## HEADACHES

Thousands of men and women suffer from headaches every day, other thousands have headaches every week or every month, and still others have headaches occasionally, but not at regular intervals. The best doctor is often unable to find the cause of many of these headaches, and in most other cases, knowing the cause, he does not know what will remove it, so as to give a permanent cure. All he can do is to prescribe the usual pain relievers, which give temporary relief, but the headache returns as usual, and treatment is again necessary. If you suffer from headaches, no matter what their nature, take anti-kamnia tablets. The results will be satisfactory in the highest degree. You can obtain them at all druggists in any quantity, 100 worth, 50c worth or more. Ask for A-K Tablets.

## SICK-HEADACHES

Sick-headache, the most miserable of all sicknesses, loses its terror when the cause is taken. When you feel an attack coming on take two tablets, and in many cases, the attack will be warded off. During an attack take one A-K Tablet every two hours. The rest and comfort which follow, can be obtained in no other way. Genuine A-K Tablets bear the A-K monogram. At all druggists.

## TWO MILLION FIRE AT FALL RIVER

Retail Stores, Hotel and Many Other Large Buildings in Business District Destroyed.

### NONE KILLED OR INJURED

FALL RIVER, Mass., Feb. 16.—Estimates made by owners of property and proprietors of stores in the section of the business district swept by fire early today, indicated that the total loss would be approximately \$2,000,000. A score of buildings, including an apartment hotel and several of the largest retail stores in the city, were destroyed and many others were badly damaged. There was no loss of life and no one was injured.

Police and firemen early in the day were unable to put forward any theory as to the probable origin of the fire. It started in the basement of a four-story brick building at the corner of South Main and Spring streets, occupied by the department store of the Steiger company.

The night watchman in this store, Michael O'Rourke, said today that when he made his last rounds shortly before midnight he saw no sign of fire. A few minutes later, when he was on an upper floor, he heard a noise which sounded like a slight explosion. He hurried downstairs and found the basement filled with smoke.

**Big Store Goes Quickly.**  
When the fire apparatus arrived the Steiger building was ablaze. Within a few minutes the fire had spread to adjoining buildings across South Main street. Help was then called from New Bedford, Taunton and Newport, R. I.

Before the out-of-town engines arrived the flames had made such a start that it was impossible to stop their progress southward along South Main street until they had reached Columbia street. There the Edward building, with a double fire wall, served as an effective check, and by flooding the building and adjoining property the firemen got control of the conflagration.

At the north end of the burning district a water curtain on the department store of R. A. McWhir & Co. prevented a further spread. The granite walls of St. Mary's cathedral protected a residential district nearby.

**Guests Driven from Hotel.**  
The Lenox hotel, diagonally across the street from the Steiger store, was one of the first buildings to suffer. The guests were hastily roused and made their way out by fire escapes and doors in the rear. The front of the hotel was then in flames.

Throughout the progress of the fire drug stores, restaurants and churches were thrown open for the relief of firemen, police and people driven from their homes. The guests at the Lenox hotel were given shelter in private residences.

The fire was the most disastrous in the history of the city. The majority of the structures burned were constructed of brick, three or four stories in height. The heaviest individual loss was suffered by the Steiger company. Members of the firm estimated it at \$600,000 on the building and stock.

## Admiral Grant Asks Four Battle Cruisers And 183 Submarines

WASHINGTON, Feb. 16.—Rear Admiral Grant, commanding the American submarine flotilla, told the house naval committee today that the safest defensive policy for the nation was to build, first, a great number of submarines, then scout cruisers, battle cruisers next, and dreadnoughts afterwards.

If only four capital ships were authorized this year, Admiral Grant said, all should be battle cruisers. Battle cruisers, scouting craft and submarines should be added immediately to the fleet, he said, to secure adequate coast protection. The admiral reiterated that the country should have 183 submarines, or 111 more than are now building.

Admiral Grant said it would take 2,533 enlisted, 333 warrant officers and 333 commissioned officers to man such a submarine fleet.

Taking all facilities in the United States, I think forty-eight boats could be constructed in the next twelve months," Admiral Grant said, "but I do not believe we could get the officers."

They were large and hard and were very red and there were so many festering at a time that I had to squeeze them out and they formed like a ball under the skin. They scattered all over my face and the itching was so intense that I had to scratch my face so much it bled."

"The trouble lasted about a month and I used — tablets, but they did not do any good. I noticed a Cuticura Soap and Ointment advertisement so I thought I would try them. The next day I saw the pimples were going away and I used two cakes of Cuticura Soap and three boxes of Cuticura Ointment and I was healed." ## You Can't Brush Or Wash Out Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Advertisement.

## Two Steamships and Pier Burned at Brooklyn, N. Y.

NEW YORK, Feb. 16.—The steamships, Bolton Castle and Pacific, and a 300-foot pier belonging to the New York Dock company, at the foot of Pioneer street, Brooklyn, N. Y., were destroyed early today by the most disastrous fire on the Brooklyn water front in years. Another steamer, the Palladia, was damaged, about twenty-five scows and lighters were partly or wholly burned, and upwards of forty of the coolies from the Bolton Castle and Pacific were missing after the fire. The loss is estimated at considerably more than \$1,000,000.

The origin of the fire is unknown, but suspicious that it was incendiary were aroused because of the fact that some of the steamers were loading with war munitions, some of which was intended for shipment to the Russian government and to be delivered at Vladivostok.

The Bolton Castle was loading with gasoline for Russia and this fed the flames. The boilers of both the Bolton Castle and the Pacific blew up when the fire was at its height, completing the work of destruction. Several barges loaded

with gasoline lying near the steamers were destroyed.

The Bolton Castle, a British vessel of 2,600 tons, arrived here on February 4 from Singapore, Port Natal and St. Lucia. The Pacific of 2,613 tons, arrived from Hull, England, yesterday. Both belong to the Castle line. The burned pier was leased to Barber & Co., steamship agents, and is believed to have been filled with merchandise, including war munitions.

Six hours after the fire started the police said they accounted for all but two of the missing persons. It was then believed that the loss of life would not exceed that number.

Late reports placed the estimated property loss at more than \$1,000,000. A statement issued on behalf of the agents for the owners of the steamships Bolton Castle and Pacific said their investigation "thus far has failed to develop any evidence which would lead to the conclusion that the fire was of incendiary origin."
