed the senate tonight, 52 to 24. Various democratic senators led by Chairman Stone of the foreign relations committee, tried unsuccessfully to secure amendment of certain features of the independenc clause, but in th end the democrats, joined by six progressive republicans, voted solidly for the measure.

It is understood the bill will so to the house with the backing of President Wilson and will be preceded for early passage. There has been little indication of what action the house will take, but administration leaders tonight seemed onfident that the bill, including the independence feature, which democratia senators declare squares it with the Baltimore platform, would have the approval of the house democratic majority.

WASHINGTON, Feb. 4 .--- President Wilson returned to the capital from his western speaking trip shortly after 1:15 o'clock this afternoon. He went at once to the White House.

Late today Count von Bernstorff, the German ambassador, received his govenment's answer in the Lusilania negotiations and took it to a conference with Secretary Lansing The ambassador said before conferring with the secretary he did not understand how the instructions he had could be unsatisfactory to the United States.

Secretary Lansing replied to quesloners: "There is absolutely nothing to

said. The matter is confidential." Count von Bernstorff finally made the same reply when inquirers intercepted him.

Finally in response to repeated requests for a statement Secretary Lansing sent out from his office this message; "The situation is unchanged."

"I am making a last appeal for what I think is good faith and just treatment of the Philippines," said Senator Stone in urging his amendment. "I am unquite tionably and unconditionally in favor of carrying out the pledge of the democratic party by relinquishing control over the Philippine Islands completely. I am not in favor of conferring independence with a string to it. I oppose any provision which will make it possible for a future president of the United States to send this issue back to congress. We are, in bis bill, not offering independence in fact, but merely a suggestion of it to some future president."

Senator Norris, in opposing a provision in the bill empowering the president to retain naval bases in the Philippines, declared President Wilson had been converted from a man of peace to a militarist.

"The president," said Senator Norris, "recently announced a program of pre-paredness contrary to views he held a year ago, and in the last few days he has changed his mind on that. Lusitania Case Probably Will

Keep Him Home.

BERLIN, Feb. 4 .--- (Via London.) -Information reaching the Associated Press today indicates that under no circumstances will Germany admit that the sinking of the Lusitania was an illegal act.

The new instructions forwarded to Ambassador. Von Bernstorff, according to this information, contains simply one phrase of the new formulation of the proposed note of regret for the sinking of the Lusitania.

The suggested sentence is short, The president will not lose the advanconsisting of only eight words, and tage in the preparedness discussion he does not contain the word "illegal." believes he has gained by his middle It represents the extreme limit of western trip, it was indicated today, but will press for action by congress on the Germany's concessions in the Lusitarmy and navy blils as soon as possible. ania case. le expects to hold a series of confer-

Crisis is at Hund.

The view is entertained here that one of the most serious crises of the war has arisen in connection with the Lugitania case and that it is impossible to foresee the outcome from any indications here. The result of the negotiations appears to hinge solely on the word 'illegal.'

In the way of an argreement between the United States and Germany stand only these seven letters, expressing the conception which President Wilson and Secretary Lansing Insist must be emodied in the German formula expressing regret for the loss of American lives aboard the Cunarder.

The Associated Press is informed positively and authoritative, that Germany cannot and will not designate as illegal the sinking of a liner by any submarine.

Compromise is Suggested.

Virtually no other difficulties in the way of settlement remain and the new instructions forwarded to Ambassador Von Bernstorff on Tuesday contain merely the new formula by which it is hoped to satisfy Washington without humiliating this country. Although the suggested sentence according to a reliable version, consists of only eight words and does not contain the word 'illegal' or characterize the sinking of the Lusitania as such, it goes to, otherwise, the furtheat extent possible oward meeting American desires.

Has Gone Limit.

Dr. Alfred Zimmerman, under secretary for foreign affairs. in an interview with the Associatel Press expressed the hope that the new formula forwarded to Ambassador von Bernstorff would offer a possible, basis of settlement, However he made no effort to conceal the gravity

of the situation and was most explicit in his statements that Germany reached the extreme limit of concessions and under no circumstances would concede the illegality of her submarine campaign in the war arens.

"The government is willing to do everything in its power, and has done everything in its power, to meet American wishes." he said, "but there are limits beyond which even friendship snaps. 'I do not understand America's course
