HOGS—Supplies were again of liberal proportions, some 250 cars, or 19,000 head, showing up. The run for the first half of the week foots up 10,125 head, as against 53,141 last week, 56,610 two weeks ago and 30,826 for the corresponding days of last year.

Salers, remembering yesterday's heavy shipper purchases and the strength that developed on the close of the market, asked sharply higher prices this morning, and as shippers again had broad orders they did not waste much time in dickering around, but soon got down to business at prices that were fully 10c higher and in apots even more than that. Several loads reached \$5.00, equalling the best previous price of the year.

Packers' bids showed atrength right from the outset, and apparently fearing that shippers would again get close to haif the supplies kine: buyers were sond those paid by shippers. Packer purchases showed in the main a logico advance, while general trade is quotable as mostly 10g/lic higher. The market was one of the old-fashloned snappy kind, and at 10 o'clock practically everything that had arrived had changed hands, which means that a good share of the supply was good and in some cases better than arrived had changed hands, which means that a good share of the supply as good and in some cases better than arrived had changed hands, which means that a good share of the supply was good share of the supply was good share of the supply was good and in some cases better than those paid by shippers.
