

HOUSE IS STRONG FOR WARNING MOVE

Clark, Kitchin and Flood Tell Wilson Resolution Will Pass if Brought to a Vote.

PRESIDENT IS STANDING PAT

(Continued from Page One.)

before July or August. The only remedy, if action is to be had on this resolution in the near future, is the committee on rules."

There is some doubt, because of recent developments, as to the attitude of that committee. A week ago, however, members who were anxious to have the resolution brought on the floor were given little encouragement.

Majority Leader Kitchin and Representative Flood declined to discuss what took place at the White House. They said that Speaker Clark had been selected to issue all statements. It is known, however, that both of them advised the president that the sentiment in the house for the resolution was strong.

Freedom of Seas Involved.

The president told the house leaders he felt the United States must stand for the right of Americans to the freedom of the seas. He said he hoped he would be able to conduct the negotiation with Germany in such a way that war would be avoided. Speaker Clark, Mr. Kitchin and Mr. Flood all expressed the hope that the United States would not go to war over the armed ship issue. They left the White House saying they believed the situation serious.

The president is understood to have shown deep feeling and to have declared that if the United States gives up the right for which it is now contending it will lose its position as defender of the principles of international law.

President Wilson spent practically the entire morning discussing phases of the foreign situation. In addition to conferring with the house leaders he saw Henry Morgenthau, American ambassador to Turkey, and then took up the international situation with the cabinet.

Great Britain Is Next.

Administration officials said that the president's warning in his letter to Senator Stone that the United States must defend international law from infringement by any nation or group of nations was directed toward all the European belligerents. The government is about ready, it was said, to forward to Great Britain the contraband note which has been under preparation for weeks and will push vigorously the protests already made against seizure of American mails.

Senator Stone said today the report that Germany might postpone action had come to some house leaders from official sources, but he knew nothing of it personally.

"I am not going to permit precipitation of debate today if I can help it," Senator Stone said. It was understood that the United States is not inclined to ask for a postponement of the submarine policy, because such a step might be construed as recognizing its validity.

Many Telegrams to President.

The president was encouraged by a large number of telegrams which reached the White House today from different parts of the country supporting his stand. On the other hand, letters urging passage of a resolution poured into the foreign affairs committee.

Supporters of the agitation expressed satisfaction over getting the president's view into the open, and generally agreed that they were willing to give him every opportunity to continue diplomatic negotiations without interference if there were no immediate danger of war.

Representative Foster of Illinois, author of the warning resolution favored by the majority of the contenders for legislative action, said he did not think it should be rushed under the present circumstances.

Representative McLenore of Texas, who introduced the original warning resolution, insisted that he would continue to urge Chairman Flood to report it, but admitted that he had no hope of favorable action.

Gore Will Push Resolution.

Senator Gore today introduced his concurrent resolution to warn Americans off armed ships and declared that he was all the more enthusiastic in his purpose in view of the correspondence made public between the president and Senator Stone.

"In adopting my resolution there would be no abridgement of American rights," he said. "I purposely worded it so as to express this idea."

A resolution to express the sense of the senate that any issue affecting national honor should be referred before decision to congress and that no ultimatum should be sent to a foreign power nor severance of diplomatic relations be permitted without reference to congress was introduced today by Senator Jones, republican, of Washington.

WASHINGTON, Feb. 25.—The fight in congress over warning Americans off armed ships marked time today with the parliamentary situation and other developments favoring President Wilson's position.

At an early morning conference with house leaders the president was told that if resolutions to warn Americans could be forced to a vote now they would be passed in the house by a majority of two to one.

President Wilson, nevertheless, firmly and emphatically reiterated the unyielding position he outlined last night in his letter to Senator Stone. The leaders went back to the house prepared to hold the situation in check for the present at least.

Former Secretary Bryan's influence came openly into the fight today when representative Bailey of Pennsylvania, gave out a telegram from Mr. Bryan opposing the president's position and supporting the agitation in congress.

In the senate Mr. Lodge, the ranking republican of the foreign relations committee, openly declared his support of the president's position. Senator Gore, democrat, introduced his resolution warning Americans, and Senator Jones, republican, introduced a resolution to require a break in diplomatic relations to be referred to congress. There was no discussion.

The cabinet discussed the situation thoroughly and administration officials said the members were standing solidly behind the president.

Secretary Lansing said so far as he knew no word had been received from Germany concerning a postponement of the new submarine policy.

Quick work by Speaker Clark prevented a threatened discussion in the house after it convened.

Representative Hubert of New York, a democrat, asked unanimous consent for printing 2,000 copies of the McLe-

NEW PICTURE OF CHICAGO POISON VICTIM—This artistic study shows a good likeness of Miss Marian Lambert, the Highland Park High school girl, whose body was found in the woods of the Chicago suburb, and for whose murder William Orpet, University of Wisconsin junior, is held in custody.

MARIAN LAMBERT

more resolution. Republican Leader Mann objected. Representative Bailey of Pennsylvania, who is an ardent supporter of the resolution and who had a telegram from William J. Bryan supporting the agitation, shouted for recognition. Speaker Clark banged his gavel, recognized Representative Fitzgerald of New York and with Representative Bailey still striving to be heard, the house passed to other business. Bailey afterward denied that he was attempting to read the Bryan telegram.

Man Once Sentenced To Hang Is Given Freedom on Parole

FORT DODGE, Ia., Feb. 25.—(Special.)—

Nathan F. Haworth, a former Fort Dodge, is out on parole after serving fourteen years of a life sentence for killing Thomas Sandall, a night watchman of Layton, Utah, on the night of March 28, 1899.

Haworth was first sentenced to death. Through the efforts of his lawyers, however, the sentence was commuted to life imprisonment. In 1903 Haworth escaped from prison with another life in a break which cost one convict his life and in which three guards and five convicts were wounded.

Haworth stoutly maintains his innocence. He was convicted on a confession he is alleged to have made, but which he says he did not make.

During the sixteen-year fight for liberty Haworth's aged mother and his wife have died. His father, formerly a prominent contractor here, now lives in Denver. One brother still is here.

Haworth's conduct in prison has been excellent and there are many in Utah who believe he is innocent.

Page Will Ask About Search of Steamship China

WASHINGTON, Feb. 25.—The United States today instructed Ambassador Page at London to make inquiries at the British foreign office regarding the removal of thirty-eight Germans, Austrians and Turks from the American steamship China in Asiatic waters and to demand the release of the prisoners if they were arrested on the high seas, as has been indicated.

Great Britain maintains extra territorial rights over the waters immediately adjacent to Shanghai, the China's sailing port for San Francisco. Should the British government show that the vessel was within waters under British jurisdiction the United States would not have cause for further action.

Advices to the State department leave in doubt the exact position of the China. One consular report fixed the location as "ten miles off shore."

The State department has been advised that the British foreign office is investigating the incident.

Sections of Sisal Pact Held Illegal

WASHINGTON, Feb. 25.—Attorney General Gregory has warned officials of the Pan-American Commission corporation that some sections of their contract to furnish money for marketing the sisal crop of Yucatan might violate the laws of the United States.

Lynn H. Dinkins, vice president of the corporation, so testified before the senate sisal investigating committee. A provision guaranteeing the corporation 5 per cent on all sisal sales was the objectionable feature, Mr. Dinkins said. Negotiations were pending, he added, to revise the contract to give a flat rate on sales instead of the percentage.

A charge read into the record by Senator Curtis of Kansas that L. C. Browne, assistant secretary of the commission corporation, had told business men of Kansas that the commission had offered \$200,000 in gold to Governor Alvarado of Yucatan in return for a monopoly of sisal, was denied by Mr. Dinkins.

Seer Is Accused Of Trying to Get Man to Buy Stock

CHICAGO, Feb. 25.—Herbert Caville,

who says he formerly was head of the Institute for Mental Science at San Francisco, Cal., was held by the Chicago police today on a telegram from the San Francisco police saying Caville is wanted for "fleecing a number of men out of thousands of dollars."

The telegram said Mrs. Caville probably would call at the postoffice for her husband's mail. Detectives recognized the woman at the postoffice, followed her to a hotel and arrested Caville. Mrs. Caville was not arrested.

Caville denied the charge and said he would return to San Francisco voluntarily.

SAN FRANCISCO, Feb. 25.—Herbert Caville, alias Alexander Walton, is specifically charged here with the larceny of \$1,000 from Antonio Spalletta, a farmer of Petaluma, who sought relief from illness from clairvoyants. According to the police Spalletta was fleeced out of \$2,800.

Walton and four clairvoyants were named by the police as members of an alleged "big five" which operated along the Pacific coast and it is said obtained about \$200,000 from clients in the last two years. Of the members of this supposed organization Byron Kingston is awaiting trial here charged with attempting to bribe a witness; William Castle is a fugitive from justice, according to the police, and Henry Van Dyke is sought as a witness. A fifth man, termed by the police the "master mind," is at large.

Walton's description, the police said, tallied with that of Herbert Luson, wanted at Los Angeles for jumping bail on a larceny charge.

Spalletta, according to his story to Charles M. Fickert, district attorney, a month ago, bought 12,000 shares of stock in the "Rock Springs Mining company" for \$4,000. Spalletta said it proved to be an abandoned prospect. He said he was assured the purchase of the stock would aid in driving out the "evil spirit."

He is 64 years old, has a wife and four children. The money he gave to the "mystics" represented his life savings.

John Grant Lyman Indicted on Charge of Misuse of Mails

NEW YORK, Feb. 25.—John Grant Lyman, believed to be under arrest in St. Petersburg, Fla., was indicted by the federal grand jury today on the charge of using the mails to defraud. Prompt action was taken by the federal authorities here on receipt of information that the prisoner sought release on a writ of habeas corpus.

Federal officials are positive the man is Lyman. They say they have traced his flight since leaving New York through Philadelphia, Washington and Richmond, Va., to Florida.

WASHINGTON, Feb. 25.—Postal authorities announced today that they were satisfied the man arrested last night at St. Petersburg, Fla., was John Grant Lyman, wanted in New York for using the mails to defraud, and estimated at from \$400,000 to \$700,000 the amount he is alleged to have obtained through his New York office and branches at Hartford, Conn., and Springfield, Mass.

New York Subway is Tied Up by Flood

NEW YORK, Feb. 25.—New York's subway, which carries more than a million passengers a day, experienced the worst tieup in its history today because of flooded tracks, the result of a heavy downpour of rain. Trains became blocked during the morning rush hours by floods of water which poured into the tube near Times square and ran two feet over the roadbed. Traffic had not been restored to normal by mid-afternoon and downtown business activity was demoralized as the result of the failure of thousands of workers to reach their offices on time.

CALL YUAN SHI KAI NATIONAL OUTLAW

Chinese Insurgents Send Note to Powers Asking Them to Maintain Neutrality.

ARE THE REAL GOVERNMENT

(Correspondence of the Associated Press.)

PEKING, Jan. 23.—Dr. Paul S. Reinsch, American minister to China, and the heads of other legations in Peking received a formal circular dispatch today from Tang Chi-Yao, the military governor of Yunnan, and Jen Kao-Tseng, civil governor of the same province, urging foreign powers to remain neutral in the present Chinese revolution. The circular says:

"Sir: The Wu-Chang revolt broke out on October 10, 1911, and the different provinces followed the lead because the people of the country had long suffered from the oppression of monarchical government. They, therefore, rose up in a revolution over the question of the form of government. Recognition of belligerency was extended at this time by the friendly powers and neutrality proclaimed. The provisional government was set up at Nanking and a government of the people established. The Manchu emperor abdicated, the republic was proclaimed, and notifications were sent to the friendly powers. Later, when the regular assembly had been established and the organization of the government had been completed, recognition was extended separately by each of the friendly powers, who thereby earned the deep gratitude of the people of our country."

"Unfortunately, the present president of this country, Yuan Shi Kai, plotted to overthrow the republic in opposition to progressive sentiment in the country."

Hope Powers Will Be Neutral.

"We the military and civil governors, in order to show respect for the constitution and uphold the republic, have dispatched the loyal army against the national outlaw. We hope that the friendly powers will maintain a benevolent neutrality."

"The treaties entered into between the republican government and the Manchu government and the different nations before the question of the form of government was raised, will all continue in force, and responsibility for indemnities and loans will be maintained as before."

"We, the military and civil governors, will be entirely responsible for the protection of the lives and property of the nationals of the different powers residing within the limits over which we exercise control."

"The republic will not recognize treaties, agreements, loans, etc., entered into between Yuan Shi Kai or his government and the different nations after the question of the imperial form of government arose."

"In case any of the powers assist Yuan's government with contraband of war, upon discovery the same will be confiscated. If officials, merchants or people of the different nations commit acts to assist Yuan's government and injure us, opposition will be offered."

Weekly Paper Paid Brandeis \$25,000 in Ballinger Case

WASHINGTON, D. C., Feb. 25.—Mark

Sullivan, editor of Collier's Weekly, testified today before the senate committee, investigating the nomination of Louis D. Brandeis for associate justice of the supreme court, that Collier's paid Mr. Brandeis \$25,000 as his attorney at the Ballinger-Pinchot investigation in 1909. In addition he got \$2,250 for reimbursements.

Senator Works pointed out that Mr. Brandeis appeared on the record as attorney for L. D. Glavin, who had made charges against former Secretary Ballinger. Mr. Sullivan produced the checks by which Mr. Brandeis was paid.

Charles E. Kelley, counsel for Collier's, testified he had advised Collier's to employ Mr. Brandeis in the Ballinger-Pinchot affair and that during the hearing he was continuously in conference with Mr. Brandeis "on the side."

"Mr. Brandeis said he did not care to have me appear with him before the committee," Mr. Kelley said, "because he said he was going to appear, or was appearing, for Mr. Glavin."

On cross-examination Mr. Kelley said that as between Mr. Brandeis and himself he understood Mr. Brandeis intended that it not be known he appeared for Collier's. Mr. Brandeis, he thought, decided on that course as a matter of "policy."

GOOD ROADS CAMPAIGN STARTED AT DENISON

DENISON, Ia., Feb. 25.—(Special.)—A movement is on foot to ask the voters of Crawford county to authorize the issuing of bonds to make permanent graveled roads. A joint meeting of the board of supervisors and the member of the Denison Commercial club was held last evening. County Engineer Pishell made a comprehensive address, illustrated with views of good road work done in this county. Within a few weeks there will be a larger meeting of farmers and all interested, which will be addressed by Mr. Norris of the commission to report to the legislature on good good roads. There are now three counties in Iowa which have issued bonds payable in twenty years and excellent progress toward passable roads the year around has been made.

Eczema Is Conquered

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 25c or \$1.00 for extra large size, get a bottle of Zemo. When applied as directed, it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, dries and soothes. Zemo is dependable and inexpensive. Try it, as we believe nothing you have ever used is as effective and satisfying.

Zemo, Cleveland.
