CONDRA HELPS TO

Nebraska Conservationist Stamps His Ideas on Program af Next Big Meeting.

NEBRASKA REELS ON SCREEN

(From a Staff Correspondent.) WASHINGTON, Feb. 12 .- (Special Telegram.) -The executive committee of National Conservative conmorang, adjourned late yesterday. The subject selected for the next This was proposed by the chairman being the most appropriate.

Adopt Nebraska Idea. The Nebraska idea of conservation. namely that of development with the least waste possible and the general good was accepted by the committee and is to be a dominant idea in the congress. In Nebraska the promotion work in conservation is closely connected with state ryeys and special investigations. The national conservation congress, falling in line with this plan, is to have the assistance of practically all federal and State departments connected with surveys and industrial development.

The committee during its session visited the president, most members of the ophinet and a large number of branches in the federal government. Hearings were held in which many representatives of these departments spoke concerning the needs in conservation.

Nood of Patriotiam. The first day of the congress is to bring cut the need for a truer patriotism, vis.: That which stands for the best possible pment and emphasizes the need for ater efficiency in people and depart-nts of development as being more imortant than some of the destructive cies which are now receiving much

devoted to the subject, "Mobilization of Resources." In preparation for this a surject remaining of the will be at well be set will be at well be set will be principally from state and federal departments. The committees are to gather information on the distribution, industrial processes and methods of in-creasing the efficiency in production, Smith. F covering such resources as coal, iron,

Other committees are to consider the human resources and their conservation. Fully 500 men and women will be engaged in this work of industrial mobiliza-Dr. Condra, chairman of the committee, has secured the full co-operation of the heads of departments in the selec-

formed similarly. Nebraska is to receive a number of places on the committees.

Leaving Washington early this morning, Dr. G. E. Condra of the University of Nebraska, has gone to New York City to confer with the Pathe Moving Picture company to show them some of the Nebraska resis. This company has promised to circulate the Nebraska films, or some of them, in the eastern states. Similar agrangements have been made at Washington for the distribution of these films by an educational company and by the realismation department.

N. S. Aholt, first on best ten cers yellow

Clarence Vincent, winner first in wheat, Ed Bloomquist, winner first in oats. R. E. Covey, winner first in potatoes. The following were elected officeds for the coming year:

President—A. C. Morrill.
Vice President—Lawrence Peterson.
Secretary—Morace Baker.
Treasurer—G. E. Burka.
Directors—J. L. Oison, E. M. Swanson and E. C. Swanson. A resolution presented by a committee was unanimously adopted favoring prohibition.

Contract for Iowa Building.

WASHINGTON, Feb. 12.—(Special Telegram.)—The contract for the construction of the public building at Washington, Ia., has been awarded to the George W. Stiles Construction company of Chicago at \$46,500.

All black-tread Tires are NOT made--of "BAREFOOT" Rubber

HIS message is written in the Spirit of Prophesy. A few months ago there were I- black-tread Tires on the Market except Silvertown Cord Tires, which we alone manufacture, under exclusive patents.

On January 1st there were no black-trend Tires on the market

EXCEPT these same Silvertown Cord Tires, (which we are not yet equipped to produce in half the quantity the market calls for) and,—
—Goodrich FABRIC Tires,—made from the self-same "Barefoot Rubber" as we have been putting into the Treads of Goodrich Silvertowns.

But,—Soon there will be not only a horde of "Near-Cord," Thread-Fabric "Cord," and other IMITATION "Cord" Tires, but there will also be the customary crop of "Black-Tread" FABRIC Tire Imitations.

THESE black-tread IMITATIONS will resemble Goodrich "Barefoot" (Fabric) Tires as superficially and remotely as the Five-to-Seven layer Thread-Fabric "Cord" imitations resemble the Two-layer real Cord "Silvertowns."

They will resemble them exteriorly just enough to trade upon the Market created by the merit of the Originals.

While Imitation is said to be "the sincerest flattery" we have had such a surfeit of that kind of flattery that we want to discovere it.

And this is to tell the People, before our Black-Tread "flatterers" put their "me-too-Black-Treads" on the Market, that the essence of Goodrich "BAREFOOT-RUBBER" Value to Consumers lies not in the COLOR but in its composition.

It lies in the especially devised Texture, Flexibility, Clingquality, Stretch, Lightness and Resilience of that "Barefoot Rubber" alloy which, through years of Research, WE developed to match the marvellous Flexibility, Resilience and Power-conservation of our Two-layer-Cord "Silvertown" Tires.

Without that Silvertown EXPERIENCE we might never have known, or fully understood, the enormous advantage of such a Clingy, Stretchy, Light-weight, and Responsive RUBBER in all Tires.

OLOR alone would have been little help to us in making Silvertown Rubber Treads stand-up in the tremendous ENDURANCE Tests which the 100-Mile-per-hour-Races of 1915 provided.

And color alone,—Black, White, Red, or Gray—can do little for the Consumer who buys a "Me-too" Black-Tread Tire, of imitated make, on the assumption that all Black-Tread Tires must be made of similar materials.

The marvellous "Barefoot Rubber" now used in Goodrich FABRIC Tires (as well as in Goodrich "Silvertowns") is black only because we elected that color, primarily for distinction and association with our SILVERTOWN CORD Tires.

That COLOR has nothing whatever to do with the surprising Stretch, Cling-quality,—Light-weight, and MILEAGE of the "Barefoot-Rubber" alloy.

When, therefore, the usual crop of "flattering" Imitations sprouts upon the Market DON'T assume that OTHER Black-Tread Tires have in them the "BAREFOOT-RUBBER" which made the enormous ENDURANCE of Silvertown Cord Tires possible in the 90 to 103 Mile-per-Hour Races of 1914-15. to 103 Mile-per-Hour Races of 1914-15.

NOTICE.

GOODRICH FABRIC Tires for 1916, with all the added Value that "Barefoot Rubber" gives to them, will be sold on the same "FAIR-LIST" price basis, as we established in January, 1915, through our propaganda against Padded Price-Lists.

No Tires on the Market, Size for Size, and Type for Type, are

No Tires on the Market, Size for Size, and Type for Type, are LARGER—and none more generously good, at any price.

"Barefoot Rubber" is now made into Goodrich FABRIC Tires,—
Goodrich "Silvertown Tires,"—Goodrich Inner Tubes,—Goodrich Truck Tires,—Goodrich Motor Cycle Tires,—Goodrich Bicycle Tires and Goodrich Rubber Boots, Overshoes, Soles and Heels.

Note (by comparison), the reasonably-low Fair-List prices at which these best-possible Fabric Tires are being sold, on a BUS-INESS basis.
