

HARBOR BILL IS UP TO THE COMMITTEE

Details of Measure, Completed Except for One Item, Become Known.

FIGURES FOR MISSOURI WORK

WASHINGTON, Feb. 15.—Details of the annual river and harbor appropriation bill as completed in committee, except for the administration project to deepen East River channel in New York harbor...

It carries not only cash appropriations for every section, but numerous authorizations for preliminary legislation and surveys at other places.

All of the actual appropriations proposed are for the continuance of work and maintenance of projects previously authorized.

The Only New Project.

If the committee votes tomorrow, as urged by President Wilson and the War and Navy departments, to add to the bill \$700,000 to deepen the channel between the Upper New York bay and the Brooklyn navy yard...

Improvement for the Mississippi and Missouri rivers including completion of projects already under way and maintenance of those completed, included a total cost of \$19,000,000.

For Missouri River.

For the Missouri river \$1,500,000 has been agreed upon for continuing improvements from Kansas City to the Missouri, \$10,000 from Kansas City to Sioux City and \$125,000 from Sioux City to Fort Benton...

The Last Item in the Bill.

The last item in the bill is the appropriation to examine and survey a number of localities in several western states with the view of later improvement appropriations.

German Attack on Riga Front Failure

PETROGRAD, Feb. 15.—(Via London.)—An official statement issued today reports the failure of all German attacks along the Riga front.

"Violent attacks followed from time to time by infantry actions, have been going on for a week along the Dvina on the Riga front, but have not changed the respective positions of the Germans and the Russians, the latter holding fast and successfully repelling all the enemy's attempts at an offensive and have even taken from him some lines of trenches that the Germans had evacuated, owing to the murderous fire of the Russians.

"The Russians took a number of prisoners in the Riga district, who said they were deserters, although there is every evidence that they were snouts."

"Violent disturbances have broken out in the Swedish German army, near Vilna, Lieutenant Haschka, in command at the Village of Girmonds, has been killed and forty officers and numerous soldiers have been court-martialed."

COMMISSION RECOMMENDS DISBARMENT OF G. W. EGAN

SIOUX FALLS, S. D., Feb. 15.—George W. Egan, an attorney of this city and independent-republican candidate for governor of South Dakota, received a private message from Pierre shortly before noon today, saying that the commissioners appointed by the supreme court to take evidence and report findings in the disbarment proceedings against him, brought on charges of unprofessional conduct, had reported in favor of his disbarment.

It is expected that the supreme court will soon follow with the disbarment order.

Pierre, S. D., Feb. 15.—Reference is made to the state supreme court in disbarment proceedings against George W. Egan, Sioux Falls, attorney and independent-republican candidate for governor of South Dakota.

Republicans of New York Meet to Name Delegates

NEW YORK, Feb. 15.—The important question in the minds of delegates to the republican state convention, who assembled here today, for the opening of the convention tonight was whether Governor Charles S. Whitman would head the delegation from New York state to the republican national convention.

The choice of United States Senator James S. Wadsworth, jr., a son of the "big four" was conceded. The two other pieces lay among Frederick C. Tanner of the city chairmen of the republican state committee; William Berry of Brooklyn and Dr. David Jayne Hill of Rochester, formerly American ambassador to Germany.

The convention was called to meet in Carnegie Hall, at 8 o'clock tonight. Elyhu Root will call the convention to order as temporary chairman and deliver a speech outlining issues of the coming national campaign.

After choosing its committees, the convention is expected to adjourn until tomorrow morning, when Senator Wadsworth will be elected permanent chairman.

United States May Make Inquiries of Teuton Capitals

WASHINGTON, Feb. 15.—The United States, in the near future, may make some inquiries of Germany and Austria as to how they intend to determine whether merchantmen are armed before sinking them without warning in accordance with new orders going to their submarine commanders on February 23.

It was made plain today that the United States in its memorandum to the belligerents suggesting disarmament of merchant ships had no intention of proposing arbitrarily to change the law of nations on the seas and it was suggested that the practice of arming ships might be revised to permit them to carry guns of a sufficiently small caliber to be useful for defensive purposes and yet be ineffective against submarines at a distance from which the submarines could strike with impunity.

Secretary Lansing said no formal replies to the American memorandum had been received from the entente allies.

Money for Snagging Is Provided in Bill

(From a Staff Correspondent.) WASHINGTON, Feb. 15.—(Special Telegram.)—While the river and harbor appropriation bill is still in the house committee awaiting its finishing touches, it would not be at all surprising if it were reported to the house tomorrow, certainly by Thursday.

Although the bill is in a tentative shape tonight, enough has been learned to predict that it will provide in the neighborhood of \$100,000 for snagging of the Mississippi river and harbor at various points.

Representative Lobeck, who has interested himself in conditions on the river, especially between Omaha and Decatur, found after diligent inquiry that there was an unexpended balance of \$50,000 for snagging on the upper reaches of the river. This amount, through Congressman Borland of Missouri, was diverted.

Although unauthoritative, it is believed that Lobeck's bill providing for a survey of the Missouri river between Florence and Decatur is taken care of in the forthcoming river and harbor bill.

SAILORS PUT OUT FIRE ON BATTLESHIP

PHILADELPHIA, Pa., Feb. 15.—Quick work by sailors on the battleship North Dakota at the Philadelphia navy yard saved the ship from serious damage by fire last night. They jumped from the bunk at the sound of the fire alarm and extinguished a slight blaze in the engine room in about three minutes.

EDWARD TAGUE, ACCUSED OF HORSE THEFT, BREAKS JAIL

CENTRAL CITY, Neb., Feb. 15.—(Special Telegram.)—Edward Tague, the young man who became involved some time ago in a charge of horse stealing and forgery, succeeded this afternoon in breaking jail the second time within a period of one month.

Doctor Says Nuxated Iron Will Increase Strength of Delicate People 200% in Ten Days

In many instances—Persons have suffered outside agency for years desponding for nervous weakness, stomach, liver and kidney disease or some other ailment when their real trouble was lack of iron in the blood—How to tell.

New York, N. Y.—In a recent discussion Dr. E. Bauer, Specialist, of this city said: If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the number of persons who lack iron and who are ill for no other reason than the lack of iron.

The moment iron is supplied all their multiple of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing grows and does you any good; you don't get the strength out of it. Your food merely passes through your system like cinders through a mill with the refuse on wide apart that she will not grind.

As a result of this scientific knowledge, we have discovered that iron is the element that makes the blood generally weak, nervous and all run down and frequently develop all sorts of conditions. One in ten that is burdened with indigestion, loss of appetite, or any of the ailments that we are so sick with can hardly walk; some take the iron compound, being or live trouble; some can't sleep at night, others are sleepy and tired all day; some have vertigo; some dizzy and bloodless, but all lack oxygen and vitality.

In such cases, it is worse than foolishness to take stimulating medicine or purgative drugs, which only whip up your burning thirst and exhaust your vitality. It is the power of the iron compound, which is the essence of your life later on. No matter what any

Men's Clothing to Increase in Price

(Continued from Page One.)

As a dishonest business man who fails to keep the word of his advertisement.

About half the clothing went to Council Bluffs in the evening to see the Stueber-Rogers wrestling match.

After a busy season Wednesday, they are to have a banquet in the evening at the Pontenelle hotel tendered them by the Manufacturers' and Jobbers' associations of Omaha.

Bankruptcy Too Easy.

"Too many of the young fellows, and others, too, run big bills like that, and when you press them for payment, or talk of suing, they threaten to take the bankruptcy route," said C. E. Wry of Des Moines, secretary of the National Association of Retail Clothiers, in his talk to the convention of the Nebraska Clothiers' association at the Fontenelle hotel.

Mr. Wry pointed out that there is in congress a proposed amendment to the bankruptcy bill which would prevent the banks of the system, particularly in cases of debts under \$500. He urged that the clothiers of Nebraska throw their support to this amendment.

Proposed National Legislation.

The national secretary gave the principal address of the morning session, aside from the address of President Fred H. Barclay of Pawnee City. Mr. Wry took up most of the important proposed national legislation that is of particular interest to clothiers.

He urged support of the Hill bill, which proposes to place a protective tariff on dyes in order to encourage the establishment of home-dye factories, so that America may in the future furnish her own dyes and not be embarrassed by a great war that creates an embargo on the shipping of dyes out of European countries.

The speaker also favored the non-partisan tariff board plan being advocated in congress.

He opposed the pure fabric bill, which proposed to compel the labeling of every fabric with a tag telling exactly what are its ingredients. He declared this would be all but impossible, and would mean nothing to the public, even though complied with.

Opposes Pure Fabric Bill.

He opposed the use of convict labor in the manufacture of articles of clothing and favored the 1-cent postage propaganda, as he said it would help in the advertising expense and in a lot of other ways.

President Fred H. Barclay of Pawnee City, in his opening address, with some forty or fifty delegates present, accorded those who were so negligent during the last year to answer important communications he sent them, even as he said, when he enclosed stamped and self-addressed envelopes for a reply.

"Two-thirds of you did not reply," he said. "For the loyal one-third I am grateful. I do not wish to scold, but I want to say that you can't make an organization that way."

A nomination committee was appointed as follows: A. J. Dehner, Lincoln; E. E. Magee, Omaha; S. M. Durfee, Pierre; N. J. Schmidt, David City; S. Shorley, Humboldt.

The resolutions committee consists of W. G. Uhley, Fairbury; Glen Anwalt, Aurora, and H. A. Groff of Seward. National secretary C. E. Wry of Des Moines is to assist in the drafting of the resolutions.

Yesterday the delegates took luncheon at the Commercial club and enjoyed a round-table discussion, with A. J. Dehner of Lincoln presiding.

Banish Scrofula

Wood's Sarsaparilla Cleanses the Blood, Rids Troubles Vanish.

Scrofula eruptions on the face and body are both annoying and disfiguring. Many a complexion would be perfect if they were not present.

This disease shows itself in other ways, as bunches in the neck, inflamed eyelids, sore ears, wasting of the muscles, a form of dyspepsia, and general debility. Ask your druggist for Wood's Sarsaparilla. This great medicine completely eradicates scrofula. It purifies and enriches the blood, removes humors and builds up the whole system.
